CAMP (Concept and Master Planning) Outreach Executive Summary

Under contract with and partially funded by the Town of Mammoth Lakes, MLTPA planned and executed a comprehensive public-outreach effort to gather community input on recreation, trails, and public access in Mammoth Lakes. This project was fulfilled in large part by two large-scale, multiple-day public meetings, as well as by ongoing data collection via the Summer and Winter Online Trail Surveys. The first public event, CAMP: SUMMER, focused on summertime conditions, and the second, CAMP: WINTER, on wintertime conditions, allowing the trail planning consultants to experience the Mammoth Lakes region in its divergent seasonal articulations, and to therefore ensure that these same consultants specifically address the challenges and opportunities presented by each. MLTPA retained a local events-management firm, Opposing Motion, to assist with these efforts.

Working with Opposing Motion, MLTPA organized both events, including, but not limited to: venue location; on-site operations; vendor contracts; food and beverage; audio/visual needs; Exhibit Hall display construction, setup, and breakdown; exhibit and signage design, production, transportation, and storage; marketing, advertising, and other promotions; consultant travel, accommodations, local transportation, and on-site needs such as lift tickets and sports equipment; tour planning and vehicle security; comprehensive event scheduling; registration; creation and production of informational materials; media relations; public comment collection; and public outreach. The following report details MLTPA's efforts on the CAMP: SUMMER and CAMP: WINTER events, as well as the persistent Summer and Winter Online Trail Surveys, and is supplemented with analog and digital attachments to illustrate or provide further detail and insight into specific elements.

MLTPA also was responsible for participating in the collection and development of GIS data. MLTPA staff worked in conjunction with the Town of Mammoth Lakes and with Data Management Technology, Inc., an independent firm retained by MLTPA specifically for CAMP, to accomplish these tasks. A detailed report on this project may be found in the "GIS Data Collection and Development" section of this report.

For clarity, specific community input from CAMP: WINTER, CAMP: SUMMER, and persistent outreach efforts has been compiled in the "Public Comment" section, to be found at the end of this report.

Chapter 1: Outline of Event

CAMP: WINTER—a free, public event designed to solicit and record input from the community regarding recreation, trails, public access, and the Concept and Master Planning (CAMP) process for use by the trails planning consultants—was staged at the Mammoth Mountain Ski Area (MMSA) Main Lodge on February 7–12, 2008. A persistent Exhibit Hall/Base CAMP was located in the Mountainside Conference Center on the third floor of the building, where MLTPA staff, Board members, and volunteers manned the Registration Table, led informal tours of the Exhibit Hall, registered guests and signed them in for events, provided general CAMP and event information, distributed takeaway materials, added guests to the e-newsletter mailing list, assisted guests with taking the CAMP: WINTER Online Trail Survey at on-site computer kiosks, and facilitated one-on-one meetings between CAMP Partners, the general public, and the media. A total of 167 unique guests participated in CAMP: WINTER, over a span of five days and 18 individual sessions. Please refer to the following subsections for more detailed information.

Chapter 2: Banners

MLTPA designed and produced two banners to drive guests from MMSA high-traffic areas to the event: one hung on the railing of the Village gondola station, and one hung on the outside of Main Lodge above the ticketing entrance closest to the Main Lodge parking lot. The color scheme and graphics were large, clear, and in keeping with the overall visual scheme of the event, which the CAMP Partners had previously approved.

Chapter 3: Directional Signage

MLTPA designed, produced, and placed directional signage for the event at the ticketing area closest to the Main Lodge parking lot, inside Red Line bus station #1, on the stairwell landing of the third floor, inside the dining area of the Broadway Marketplace on the third floor, and just outside the Mountainside Conference Center to direct guests to the Exhibit Hall, CAMP: WINTER sessions, and the CAMP: WINTER Online Trail Survey computer stations (See the “CAMP Online Trail Surveys” section, distinct from the “CAMP: WINTER” section, for further detail on that element.) In order to direct guests to Main Lodge from town and other MMSA locations, as well as to attract walk-in attention to the event, MLTPA also designed, produced, and placed simple directional signage inside Eagle Lodge, inside Canyon Lodge, in the Suite Z parking lot, outside the stairway to Suite Z, on the doors of Suite Z, outside the Visitors’ Center, on the pathway leading to the Visitors’ Center, and at the turnoff to the Visitors’ Center from Hwy. 203 eastbound as well as westbound. Parking directions were included. Graphics were large, clear, and in keeping with the overall visual scheme of the event as previously approved by the CAMP Partners.

OPPOSING @ M O T I O N

MLTPA Foundation CAMP: Winter Graphics Request

Graphics Deliverables:

Item	Submit Request	Submit Proofs	Proof Approvals	To Production	Product In-hand/Mailed
<u>Exhibits</u>					
-Welcome to Camp	Jan 17	Jan 22	Jan 25	Jan 28	Feb 1
-MLTPA	Jan 17	Jan 22	Jan 25	Jan 28	Feb 1
-What is Camp?	Jan 25	Jan 30	Feb 1	Feb 1	Feb 4
-Ambassador Exhibit	Jan 25	Jan 30	Feb 1	Feb 1	Feb 4
Persistent Signage	Jan 16	Jan 18	Jan 21	Jan 21	Jan 25
Directional Signage	Jan 16	Jan 22	Jan 24	Jan 25	Feb 1

Exhibits:

Headers: Each Exhibit will require a header. It seems that the header has already been designed. Here is a list of the Exhibit Titles needed:

- Welcome to CAMP Registration
- Lake Mary Bike Path (should we use the orange header for this one if we show the exhibit as it was part of CAMP Summer?)
- Planning Exhibits
- Public Participation
- MLTPA (This header John will create...I can delete it here)
- Vision
- What is Camp?

Opposing Motion – Event Management Services
PO Box 3991, Mammoth Lakes, CA 93546, Tel. 760-934-4093, Fax. 760-923-6388

OPPOSING @ MOTION

Welcome to Camp Registration: This exhibit will be the same as last year using the winter poster and background.

- Partner Panel: Same logos, size and layout...add in the CAMP Winter Background and logo.
- Poster: Use the winter poster resized to specs for this exhibit...
- Event Schedule: The schedule is final but we do not want to send this in until Feb. 28 to make sure that there are no changes. You could create a winter background for approval before hand. The panel will be the same size and include a similar amount of text.

MLTPA: This exhibit will remain the same as far as overall design. Each panel will need to be updated with copy only. We will send copy updates for each panel. John will be creating the header here.

What is CAMP?: This is a new exhibit approximately the same scope as the MLTPA exhibit was for summer. This will be an exhibit where John will create a concept for it with specific direction on the design. Depending on the detail we may arrange a meeting to discuss. Here are the elements so far.

- CAMP FAQ's
- What is CAMP?
- Signage Examples (MLTPA to pull together photos for this one)

Ambassador Exhibit: This one will be located in Alpine Approach retail shop. The space available here is different than the other exhibits. It will be a permanent display at the store. John will provide direction on this design. If you are in town it would be helpful to stop by and see the space allocated.

OPPOSING @ M O T I O N

Persistent Signage:

Banner: Create a banner 3'HX10'W with a dark blue background the color of the header created for CAMP Winter exhibits. We would like to see a version with the light blue used as a background just behind the log...lets discuss some other ideas.

See Copy below.

CAMP:

WINTER (filling up the height on the left side of the banner)

PARTICIPATE IN TRAILS MASTER PLANNING IN MAMMOTH LAKES

February 7–12, Main Lodge

www.mltpa.org

Directional Signage:

Small Size: There are 2 different versions of small directional signs. Initially we need to create a template similar to summer with the winter background and logo to drop copy and arrows into. See the two versions below. Once we have the basic layout approved I will send any specifics for each sign...some will need arrows in various directions.

Opposing Motion – Event Management Services
PO Box 3991, Mammoth Lakes, CA 93546, Tel. 760-934-4093, Fax. 760-923-6388

OPPOSING @ M O T I O N

Directional Signage Outside of Main Lodge:

Top block of poster ("THE MLTPA FOUNDATION PRESENTS CAMP: WINTER // WINTER RECREATION AND TRAILS IN MAMMOTH LAKES")
February 7–12, 2008

VISIT THE EXHIBIT HALL
Mountainside Conference Center
Main Lodge, 3rd Floor

Free and open to the public

Include partner logos across the bottom as in the poster

Directional Signage Inside Main Lodge:

Top block of poster ("THE MLTPA FOUNDATION PRESENTS CAMP: WINTER // WINTER RECREATION AND TRAILS IN MAMMOTH LAKES")
February 7–12, 2008

VISIT THE EXHIBIT HALL
Mountainside Conference Center
3rd Floor

Free and open to the public

Include partner logos across the bottom as in the poster

Opposing Motion – Event Management Services
PO Box 3991, Mammoth Lakes, CA 93546, Tel. 760-934-4093, Fax. 760-923-6388

OPPOSING @ M O T I O N

Large Size: There will be one version of large directional signs used outside on roads. Initially we need to create a template similar to summer with the winter background and logo to drop copy and arrows into. These signs will be very similar to the large directionals from Summer. See three examples of copy for signs that we will need below to create the template.

Sign #1

CAMP: WINTER logo
TOURS

(big arrow pointing right)

Include partner logos across the bottom as in the poster

Sign #2

CAMP: WINTER logo
TOURS MEET HERE

(one big arrow pointing straight up)

Sign #3

CAMP: WINTER
Suite Z

(big arrow pointing straight up)

Quantity 2 One on pole in parking lot and one at the base of steps (might need a left arrow)

Quantity 2 Visitors Center entrance Pathway and in front of Visitors Center

Quantity 1 Point to T&R Door

Quantity 2 East Bound Visitor Center

Quantity 2 West Bound Visitor Center

Quantity 2 Suite Z Doors

Quantity 1 Main Lodge 3rd Floor
From Cafeteria to MCC

Quantity 2 Entry near bus station
Top of steps 3rd floor

Quantity 1 In front of Entry doors MCC

Quantity 2 Eagle, Canyon

Quantity 1 Ticketing Main Lodge

CAMP: WINTER directional signage

CAMP: WINTER directional signage

CAMP: WINTER directional signage

CAMP: WINTER signage

Chapter 4: Display Materials

Materials for review, available on tables in the Exhibit Hall beneath relevant panels. Parties responsible for each item are identified in parentheses. (*Materials available upon request.*)

