Concept: Signage and wayfinding system.

“A comprehensive signage and wayfinding system should be installed throughout the study area, including educational and interpretive opportunities. See also the signage and wayfinding proposal described in Summer Map ID #30.”

Rationale: “A uniform and comprehensive signage and wayfinding system will enhance the user experience by providing specific information (trail length, degree of difficulty, etc.), more general information (overview of stacked-loop system, public-transit schedules, etc.), interpretive opportunities (anatomy of a meadow, mining-town history, etc.), and education that will assist with enforcement of policies (on- and off-leash areas, motorized/non-motorized use, etc.).”