- **GIS Inventory Contract (GIC) field sheet binders (MLTPA)**
Complete information gathered for each point of public access (summer and winter) identified by MLTPA in fulfillment of the 2006 GIS Inventory Contract (GIC). Sheets included: activities associated with each point; photos of each site's relative location, signage, and condition; comments and notes; information about the volunteer who assessed each point; and other information. See the latest version of the MLTPA GIC on file in the Town of Mammoth Lakes Planning Department offices for further detail.
- **"Golf Course Report" (MLTPA)**
A report produced by MLTPA in 2006 describing the winter passage and recreation opportunities of golf courses in peer Western resort communities
- **Mammoth Trails sign-up sheets (MLTPA)**
Guests signed up to receive more information about Mammoth Trails, MLTPA's concept for a confederation of local user groups dedicated to providing information about and stewardship to the Mammoth Lakes trails and public access system, by entering their contact information in the provided ledger.
- **"MLTPA Action Plan" (MLTPA)**
Document developed by MLTPA and Jeff Olson of Alta Planning + Design at the close of MLTPA's 2006 Public Meeting and Strategic Conference to describe next steps for what would become the MLTPA Foundation and the CAMP process. This plan was validated by the members of the Interim Working Group, comprised of invitees to the Strategic Conference.
- **MLTPA E-newsletter sign-up sheets**
Guests signed up to receive e-mail updates on MLTPA activities by entering their contact information in the provided ledger.
- **"Mobility Plan Resources Report" (MLTPA)**
A 126-page document produced by MLTPA in 2006 identifying 100 trails and points of public access in Mammoth Lakes as observed by community volunteers. This report was presented to the Town Council and Planning, Tourism & Recreation, and Public Arts commissions at a joint meeting in July 2006, and was the basis of the GIC.
- **"Peer Resorts Report" (MLTPA)**
A report produced by MLTPA in 2006 describing the structure and relationships of nonprofits, private enterprise, and government in trails planning, advocacy, implementation, and stewardship as found in peer Western resort communities

Chapter 5: Exhibit Hall

The Exhibit Hall/Base CAMP acted as a consistent information hub where guests could learn about the CAMP process and specific CAMP: WINTER activities at any time during Mammoth Mountain Ski Area (MMSA) business hours. It served also as the central meeting place for some CAMP: WINTER sessions and tours, and as the CAMP: WINTER Online Trail Survey station. (Please see the “CAMP Online Trail Surveys” section, distinct from the “CAMP: WINTER” section, for further detail on that element.) Visitors were encouraged to explore the Exhibit Hall via a self-guided tour document prepared by MLTPA.

Exhibit copy, images, and other elements were either generated and assembled in-house by MLTPA and its vendors or supplied by the consultants to MLTPA for production. Once printed, they were mounted on foam-core panels. Each panel was then suspended from a series of temporary walls constructed by MLTPA and lit by incandescent lights mounted at the top of each wall. Eight exhibit walls, varying in number of component panels and display materials, were displayed in the Exhibit Hall. Parties responsible for each wall are identified in parentheses following the wall names.

○ Exhibits: Entrance Hall

- **“Welcome to CAMP” Wall (MLTPA)**

Entrance area for Exhibit Hall; first point of public contact with CAMP: WINTER. Staffed daily during MMSA hours of operation and during evening sessions by MLTPA staff, Board members, and volunteers.

- **“CAMP: WINTER Partners” panel**

Listing of CAMP partnerships (Jurisdictional, Funding, and Planning) and involved parties, represented by logos

- **“CAMP: WINTER Poster” panel**

Blow-up of CAMP: WINTER poster produced by MLTPA. See Chapter 6h, “Collateral,” for further detail.

- **“CAMP: WINTER Event Schedule” panel**

Comprehensive daily schedule of receptions, sessions, presentations, and other activities planned for the CAMP: WINTER event period

- **“Lake Mary Road Bike Path” Walls (Town of Mammoth Lakes)**

Information regarding the in-process Lake Mary Road Bike Path project, which, although preceding CAMP efforts, is an integral part of the in-town Mammoth Lakes Trail System

- **“Walk the Lake Mary Road Bike Path” sequence**

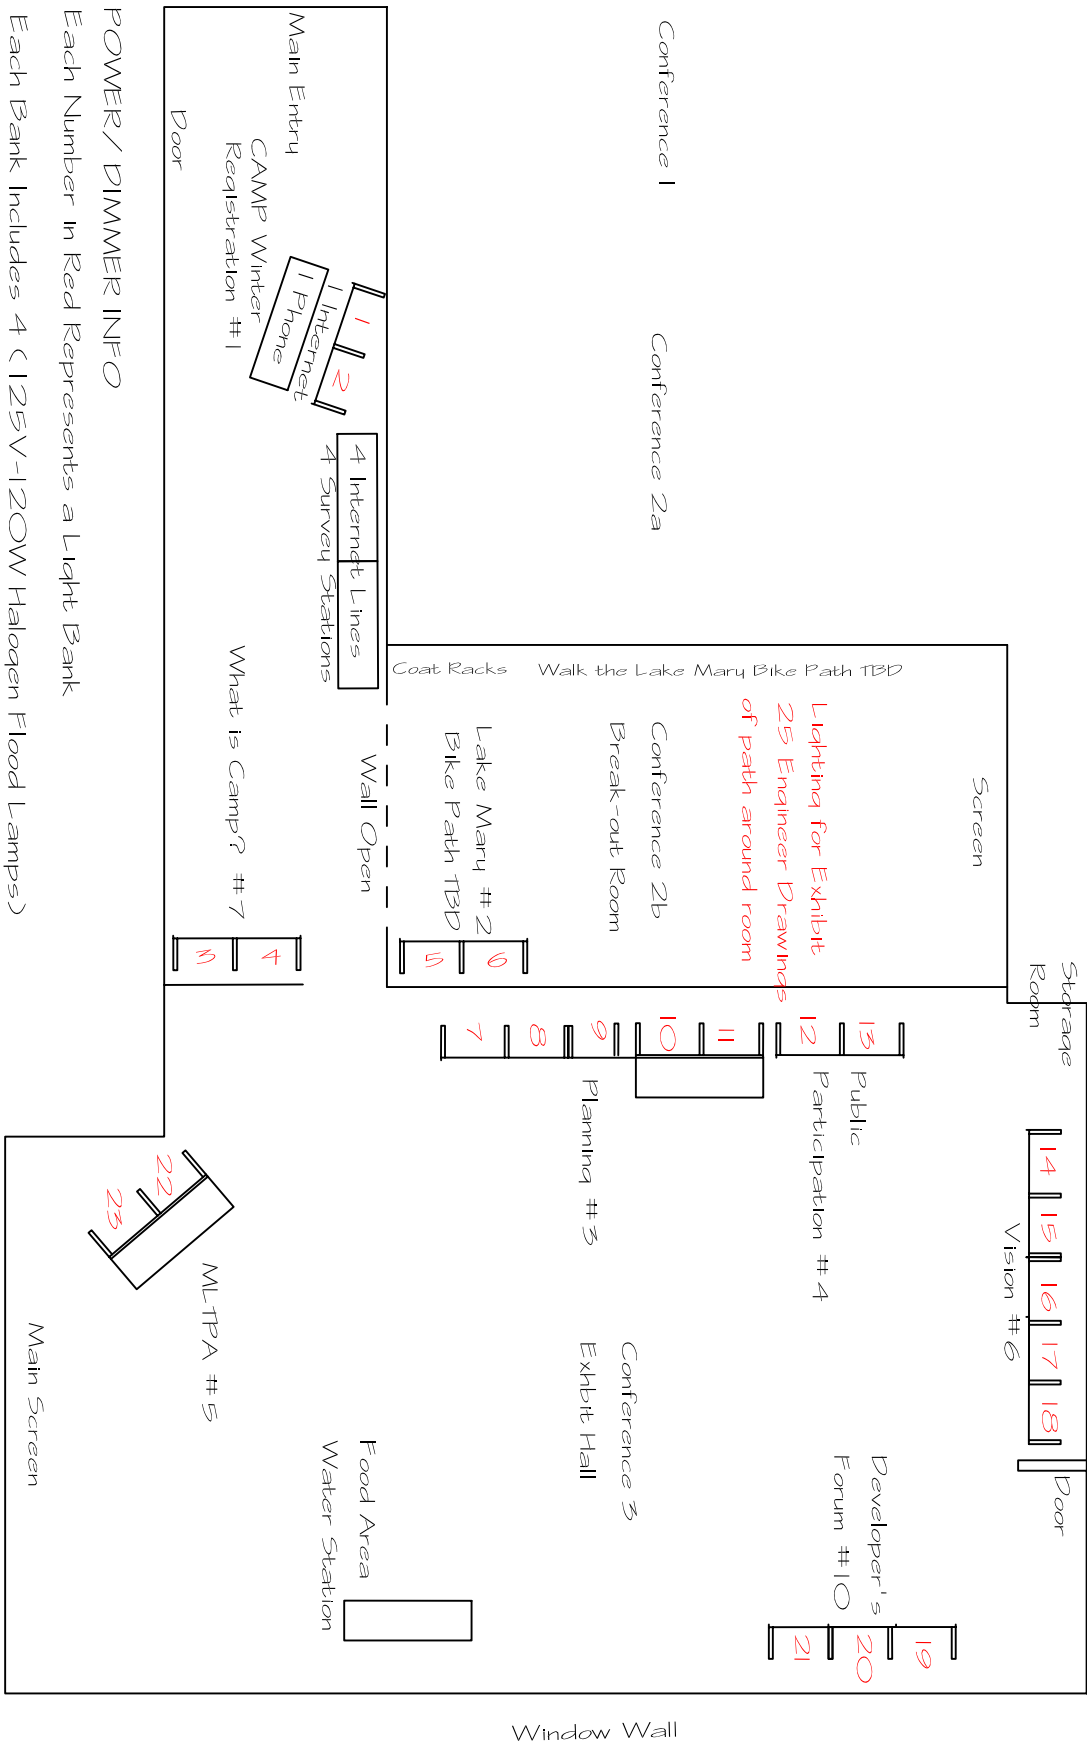

Large-scale black-and-white reproductions of the Lake Mary Road Bike Path construction drawings, arranged consecutively along one wall and featuring landmarks for reference

- **“Lake Mary Road Bike Path Project” panel**
Aerial photograph of the southwestern section of the Town of Mammoth Lakes, overlaid with the Lake Mary Road Bike Path future route. Information regarding construction, funding, history, and project timeline was included.
- **“What Is...?” Wall (MLTPA)**
 - **“What Is CAMP?” panel**
Answers to questions frequently asked about the Concept and Master Planning process (CAMP)
 - **“What Is GIS?” panel**
Information provided by the U.S. Geological Survey (USGS) about Geographic Information Systems (GIS) and how GIS is commonly used. Visitors were encouraged to request a GIS data collection demonstration at the Registration Table.
- **Exhibits: Main Hall**
 - **“Planning Exhibits” Wall (MLTPA, Alta Planning + Design, Trail Solutions)**
Consultant- and MLTPA-generated CAMP planning exhibits specific to winter recreation, trails, and public access
 - **“Mammoth Lakes Area Jurisdictional Boundaries” panel (MLTPA)**
GIS-generated map identifying jurisdictional aegis over lands contained within the Town of Mammoth Lakes Planning Area, Town Boundary, and Urban Growth Boundary, intended to highlight the multi-partnered nature of trails planning in Mammoth Lakes
 - **“Winter Trail Types” panel (Alta Planning + Design and Trail Solutions)**
Photographic overview of the different types of trails one might find in the Mammoth Lakes area in the wintertime, the type of terrain of which they are composed, which users take advantage of these systems, and what levels of maintenance and liability are associated with each
 - **“Snow Management Equipment” panel (Alta Planning + Design and MLTPA)**
Photographic examples of a few of the many different types of heavy machinery used by the Town, the USFS, Caltrans, MMSA, and private parties to remove, store, and otherwise manage snow in the Mammoth Lakes area
 - **“Signage Types” panel (Alta Planning + Design and Trail Solutions)**
Photographic examples of signage that is typically part of a comprehensive signage and wayfinding system, explaining the purpose and general design guidelines of each

- **“CAMP: SUMMER Lessons Learned” panel**
Summary of some of the most important points generated by the extensive public input given during CAMP: SUMMER in November 2007
- **“Town of Mammoth Lakes: Winter Access Portals and Activities” panel (Alta Planning + Design)**
GIS-generated map showing the access points the public has traditionally used in the wintertime to get from the Town of Mammoth Lakes out to Inyo National Forest, as well as the activities occurring in these areas. These access points are dependent on snowfall, and are different than the access points used by the public in the summer months.
- **“Town of Mammoth Lakes: Existing Winter Facilities & Near-Term Projects” panel (Alta Planning + Design)**
GIS-generated map showing the trails, pathways, staging areas, and trailheads currently in place in the Town of Mammoth Lakes, as well as projects that are planned to be executed in the near future. It addresses also the snow removal and management of each of these amenities.
- **“Public Participation” Wall (MLTPA)**
 - **“Mammoth Lakes Area Trails and Access Points for Public Comment: A Pin Marks the Spot” panel**
GIS-generated map of GIS Inventory Contract–collected winter access points as defined by the Town of Mammoth Lakes Planning Area, Town Boundary, and Urban Growth Boundary. Participants were asked to identify areas of concern by selecting a numbered pushpin and inserting it into the spot in question on the map. They would then record their comments about the spot in the corresponding numbered space in the provided ledger. See the “Public Comment” section for further detail.
- **“Vision” Wall (MLTPA)**
 - **“Sphere of Influence” panel**
GIS-generated image of the Town of Mammoth Lakes Planning Area, displayed spherically and divided by color into eight areas of use: Eastern Lands, Hidden Lake/The Sherwins, High Country, Lakes Basin, Mammoth Mountain Ski Area, Northern Lands, Town of Mammoth Lakes, and Western Lands. Areas contained the names of activities frequently conducted in each zone, and were further demarcated by the Town Boundary and Urban Growth Boundary.
 - **Individual large-scale photograph panels**
Eight scenes representative of each sphere of influence, shot by John Wentworth

- **“Developers’ Forum” Wall (MLTPA)**
 The Developers’ Forum is a joint venture between MLTPA and the Mammoth Lakes Chamber of Commerce (MLCC), designed to engage and inform developers and related trades regarding the CAMP process. Contributions made by participants are a direct source of revenue for CAMP.
 - **“Peer Resorts” panel**
 Frames from the Developers’ Forum presentation made on behalf of MLTPA and the MLCC by Randy Martin of Martin & Associates, comprised of ski-area maps, trail maps, and photographs representing Western resort communities competitive with Mammoth Lakes of which trails are a major component
 - **“Trails and Economics” panel**
 Frames from the Developers’ Forum presentation made on behalf of MLTPA and the MLCC by Randy Martin of Martin & Associates, describing the financial impact of trails and public access on private development
 - **“Developers’ Forum Participants” panel**
 Listing of to-date participants in the Developers’ Forum, ordered chronologically and identified by both developer name and project name
 - **“Real Estate Development Projects” panel**
 Frames from the Developers’ Forum presentation made on behalf of MLTPA and the MLCC by Randy Martin of Martin & Associates, representing geographically all 11 major development projects in Mammoth Lakes expected to move forward in the coming year, and illustrating how the projects can work harmoniously to build a comprehensive system of trails and public access
 - **“Developers’ Forum” panel**
 Frames from the Developers’ Forum presentation made on behalf of MLTPA and the MLCC by Randy Martin of Martin & Associates, representing major themes of the presentation, as well as a graphic, separate from the presentation frames, describing the Developers’ Forum goal and objectives
- **MLTPA Foundation Wall (MLTPA)**
 Essential background information about the Mammoth Lakes Trails and Public Access Foundation (MLTPA)
 - **“Mission & Vision” panel**
 - **“Board of Directors and Staff” panel**
 Listing of Board of Directors and staff members working with MLTPA at the time of the event, with brief biographies

- **“Highlights” panel**
Descriptions of milestones in the development of MLTPA and CAMP, arranged chronologically through February 2008
- **“Highlight Examples” panel**
Groups of images, arranged by date, illustrating the text found in the “Highlights” panel
- **“Foundations, Founders, and Friends” panel**
Listing of foundation contributions and donors by category, as well as fundraising program information, as of February 2008

CAMP: WINTER

EVENT SCHEDULE:

THURSDAY, February 7th

12:00 p.m. to 8:00 p.m.

Exhibit Hall/Registration Open
Mountainside Conference Center, Main Lodge

11:00 a.m. to 11:45 a.m.

Listening Session: Winter Recreation, Motorized
Suite Z, Limit 16

6:30 p.m. to 8:00 p.m.

Opening Reception
Exhibit Hall, Mountainside Conference Center, Main Lodge

FRIDAY, February 8th

8:00 a.m. to 4:30 p.m.; 6:00 p.m. to 8:00 p.m.

Exhibit Hall/Registration Open
Mountainside Conference Center, Main Lodge

9:00 a.m. to 12:00 p.m.

Portal Tour, meet at the Visitors' Center
Transportation provided by Town Trolley, Limit 25

10:30 a.m. to 11:15 a.m.

Listening Session: Winter Recreation, Non-Motorized
Suite Z, Limit 16

11:30 a.m. to 12:15 p.m.

Listening Session: Winter Recreation, Non-Motorized Backcountry
Suite Z, Limit 16

1:00 p.m. to 3:00 p.m.

Walking Tour, meet at the Visitors' Center

3:30 p.m. to 4:15 p.m.

Listening Session: Winter Mobility
Suite Z, Limit 16

6:30 p.m. to 8:00 p.m.

Featured Presentation:
"Four-Season Trails: How Communities Around the World Get It Done"
Exhibit Hall, Mountainside Conference Center, Main Lodge

SATURDAY, February 9th

8:00 a.m. to 4:30 p.m.; 6:00 p.m. to 8:00 p.m.

Exhibit Hall/Registration Open
Mountainside Conference Center, Main Lodge
Open for lunch seating from 11:30 a.m. to 1:30 p.m.

9:00 a.m. to 12:00 p.m.

Portal Tour, meet at the Visitors' Center
Transportation provided by Town Trolley, Limit 25

1:00 p.m. to 3:00 p.m.

Walking Tour, meet at the Visitors' Center

2:00 p.m. to 5:00 p.m.

Trails Network Workshop: Recreation
Suite Z, Limit 16

2:00 p.m. to 5:00 p.m.

The photograph shows a museum exhibit titled "WHAT IS CAMP?". The exhibit is a large, illuminated display board with a purple header. It features a list of questions on the left, a central text panel, and a collage of images on the right. A black table in front of the board holds a sign that says "Take a look at these glowing document samples". The exhibit is set in a room with a carpeted floor and a doorway in the background.

CAMP: WINTER Public Meeting and Outreach Page 27

What is CAMP?

CAMP, which stands for Concept and Master Planning, is the partnered process by which the Town of Mammoth Lakes, Mammoth Mountain Ski Area, the USFS, and the community of Mammoth Lakes work together to plan a comprehensive trails and public access system. There are three types of partners in this effort: Jurisdictional Partners (Town, USFS), Funding Partners (Town, Mammoth Mountain Ski Area, and the Developers' Forum), and Planning Partners (MLTPA, Town, USFS, Mammoth Mountain Ski Area).

► What are the basic geographic parameters of CAMP? Which areas of Mammoth Lakes does CAMP affect?

Land contained within the Town of Mammoth Lakes Urban Growth Boundary (UGB)—basically, where all the concrete is—will get an update to the Town's adopted trails plan from 1991. Land outside the UGB but within the Town Boundary—which is public land owned and managed by the USFS—will be considered conceptually, exploring the opportunities for connectivity between the town and the surrounding public lands. The end result of this will be something like a blueprint that will set the stage for future planning efforts and strategies for implementation.

► Is this just for hikers and bikers?

Nope! The planning effort is a "big tent" venture that seeks to engage and accommodate the recreation needs of everyone in the community, whether your chosen activity is human-powered or runs on gas, or happens in the summer, winter, fall, or spring. MLTPA has identified more than 40 recreation activities in our area, and the planning process is open to each and every one of them. A key goal of this planning process is to improve the recreation experience for all users.

► Why are there two CAMPS (Summer and Winter)?

Because Mammoth changes so significantly between seasons, CAMP: SUMMER, held November 1-4, 2007, focused on summer recreation, trails, and points of access to public lands as they appear in the warmer months. CAMP: WINTER will address winter recreation and trails, as well as how points of access to public lands change according to snowfall.

► Why does anything have to be planned at all?

If no adopted planning document that addresses multi-jurisdictional trails planning exists, the opportunity to build and experience a comprehensive, fully linked system of trails and public access is not guaranteed. CAMP's goal is to ensure that no matter who owns or manages the lands that make up this community, not only will the public be able to reach public lands from town, but those connections will be efficient, safe, and enjoyable. And it goes without saying that you need a good plan to ensure at least the possibility of good implementation.

► Why do we have to do it now? What's the urgency?

According to a memorandum from Town Manager Robert F. Clark dated March 7, 2007, "...the ability to address environmental, economic, and social impacts and obtain a fair share contribution towards community benefits is a one time opportunity. If this opportunity is not attained now, it will be lost forever." The Town of Mammoth Lakes has processed a total of 11 Environmental Impact Reports (EIRs)—a necessary procedure in the process of approving any major development project—in the last 23 years. Today the Town potentially is tasked with processing that same number of EIRs in the next 12 months. If a planning effort is not in process during this approval period, there is no guarantee that existing points of public access to and from Inyo National Forest through the Urban Growth Boundary will be protected or ensured...meaning that the trail you take to get out there today might be lost to private real estate development tomorrow.

► Who's going to do all the work?

The CAMP process will function via Jurisdictional, Funding, and Planning Partnerships between the Town of Mammoth Lakes, MLTPA, Mammoth Mountain Ski Area, and the USFS. Consultants have been engaged for trails master planning: Alta Planning + Design for paved surfaces, and Trail Solutions for natural surfaces. Your participation in public meetings and in the entire CAMP process—giving suggestions, ideas, and feedback—is a major component of CAMP and an extremely important part of the project's workflow. At the end of this process, the consultants will provide recommendations via a draft master plan that will need to be adopted by the individual jurisdictions through their own public processes.

► What's in it for me?

A thorough planning process benefits you by engaging individuals and groups in the development of a trails and public access plan that will update the existing Mammoth Lakes trails plan

from 1991. Extensive community outreach will be conducted to ensure that the proposed plans and end products reflect the recreational needs and desires of the community. Once the planning process is complete, the drafted planning documents have been adopted by relevant jurisdictional agencies, and implementation has begun, you—as a resident, second homeowner, or visitor—will be able to look forward to a well-planned, efficient, well-signed, and fun trails and public access system, no matter what your skill level or activity of choice.

► How is this going to benefit the community of Mammoth Lakes?

The benefits to the Mammoth Lakes community of a comprehensive system of trails and public access are timeless, recreational, economic, and environmental. A trail system that is efficient, integrative, easy to use and navigate, and, above all, fun, will serve the outdoor recreation needs of both residents and visitors, increasing Mammoth's draw as a year-round destination resort. Increased visitors to the area will not only supplement the bottom line of the town's business sector in the winter and summer, but also will help to fill in the gaps created by the current "shoulder seasons." For year-round residents, access to Inyo National Forest for everything from birding to snowmobiling can be protected and stewarded—encouraging our community to freely experience the abundant beauty and resources of our public lands. Finally, the "feet first" vision that anchors the recently adopted Town of Mammoth Lakes 2007 General Plan will begin to be realized with safe connections that encourage alternative mobility. With a comprehensive system in place, our community literally can be linked from the South Gateway to MMSA and beyond. It's good for our health—financially, physically, and mentally!

► Who's going to pay for it?

Currently, the Town of Mammoth Lakes has committed \$100,000, an amount that Mammoth Mountain Ski Area is matching. An additional \$25,000 each has been committed by Cardinal Investments and Mammoth Crossing, two proposed development projects, via the Developers' Forum, bringing total committed funds to \$250,000. MLTPA was recently awarded a grant from the Sierra Nevada Conservancy for \$125,000 for its role conducting public outreach and project facilitation, and is actively pursuing other grants and fundraising efforts to produce the project's projected budget balance.

► When will we get an actual plan out of this?

The Planning Partners have structured the planning effort on a 12-month timeline, though the process may extend beyond this window. Current projections put a draft trails master plan in the community's hands by late spring 2008.

► When will we see these improvements?

After the planning process has been completed and the Town and other necessary jurisdictional agencies have adopted the final trails plan for the area, the establishment of implementation priorities can begin. It will be up to the Jurisdictional Partners to begin the implementation process based on their priorities and available funding. MLTPA will certainly look to play a helpful role at this stage.

► What can I do to get involved?

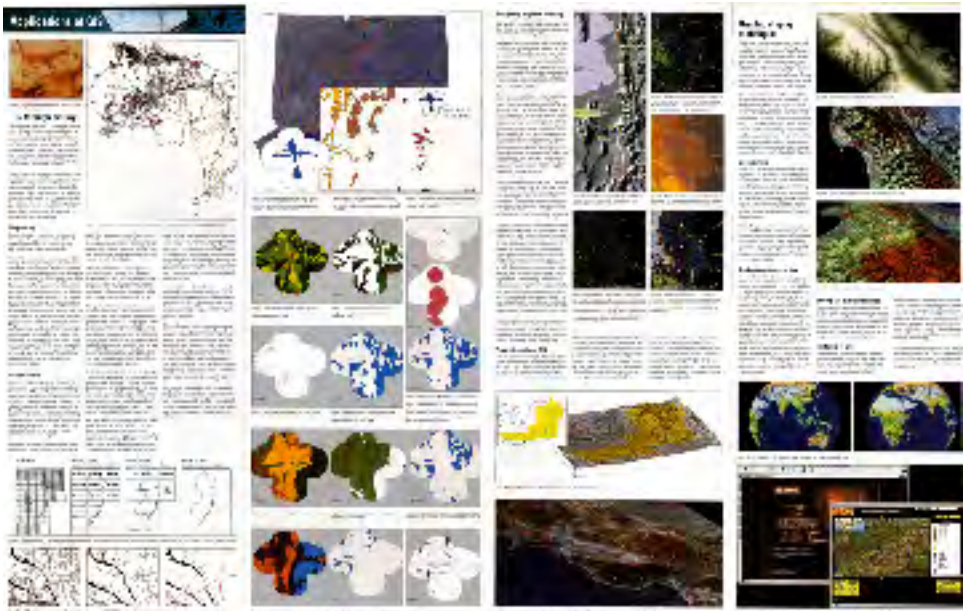

You'll have the chance to provide input as well as feedback on everything from the routes you travel by foot or bike to get to work, to the trailhead from which you stage your backpacking trip into the backcountry. No matter which activities you enjoy on our public lands—walking your dog, ripping around on your motorcycle, or heading out for a backcountry ski tour—your opinions are not only relevant, but critical. To make your voice heard, be on the lookout for announcements of public meetings and other events, and be part of the turnout! If you'd rather not express your opinion in public, you'll have plenty of opportunities to participate via the Summer and Winter Trail Surveys available online at www.mltpa.org by sending MLTPA an e-mail at CAMP@mltpa.org or by simply calling them on the phone at (760) 934-3154. Contact MLTPA directly for volunteer opportunities as well.

► How can I get more information?

Log on to MLTPA's website, www.mltpa.org, for timely reports on the status and progress of CAMP and to find out when and how you can get involved. Better yet, sign up for the e-newsletter by contacting MLTPA or looking for the blue sign-up box on www.mltpa.org.

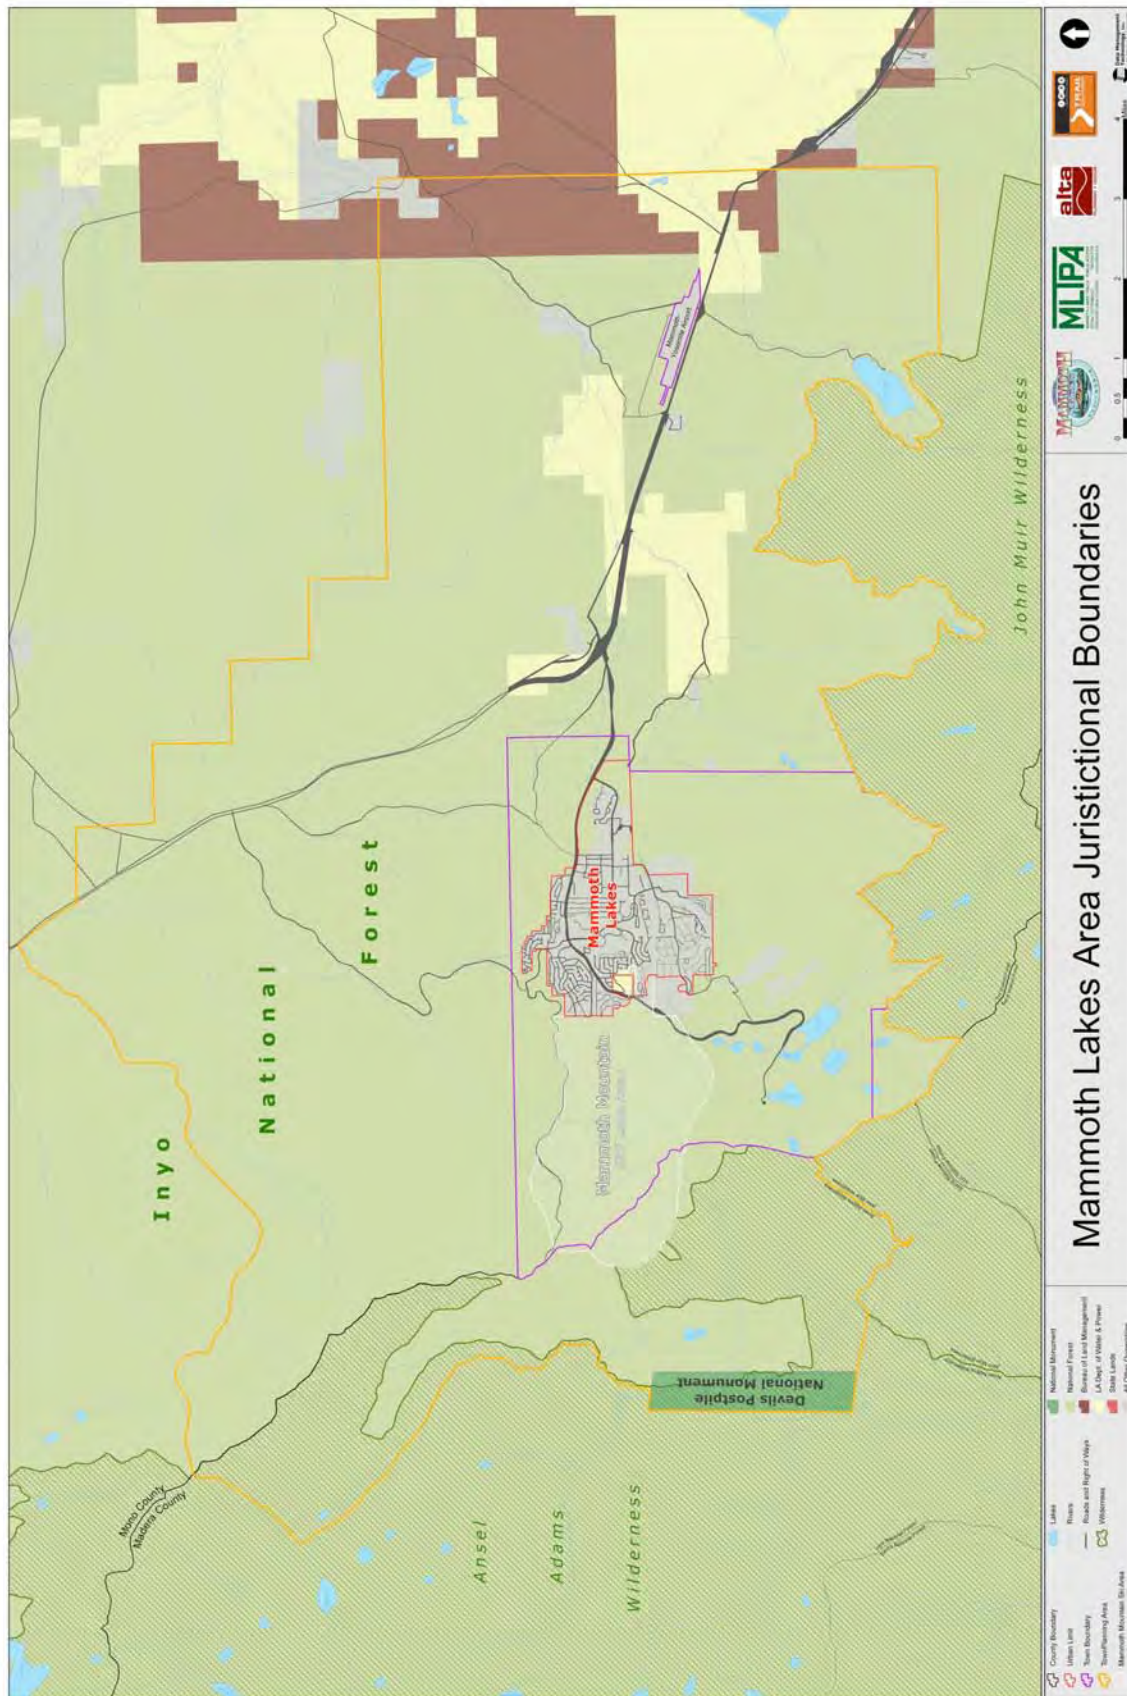

What is GIS?

GIS (Geographic Information Systems) is a collection of computer hardware, software, and geographic data used to capture, manage, analyze, and display all forms of geographically referenced information. The collection of GIS data, using sophisticated GPS equipment, is playing a key role in the CAMP trails planning process. Check in with the folks at the Registration Table to participate in a hands-on GIS demonstration and to get a look at the GPS equipment MLTPA is using to help get the job done.

Planning Exhibits Wall

WINTER TRAIL TYPES

UNGROOMED/UNMARKED

Users: Backcountry skiers, backcountry boarders, cross-country skiers, snowshoers, sleds, hikers, snow-mobilists

Terrain: Varied

Evidence of management: Minor

 - Portal signs, place markers

Management risk and liability: Low

Infrastructure: Minimal

 - Portal access

Maintenance: None

ALPINE

Users: Downhill skiers, snowboarders

Terrain: Sloping to steep

Evidence of management: Heavy

 - Portal signs, place markers, assurance signs, directional signs, regulatory signs, fees and passes, patrols, enforcement

Management risk and liability: High

Infrastructure: Major

 - Parking lots, lifts, lodges, medical facilities

Maintenance: Grooming, signage, snowmaking, lifts, facilities

HIKING

Users: Hikers, ice-climbers, snowshoers

Terrain: Sloping to steep, rocky, or icy

Evidence of management: Moderate

 - Portal signs, directional signs, assurance signs

Management risk and liability: Low

Infrastructure: Minimal

 - Portal access, existing summer trails

Maintenance: None

OVER-SNOW VEHICLE (OSV)

Users: Snowmobilers

Terrain: Gentle and rolling

Evidence of Management: Moderate to Heavy

 - Portal signs, assurance signs, directional signs, regulatory signs, fees and passes

Management risk and liability: Moderate

Infrastructure: Moderate

 - Trailhead parking, existing roads open to motorized travel

Maintenance: Grooming, signage

NORDIC /SKATE SKI

Users: Traditional cross-country skiers and skate skiers

Terrain: Gentle and rolling

Evidence of management: Moderate to heavy

 - Portal signs, place markers, assurance signs, directional signs, regulatory signs, fees and passes

Management risk and liability: Moderate

Infrastructure: Moderate

 - Trailhead parking, existing roads and trails

Maintenance: Grooming, track setting, signage

SHARED

Users: Walkers, dog walkers, nordic skiers, snowmobilers, skate skiers, snowshoers

Terrain: Flat to rolling

Evidence of Management: Minor to moderate

 - Portal signs, Assurance signs, Directional signs, Regulatory signs

Management Risk and Liability: Low

Infrastructure: Minimal

 - Trailhead parking, existing roads

Maintenance: Plowing, signage

TOWN OF MAMMOTH LAKES

Heated Sidewalks

- Use: Sidewalks are heated around Mammoth Village.
- Pink concrete sidewalks are plumbed for heating awaiting geothermal connection.
- Cost: _____

TOWN OF MAMMOTH LAKES

Trackless MT-V

- Use: Clears town trails and sidewalks.
- Cost: _____

MAMMOTH NORDIC

Alpina Sherpa & YTS Tracksetter

- Use: Grooming Nordic trails at Shady Rest and along Main path.
- Cost: _____

TOWN OF MAMMOTH LAKES

CAT 966G

- Use: Clears town streets.
- Also has grader and blower attachments.
- Cost: _____

US FOREST SERVICE/TAMARACK

Pisten Bully - "The Edge" & "100"

- Use: Trail grooming at Tamarack and Shady Rest.
- Cost: _____

PRIVATE SNOW REMOVAL EQUIPMENT

- Use: Clearing private roads, parking lots, and driveways.
- Cost: _____

TOWN OF MAMMOTH LAKES

- Use: Spreads sand/cinders on Town streets
- Cost: _____

CALTRANS

- Use: Clears Highway 203
- Equipment in inventory:
 - 4 Ton trucks with plow blade and sander.
 - Rotary Snow Plows
 - Graders
- Cost: _____

SNOW REMOVAL EQUIPMENT

SIGNAGE TYPES

TYPE 1 - ASSURANCE MARKERS

Assurance markers assure users they are going in the right direction.

Assurance markers should be used in conjunction with directional signs and place markers to assure a person reaches their desired destination or achieves a desired experience.

Assurance markers should be distinct enough to distinguish them from other markers of similar purpose.

TYPE 2 - DIRECTIONAL SIGNS

Directional signs indicate the direction of travel toward a destination or experience.

Directional signs should be placed at road and trail junctions.

Directional signs often double as information signs by indicating when route conditions are changing.

TYPE 3 - REGULATORY SIGNS

Regulatory signs provide for public safety or inform the public of key rules.

Signs that provide for public safety should be brightly colored.

The greatest amount of sign pollution comes from regulatory signs.

Whenever possible consolidate rules and regulations into one sign or integrate with an information sign.

TYPE 4 - INFORMATION SIGNS

Information signs provide information about the distance, conditions, and experiences of a place or trail.

Information signs may be very small or a large integrated kiosk.

Information signs often include a map or other reference key.

When using a map it is important to identify where the viewer is in relation to the other information.

TYPE 5 - INTERPRETIVE SIGNS

Interpretation is an educational activity which aims to reveal meanings and relationships by the use of original objects, by firsthand experiences, and by illustrative media, rather than simply to communicate factual information.

Interpretive signs seek to assist the visitor in developing a keener awareness, appreciation, and understanding of an area, to accomplish management goals, and to promote public understanding of an agency's goals and objectives.

TYPE 6 - PLACE MARKERS

Place marker tell a person they have arrived at their destination. In addition, the sign itself should reflect the personality of the destination, management agency, or community it represents.

Place Markers should be large and visible.

Smaller versions of Place Markers are often used on directional and assurance signs for consistency.

1 - Summer and Winter are Different Systems

- Summer travel is focused on roads and trails.
- Snow can reduce barriers caused by built environment.
- Weather and safety risks vary with seasons.
- Water is an attractor in warm weather.
- Snow easements on roads are opportunities in Summer.
- Fire danger and maintenance issues affect trails.
- Short construction season limits trail building.
- Summer trail use (walking and biking) is more likely to be combined with trips to school, work, or shopping.

2 - Safety and Consistency

- Trail/Roadway crossings must be of uniform design.
- Pavement markings and intersection treatments must serve multiple user groups.
- Trail surface materials and widths must be consistent.
- Steep grades on shared-use paths create user conflicts.
- Major roadway crossings are a barrier between neighborhoods.
- People walk in the street when necessary.
- Gravity is leading downhill trail users through neighborhoods at high speed.

3 - Design for Universal Access

- ADA access benefits everyone: wheelchairs, strollers, skates, etc.
- An aging population will require more accommodations.
- Natural tread materials can be designed for accessibility.
- Accessibility information is important for all users.
- Universal Trail Assessment Process (UTAP) tools are available to assess local ADA conditions.

CAMP: SUMMER Lessons Learned

4 - Kids of All Ages

- Trails are not just for highly skilled trail users.
- Children need trail experiences close to home.
- Trail facilities and experiences should encourage fun.
- Design a variety of trail types for all skill levels.
- Ensure that people can get to and from trails without having to use their cars for access.
- Create experiences out of everyday trips to school, work, and shopping.

5 - The 1991 Mammoth Trails Plan was a Good Plan

- The Mammoth Loop Trail concept is still valid.
- Completion of the paved loop is ongoing.
- "Adopt-a-Trail" program started, but not active.
- Resources are limited, especially for maintenance.
- Enhanced programming and event management tools are needed.
- A variety of new users have emerged and must be accommodated in current planning.

6 - Recreation Resort Economy

- The economy of Mammoth Lakes is recreation based.
- Real estate, retail, and lodging are all tied to recreation.
- Key comment from a local business: "I want to be able to have my customers not get lost." This comment highlights the need for a well designed trail system.

Planning Together

What role should the **developers** **as well as** play
in a trails planning effort in Mammoth Lakes?

- ✓ **Advocate for a Planning Process**
- ✓ **Participate in a Planning Process**
- ✓ **Partner and Help Fund a Planning Process**

MLTPA/MLC Developers' Forum

GOAL

Create a source of information and a means of communication between builders, developers, and the Mammoth Lakes community relevant to trails and public access issues in Mammoth Lakes and the immediately surrounding region.

OBJECTIVES

Provide information and a forum for builders and developers that:

1. Demonstrates the economic benefits of a comprehensive system of trails and public access to their projects.
2. Ensures that a system of trails and public access in Mammoth Lakes will be comprehensive, functional, and successful.
3. Articulates the community benefits of a comprehensive system of trails and public access.
4. Provides the means and tools for builders and developers to participate in and contribute to a comprehensive trails and public access system in Mammoth Lakes and the immediate surrounding region.

MLTPA Foundation Wall

Mission & Vision

MISSION

MLTPA advocates for, initiates, facilitates, and participates in the planning, implementation, and stewarding of a system of four-season trails and public access in Mammoth Lakes and the immediate Eastern Sierra.

VISION

MLTPA will be an effective, independent leader that connects the community with its majestic natural setting, helping to sustain an exceptional quality of life and a prosperous local economy.

MLTPA's PROMISE

Connecting People with Nature

STRATEGIES

- 1. Advocate for Trails and Public Access:** Create awareness of and promote a system of four-season trails and public access.
- 2. Champion Physical Trails Development:** Participate in the development of a sustainable four-season trails and public access system.
- 3. Foster Stewardship and Community Participation:** Facilitate stewardship of trails and their recreation opportunities through collaborative partnerships.
- 4. Ensure Organizational Stability:** Develop and sustain the organizational capacity necessary to achieve MLTPA's Mission.
- 5. Ensure Financial Stability:** Develop a balanced, robust, and creative funding mix to sustain projects and the organization.

MLTPA Foundation Board of Directors

John Wentworth, Board President and Acting Executive Director

John has worked in the motion picture industry, where his credits include Co-Producer of *Teen Peaks: Fire Walk With Me* and *Mothland Drive*. He is an adjunct instructor at Art Center College of Design in Pasadena, CA (Fine Arts Graduate Program), and has lived in Mammoth Lakes since July 4, 2000. He is an avid outdoorsist.

Jay Deinken, Vice President

After obtaining a B.S. in physics and mathematics, Jay served as a missile combat crew commander in the United States Air Force. Following law school, he worked as an intellectual property attorney for 30 years before moving to Mammoth Lakes in 2006. He and his wife, Noelle, have two grown sons. After vacationing in Mammoth for 21 years, he is delighted to be here full time and enjoys hiking, running, downhill skiing, cross-country skiing, backpacking, snowshoeing, and bicycling.

Jo Bacon, Treasurer

Jo is a retired governmental fiscal manager and consultant, now serving as a Planning Commissioner for the Town of Mammoth Lakes. She has a master's degree in public administration with a focus on urban and community development at the level of state and local government. She is a local business owner, a member of the Outdoor Science Education staff for the Valentine Reserve, president of the Mammoth Lakes Friends of the Library, and a naturalist guide for the Inyo National Forest, the Mono Scenic Basin, and Mammoth Mountain Ski Area.

Will Aldrich, Member

Will has been building consumer Web products for 13 years and is currently Director of Product Management for Social Networking Initiatives at Yahoo!. He's a graduate of Georgetown University's School of Foreign Service and is a former associate board member of the Mary A. Crocker Trust. Will is an avid mountain biker and skier, and his favorite run in the Mammoth area is the Shenandoah.

Brooke Pace, Member

Brooke holds a B.A. in environmental studies with an emphasis in human ecology. She has a background in research analysis and project management in social, academic, and governmental research in both the nonprofit and private industries. Currently self-employed in a consulting business, Brooke specializes in grant writing, bookkeeping, and event management. She is an active member of the Mammoth Lakes community and serves as a Board member for several other local nonprofits, including the Chamber of Commerce. Brooke also volunteers for several other organizations, such as Disabled Sports Eastern Sierra, the High Sierra Energy Foundation, the Great Bay National Wildlife Refuge, and the Sierra Club.

Rebecca Paranick, Mammoth Mountain Ski Area Member

Rebecca is the current Government Relations Manager for Mammoth Mountain Ski Area (MMSA). She coordinates ski area permits, serving as liaison to such agencies as the U.S. Forest Service, the Air Pollution Control District, the Regional Water Quality Control Board, Mono County, and the Town of Mammoth Lakes. She represents MMSA on the Community Stakeholders Group and on the Board of MLTPA. Rebecca has degrees in both political science and international affairs from the University of Colorado in Boulder and an M.A. in public policy from the College of William and Mary. In 2002 she left her position as Senior Policy Analyst and Chief Staff Assistant to the Commissioner of the Virginia Department of Transportation in order to return to her childhood home in Mammoth. Previous to her current position, she spent five years in the MMSA Planning Department, directing projects such as the Mammoth Mountain Inn and VIP condo renovations, programming the Minaret Club, and representing the ski area and the Community Stakeholders Group in the Town of Mammoth Lakes General Plan Update process. She and her husband, Steve, have a three-year-old daughter named Megan Jo. They like to hike, ski, golf, and travel.

Bill Taylor, Member

Bill Taylor is a land-use consultant and a 34-year resident of Mammoth Lakes. He has a Bachelor of Arts degree in anthropology from Amherst College and is a member of the American Institute of Certified Planners. After graduating from college, he moved to Mammoth and worked at a variety of typical ski-town jobs. In 1978, Bill went to work for the Inyo National Forest in archeology and land-use administration. He started with the newly incorporated Town of Mammoth Lakes in 1980 as its first planner, eventually becoming Deputy Director of Community Development. Bill has been involved in all aspects of community planning, environmental review, and policy development. He has served on numerous committees and in community organizations including the Mammoth Lakes Swim Team and the Mammoth Lakes Rotary Club. Bill and his wife, Sherry, met in Mammoth and raised their two sons there. Bill thinks that the Eastern Sierra is the best place on the planet and regularly gets out to hike, cross-country ski, downhill ski, and mountain bike.

MLTPA FOUNDATION STAFF

Kim Stravers, Communications Manager and Board Secretary

Kim moved to Mammoth in December 2005 and has been part of MLTPA from the very beginning, becoming involved after writing a story about the Ranch Road gate Town Council decision for *Powder* magazine. In a previous life she was a longtime staff writer and editor for action-sports magazines such as *Bike*, *Powder*, and *SG: Surf/Snow/Skate Girl* where she was the managing editor. Her freelance client roster today includes Red Bull, *Surfer*, ESPN, *Future Snowboarding*, *Surfline.com*, and *Girls Learn to Ride*, for whom she is the editorial director. Her obsessively organized, firstborn disposition keeps MLTPA's dealings both punctuated and punctual. When she's not cuddling with her laptop, you can find her hiking, trail running, sliding across the snow on a variety of equipment, falling off of her mountain bike, or just looking for a good spot to take a nap in the grass.

Dana Taussig, Operations Manager

Dana moved to Mammoth for this 2006/2007 ski season to pursue a post-college ski bum/rift guide lifestyle. She messed up. Dana has returned to Mammoth for another extended winter to work with MLTPA, and is now looking toward achieving a master's degree in public administration and urban planning, with a focus on sustainable development. Dana is ecstatic to be working for an organization that allows her to participate in such a critical planning process. When she's not in the office, you can probably find her working up at the Tamarack Cross-Country Ski Center, playing on the mountain, climbing down in Bishop, or wandering around town on foot or bike.

Jon Roberston, Data Technician

Jon graduated in 2006 from Georgia Southern University with a B.S. in information technology, specializing in Geographic Information Systems (GIS). He was drawn to Mammoth Lakes by the promise of finally being able to experience snow. During the last four years, Jon has worked as a raft guide in North Carolina. He enjoys snowboarding, kayaking, rafting, and backpacking in his free time.

Highlights

February 2006

In response to a petition signed by more than 750 local residents, the Town Council of Mammoth Lakes votes unanimously to reconsider their decision relinquishing public right-of-way on a public road.

July 2006

MLTPA presents the 125-page "Mobility Plan Resources Report" to a joint meeting of the Town's Tourism and Recreation, Planning, and Public Arts commissions.

August 2006 to January 2007

MLTPA completes an \$11,000 GIS Inventory Contract with the Town of Mammoth Lakes to document key points of public access, trail-heads, and outdoor recreation amenities for inclusion as a staff planning tool in the Town's GIS database.

November 2006

MLTPA convenes a Strategic Conference and Public Meeting on the future of trails and public access in Mammoth Lakes, featuring nationally recognized presenters and attracting a standing-room-only crowd of more than 200 people.

December 2006 to March 2007

The Mammoth Lakes Trails and Public Access Foundation is incorporated as public benefit corporation in the State of California, secures a seven-member Board of Directors, and submits a formal application to the IRS for 501(c)(3) status.

February 2007

MLTPA produces numerous reports and studies, available on the MLTPA website at www.mltpa.org, including an 18-page Action Plan written in conjunction with Jeff Olson of Alta Planning + Design.

March 2007 to April 2007

MLTPA facilitates a joint Task Force with the Town's Tourism and Recreation Department, including representatives from the development community, the United States Forest Service, the Tourism and Recreation Commission, and Town of Mammoth Lakes staff, to prepare the "Proposal to the Community for a Trails and Public Access Concept and Master Plan."

May 2007

MLTPA presents the Planning Proposal to the community of Mammoth Lakes. The IRS grants official 501(c)(3) status to the MLTPA Foundation.

June 2007

Town Council votes to approve a \$100,000 commitment toward the Concept and Master Planning (CMP) process, triggering a matching \$100,000 commitment from Mammoth Mountain Ski Area, and \$25,000 from Cardinal Investments via the Developers' Forum, a partnership between MLTPA and the Mammoth Lakes Chamber of Commerce.

October 2007

Town Council votes to officially authorize the CMP consultant contracts as well as to approve the Town's agreement with MLTPA to conduct formal public outreach and data coordination and collection services. Town Council also signs a Memorandum of Understanding (MOU), to be co-signed by MLTPA, Mammoth Mountain Ski Area, the United States Forest Service, Mono County and a number of other partners, that addresses cooperative trails and public access planning efforts.

November 2007

The CAMP: SUMMER recreation and trails workshop takes place at Canyon Lodge. At a special Developers' Forum reception during the event, Mammoth Crossing presents MLTPA with a \$25,000 check to help further the planning effort.

December 2007

MLTPA receives \$120,000 from the Sierra Nevada Conservancy to help fund public outreach for CAMP. It is one of the first grants ever awarded by the SNC.

February 2008

The CAMP: WINTER recreation and trails workshop takes place at Main Lodge.

Sierra Sundance Whole Foods
Jarrett Smith
Tony Taylor

TRAILHEAD: \$250–\$499

"Trailhead" describes a planned, marked, or designated point of origin for a trail or route. It is a place where a trail begins, and it is a place where a trail ends.

Malcolm and Sharon Clark
Kittredge Sports
Kit Muhs

Glen Poulsen
Rotary Club of Mammoth Lakes, Sunrise

PUBLIC ACCESS: \$500–\$749

"Public Access" describes a planned, marked, or designated point of origin for a trail or route. It is a place where a trail begins, and it is a place where a trail ends.

Ryan and Kami Boyer
Sarah Murray

Tom Wentworth

BACKCOUNTRY: \$750–\$999

"Backcountry" describes a planned, marked, or designated point of origin for a trail or route. It is a place where a trail begins, and it is a place where a trail ends.

YOUR NAME HERE!

CAMP: WINTER EXHIBIT HALL SELF-GUIDED TOUR

Welcome to the CAMP: WINTER Exhibit Hall! Please use this guide as a reference while viewing our many displays. This tour begins with the panels located in the hallway to your left as you move toward the main hall, but exhibits may be enjoyed in any order you wish. MLTPA staff and Board members are available to answer any questions you may have, and we're happy to join you on your tour at your request.

1. LAKE MARY ROAD BIKE PATH

The sketches to your left are large-scale reproductions of the actual construction drawings used to plan this Class 1 Bikeway, which represents a new section of the paved Mammoth Lakes Trail System you've walked or biked on around town. Opposite to the sketches you'll find an alternate view of the trail as an overlay on an aerial photo of the Town of Mammoth Lakes, as well as answers to some frequently asked questions about this Town project.

2. WHAT IS CAMP? // WHAT IS GIS?

CAMP—the Concept and Master Planning process for trails and public access in Mammoth Lakes—is a multi-partnered, multi-jurisdictional effort to update the Town of Mammoth Lakes trails master plan. The panels to the left provide answers to some frequently asked questions about this historic process.

Geographic Information Systems, or **GIS**, plays a central role in the trails planning process. The panels to the right provide an overview of this system. Please check in with the Registration Table if you'd like to get a closer look and demonstration of how trails data has been collected throughout this process.

(Main Hall)

1. CAMP: WINTER PLANNING EXHIBITS

On this wall, you'll find a variety of exhibits related to winter trails and mobility in Mammoth Lakes. From left to right:

Mammoth Lakes Area Jurisdictional Boundaries: This map shows the extended Planning Area of Mammoth Lakes and how these lands are managed by jurisdiction. It's important to note that the Town of Mammoth Lakes is surrounded on all sides by Inyo National Forest, creating a multi-jurisdictional configuration that requires cooperation of both parties in the trails master plan update.

Town of Mammoth Lakes: Winter Access Portals and Activities: This map shows the access points the public has traditionally used in the wintertime to get from the Town of Mammoth Lakes out to Inyo National Forest, as well as the activities occurring in these areas. These access points are dependent on snowfall, and are different than the access points used by the public in the summer months.

Winter Trail Types: This panel provides an overview of the different types of trails one might find in the Mammoth Lakes area in the wintertime, the type of terrain of which they are composed, which users take advantage of these systems, and what levels of maintenance and liability are associated with each.

Snow Management Equipment: This panel illustrates a few of the many different types of heavy machinery used by the Town, the USFS, Caltrans, MMSA, and private parties to remove, store, and otherwise manage snow in the Mammoth Lakes area.

Town of Mammoth Lakes: Existing Winter Facilities & Near-Term Projects: This map shows the trails, pathways, staging areas, and trailheads currently in place in the Town of Mammoth Lakes, as well as projects that are planned to be executed in the near future. It addresses also the snow removal and management of each of these amenities.

Signage Types: This panel provides examples of signage that are typically part of a comprehensive signage and wayfinding system, and explains the purpose and general design guidelines of each.

CAMP: SUMMER Lessons Learned: This panel summarizes some of the most important points generated by the extensive public input given during CAMP: SUMMER in November 2007. The consultants will use this information in conjunction with data gathered during CAMP: WINTER to produce the Next Steps presentation as well as the draft trails master plan.

2. CAMP: WINTER PUBLIC PARTICIPATION

Mammoth Lakes Area Trails and Access Points for Public Comment

This map shows all of the winter trails and portals in the Mammoth Lakes area, as collected by MLTPA staff and volunteers for the GIS Inventory Contract and enhanced for CAMP: WINTER. Directions on how to provide input are on the table below the display; please feel free to leave your comments (anonymous or not) with us!

3. VISION

The center panel is an overview of the Mammoth Lakes Planning Area and how it may be considered in terms of the outdoor recreation activities that occur most frequently in different areas. MLTPA has identified eight different spheres of influence, which are represented by the photos surrounding the center map.

4. DEVELOPERS' FORUM

This wall explains the Developers' Forum and its role as a Funding Partner in the CAMP process. From left to right:

Peer Resorts: This panel shows examples of peer Western resort towns and how they've developed and articulated their trails and public access systems.

Trails & Economics: This panel explains the relationship between trail systems and the economies of the development projects in which they are located, as well as how such systems can positively impact a development's bottom line.

Developers' Forum Participants: This panel announces all of the development projects that have contributed financially to CAMP to date.

Real Estate Development Projects: This panel identifies the 11 major development projects in Mammoth Lakes that are currently underway or are awaiting final approval to move forward, and illustrates how these projects relate to already developed areas in town.

Developers' Forum: This panel provides an overview of the Developers' Forum as a partnership between MLTPA and the Mammoth Lakes Chamber of Commerce, and explains its goals, objectives, and role in CAMP.

5. MLTPA FOUNDATION

Mission & Vision: This panel articulates the Foundation's Mission and Vision, as well as the Strategies the Board of Directors has developed to execute them.

Board of Directors and Staff: Meet the folks behind the Foundation! Check in with the Registration Table if you'd like to meet any of us—we'll be here all week!

Highlights: This panel provides a chronological overview of how MLTPA was founded and how we've gotten to this point in the CAMP process.

Highlight Examples: This panel shows photos of some of the key moments in the MLTPA timeline.

Foundations, Founders, & Friends: This panel proudly announces MLTPA's many financial supporters. For information on how you can make a donation to the MLTPA Foundation, please see the Registration Table.

Chapter 6: Outreach

MLTPA, working with the retained assistance of Opposing Motion, executed a comprehensive and detailed public-outreach strategy for CAMP: WINTER, based on town demographics. Exhaustive efforts were made to identify and reach all segments of the Mammoth Lakes community—locals, second homeowners, frequent visitors, seasonal residents, schoolchildren, business owners, outdoor recreation-based clubs, public agencies, and other stakeholders—and to tailor messaging to reach each party based on its interests and relationship to the trails and public access system. The CAMP: WINTER mini-site was instrumental in this strategy, offering a breakdown of recommended sessions for four categories of user. (See the Chapter 6r, “Web, MLTPA,” for further detail.)

MLTPA developed and instituted a comprehensive graphics plan to provide visual continuity and branding to both the CAMP process and the CAMP: WINTER event. CAMP Partners approved each piece of collateral and other marketing and advertising materials, as well as formal e-mails and other invitations, before distribution, excepting cases in which turnaround times were less than 24 hours due to production constraints. Individual campaigns are explained in subsequent sections.

MLTPA CAMP: WINTER Marketing & Communication Plan Overview

HOLIDAY CAMPAIGN

Market: Mammoth Lakes Visitors

- Second Homeowners
- Frequent Guest/Passholders

Timeline: December 21, 2007 – January 6, 2008

Strategy: Take advantage of the visitation in Mammoth Lakes over the holiday period to inform Mammoth visitors about the upcoming CAMP: Winter event.

Message: Broader message, “save the date” and educate about process. If you can’t come, make sure you take the survey.
Eventually we will attempt to determine the personal connection to CAMP and why they have a stake in this process.

Tactics/Action Plan:

Posters/Postcards

- Dec. 14 – Posters to Second Homeowners
- Dec. 15 - Posters up in local businesses
- Dec. 15 - Postcards in specific local businesses

Newspaper Ads & Editorial

- The Sheet
 - Dec. 22 Issue
 - Ad - ½ page 4-color (vertical) (Artwork & Message based on poster) (ad due 19th)
 - Dec. 29 Issue
 - Ad - ¼ page 4-color (vertical) – can cut to ¼ page if need to cut budget (Artwork & Message based on poster) (artwork probably due Dec. 26 – KW to confirm)
 - Editorial - Dec. 29 (What is CAMP?) (editorial probably due Dec. 26)
- Mammoth Times
 - Dec. 20 Issue
 - Ad – potentially graphic submitted with editorial content (postcard/movie slide artwork)
 - Editorial (What is CAMP?) – Kim to discuss with Diane, Kristy to talk to Keri (ad due 3pm Dec. 13, editorial due Dec. 14.)
 - Dec. 27 Issue
 - Ad - ½ page 4-color (vertical) (Artwork & Message based on poster) (Artwork probably due on Dec. 18 –KW to confirm) (See if Keri can just scale poster to appropriate size for version 1.)

Radio

- KMMT
 - Dec. 22 – Jan. 6, 2 spots (:30) per day
- KRHV
 - Dec. 22 – Jan. 6, 2 spots (:30) per day

TV

- Channel 72
 - Crawl (run as PSA?) (CAMP: Winter coming up)
 - Editorial – need to tape before December 20 – Interview – (make link between summer CAMP and winter CAMP, small amount of what is CAMP?)
- Channel 33
 - Do we want to do anything here?

Movie Slide

- 2 weeks (Dec. 21-27, Dec. 28-Jan. 1)) (Like postcard + “Play Your Part in the Vision –visit www.mltpa.org for event details)
- Do we want to have another slide for What is CAMP?

Website

- Phase I - Dec 14 (see below)
- Phase II - Dec 21 - (see below)
- Graphics Requirements
 - CAMP Winter logo with background knocked out to use on top of an image – be sensitive to visibility – throw keyline/pinline around graphic
 - PMS color (of blue) for text in poster that is blue
 - Version of full poster – compressed for web (no change) – jpeg format best (pdf ok)
 - Version of postcard – compressed for web (no change) – jpeg format best (pdf ok)
 - Sponsor Bar/Banner with all poster logos + MLTPA logo
 - MLTPA CAMP Winter bug/badge (use knock out artwork on top of the blue background, add Feb. 7 – 12, 2008 – date scalable) – do they embed the link or does the web designer do this? If not we may need another one with mltpa.org.
 - Trails Survey Bug – Combine CAMP: Summer Graphic & CAMP: Winter Graphic with copy overlay that says “Take the survey here.”

LOCAL CAMPAIGN

Market: Mammoth Lakes Locals & Second Homeowners (see communication grid)

Timeline: January 7 - February 12, 2008

Strategy:

Message: Register now (After January 10)

Session Information.

Attempt to determine the personal connection to CAMP and why they have a stake in this process.

Tactics/Action Plan:

Posters/Postcards

Jan. 15 – Distribution of Registration Packets to participating shops

- Registration Forms
- Session Descriptions
- Schedule
- FAQ's
- Kim's Business Cards (to takeaway)
- Check posters/re-poster (include one for window, one for timeclock)
- Check postcards/re-postcard
- (Need to pick up completed reg forms and check in with businesses every subsequent Monday)

Jan. 15 & 16 – Re-poster in local businesses

Jan. 15 & 16 – Re-supply postcards in specific local businesses

Jan. 21 – Local Boxholder Postcard Drops

Newspaper Ads

- The Sheet
 - January 19 Issue
 - Ad - ¼ page b/w
 - Editorial (maybe letter to the editor) (ad & editorial due Jan. 16)
 - January 26 Issue
 - Ad - ½ page b/w (could do ¼) (ad due Jan. 23)
 - February 2 Issue
 - Ad - full page 4-color (ad & editorial due Jan. 30)
 - Editorial
 - February 9 Issue
 - Editorial with CAMP: Winter bug art (no charge?) (editorial & artwork due) (editorial locals focus next steps, exhibit hall, take survey if you haven't yet)
- Mammoth Times
 - January 24 Issue
 - Ad - ½ page b/w

- Editorial (register now – look for postcards in your mailbox next week) (check deadlines – KW)
- January 31 issue
 - Ad – full page 4-color
 - Editorial (CAMP refresher and schedule/program overview) (ad due Jan. 24; editorial due Jan. 25)
- February 7 Issue
 - Ad – full page 4-color (can we do double page? Can we print reg. form?)
 - Editorial (schedule highlights & make sure to take survey if you can't attend) (ad due Jan. 31; editorial due Feb. 1)
 - Can MMSA dedicate their MT banner ad this week? (KW check who has Good Times Banner ad)
- The Sierra Reader (Thursdays)
 - January 31 – ¼ page b/w
 - February 7 – ¼ page b/w
- Inyo Register (Saturdays)
 - January 26 – ¼ page b/w
 - February 2 – ¼ page b/w
- El Sol
 - January 26 – ¼ page b/w
 - February 2 – ¼ page b/w

Radio

KMMT

- Jan. 24 - 30 2 spots/day Overall event message.
- Jan. 31 - Feb. 6 3 spots/day Overall event message.
- Feb. 7 -11 3 spots/day Event specific message tags.

KRHV

- Jan. 24 - 30 2 spots/day Overall event message.
- Jan. 31 - Feb. 6 3 spots/day Overall event message.
- Feb. 7 -11 3 spots/day Event specific message tags.

KIBS

- Jan. 31 - Feb. 6 2 spots/day Overall event message.
- Feb. 7 -11 3 spots/day Event specific message tags.

KSRV

- Jan. 24 - 30 2 spots/day Overall event message.
- Jan. 31 - Feb. 6 3 spots/day Overall event message.
- Feb. 7 -11 3 spots/day Event specific message tags.

KUNR

TV

Need to decide type of spot - video with voice-over or still graphic with voice-over.

KSRW/Sierra Wave TV 33

Jan. 26 - Feb. 11

- **Advertising:** Run similar program as we did with CAMP: Summer - includes local news and rsn spots (total spots: 64 in 15 days). Program from KSRW includes bonus spots. **KSRW requesting link on website. KSRW will honor same rate as CAMP: Summer (\$463)

- **Ad Production:** Option 1: \$0 (included in cost of buy/donated) - Graphic with voiceover (Similar to CAMP: Summer)

Option 2: \$300-\$500 (editing cost is \$100/hr) - Spot with video (MLTPA provides video from CAMP: Summer?) and draft script. Sierra Wave will produce

spot to include video, voiceover and text graphics in conjunction with voice over (date, website, etc.)

- **Public Service Announcements:** KSRW recommends submitting PSA's separately (in addition) to ad campaign - will give more exposure. Submit PSA's via fax (873.5328) and email (ksrw@sierrawave.net).
- **Editorial/Interviews:** Tom Woods has been given a heads up on the event. Kim Stravers to follow up directly with Tom Woods (or he will follow up with Kim) to arrange news story content.

TV 72

Jan. 26 - Feb. 11

- **Advertising:** Run similar program as we did with CAMP: Summer (2 spots/day 2 weeks out; 3 spots per day event days) (\$462)
- **Ad Production:** Option 1: \$0 (included in cost of buy/donated) - Graphic with voiceover (Similar to CAMP: Summer)

Option 2: TBD - Spot with video (MLTPA provides video from CAMP: Summer?) and draft script.

- **Crawl** - No charge
- **Editorial** - Kim/John to work directly with Dan McConnell for editorial/interviews

Movie Slide

(Friday - Thursday run) Feb. 1 - 7

Website

Phase I: Live Dec. 14 - homepage

- Poster artwork, banner, photo with CAMP Winter logo superimposed, trails survey button, copy per Kim

- Link to FAQ's, link to Volunteers, link to Consultant Info
- Kim will send preview link for approvals

Phase II: Live Dec. 21

- Photo Gallery of CAMP:SUMMER
- Map? & Driving Directions

Phase III: Live Jan. 10

- Registration Live/downloadable pdf form available (look into reg-on-line)
- Final Schedule Live
- Event Information
- Event Info Pages by Activity - (recommended participant schedule/sessions by activity)
- Other relevant event information

Phase III: Live Feb. 6

- Refresh Homepage to indicate onsite registration
- Other relevant updates

Phase IV: Feb. 13

- Pull down outdated info
- CAMP next steps

Calendar Postings

Phase I - Dec. 18

Date Announcement - Kristy - Overall event listing - Online: TOML, MMSA, Mammothlocal.com, cityconciierge.com, thesierraweb.com, mammothweb.com
Print: MammothTimes,

The Sheet, Mammoth Sierra Magazine, Inyo Register, Sierra Reader, El Sol

Phase II - Jan. 10

List primary events seperately

Phase III - Jan. 21

Snow Industry Website - Kim - (Transworld Snowboarding, Snowboarder, Future Snowboarding, Powder, Skiing, Ski)

Phase III - Jan. 28

Hi, _____, this is _____. I'm a member/president/vice president of the Mammoth Lakes Trails and Public Access Foundation Board of Directors, and I wanted to invite you to the private VIP Opening Reception for CAMP: WINTER on Thursday, February 7th, from 5-6:30 p.m. We'll be serving wine and hors d'oeuvres in the Exhibit Hall, which is in the Mountainside Conference Center at Main Lodge, where you can preview the displays, meet the planning consultants and other CAMP partners, and learn more about the trails master planning process.

I'd also encourage you to visit our website at www.mltpa.org, where you can read about all of the great sessions we've got planned, find out how to register for them, take the CAMP Trail Surveys, and more. The event's totally free and open to the public—except for the VIP Reception, of course—so please spread the word to your friends and neighbors!

If you've got any questions about CAMP, or about the event, you can call our Communications Manager, Kim Stravers, at 934-3154, or send an email to CAMP@mltpa.org. We're looking forward to seeing you on February 7th!

Chapter 6a: Advertising plan

This plan, developed jointly with Opposing Motion, was tailored to take full advantage of local and regional media outlets and was broken into two campaigns: Holiday (directed primarily toward second homeowners visiting Mammoth Lakes for the winter holidays) and Local (directed primarily toward residents). Ad buys in all media, web presence, and e-mail campaigns were scheduled to have maximum exposure and impact in relation to the timeline leading up to the CAMP: WINTER event, and messaging was changed periodically to highlight different elements of the event, attract different segments of the community, and drive pre-registration.

MLTPA Foundation
CAMP: WINTER
Graphics Request: Local Advertising/Marketing Campaign
Nils & Keri Davis - Submitted 12/20/07

Graphic Direction/Overview: Please note that all of the ads will have revisions to messaging and will not necessarily replicate the look of the earlier "holiday campaign" ads. Additionally, within this "local campaign", elements may change from week to week. It is expected that ads will include CAMP: Winter branded elements (logo, overall look), revised copy/messaging, and potentially additional photos.

—COMMUNITY NEWS—

PROPERTY TAX APPORTIONMENT

This week the Town received the first apportionment of property taxes from Mono County. The Town receives about 6 cents (after Educational Relief Augmentation Fund deduction) of every property tax dollar paid for property in Mammoth Lakes. Based on the amount received there is no question that the Town will meet its budget projections for this year. Although the Town's final property tax revenues will not be known until June, it appears that even when you take into account potential delinquencies, the Town will still exceed budget projections by over \$470,000. This is very good news. However, other General Fund revenues particularly TOT cannot be reasonably projected until more financial activity is reported. And if the TOT falls short of projections like last year, the surplus in property tax would be needed to cover any TOT revenue shortfall.

MLPD TRAFFIC ENFORCEMENT

There were 27 citations issued last week by the MLPD.

MCWD Expands Outdoor Watering Regulations - February 2008

The Mammoth Community Water District Board of Directors adopted a revised set of

water management requirements for everyday water conservation. The new requirements include the addition of every other day watering for landscape irrigation and restaurants being required to serve water only upon request at all times. These new requirements will go into effect in mid-February. The purpose of these additional water management requirements is to encourage customers to be responsible with their water use on a daily basis, not just during times of drought or water shortage. For new turf areas, the District has allowed for a 30-day variance for the every other day watering rules until the new grass is established. For questions regarding the new regulations, please contact the MCWD during normal business hours: (760) 934-2596 ext. 314.

The new regulations are as follows:

Outdoor watering is only allowed between 5:00 p.m. and 10:00 a.m.

Water may not pool, pond, or run off applied areas.

Leaks on the customers side of the property line must be repaired by the customer.

All hoses must be equipped with an automatic shut off device.

REGISTER ONLINE FOR CAMP: WINTER FEBRUARY 7

The Mammoth Lakes Trails and Public Access Foundation (MLTPA) would like to invite you to attend CAMP: WINTER, from February 7 - 12, 2008 at the Main Lodge. CAMP: WINTER (Concept and Master Planning) is a free public event focused on winter recreation and trails in Mammoth Lakes that seeks to update and improve the recreation, and mobility opportunities in Mammoth through informed, cooperative, and timely trails planning. CAMP: WINTER is a partnered effort between Mammoth Mountain Ski Area, the Town of Mammoth Lakes, and the United States Forest Service. No matter what you love to do outside in the wintertime, or how you choose to get around town, there's a fun and informative session for you! Please visit www.mltpa.org/CAMP_winter for activity descriptions, the event schedule, registration, and more. MLTPA looks forward to your participation in this landmark event—see you February 7-12th!

—COMMUNITY NEWS—

MAMMOTH POLICE BUILDING

Chief Schienle, Peter Bernasconi and the Town Manager toured the current police building with the Police Officer's Association (POA) President Sergeant John Mair to identify things that are needed to provide an appropriate workplace for the next several years until the new building is completed. New carpet and paint are on the top of the list, and the POA is willing to contribute the labor, if the Town covers the cost of supplies, to build several computer work stations. I will update Council when we get pricing on these items.

SNOW REMOVAL CLAIMS

With the increased number of winter storms that have been coming through town, we have had a corresponding increase of snow removal claims being submitted. The Risk Management Department has been very busy processing these claims. Most of the claims that have been submitted so far have been for damaged vehicles or windows.

MLPD TRAFFIC ENFORCEMENT

There were 19 citations issued last week by the MLPD.

REMINDER: SNOW SMART WAYS TO MAKE WINTER A SAFER SEASON

The Town has some snow smart advice to keep you and your family safe this winter:

Child Safety—please keep children indoors while snow removal operations are underway.

Pedestrian Safety—don't watch snow removal operations from the edge of the road, and if you are on the road, please walk towards oncoming traffic.

Back Off—keep a safe distance (40+ feet) when driving/standing behind snow removal equipment.

Slow Down—the maximum speed when chain controls are in effect is 25 mph. Please watch for pedestrians walking on the road, and slow down as required.

Protect your property—it is a violation to park on any Town roadway from November 1, 2007 through April 30, 2008.

10% OFF TOTAL CHECK WITH THIS AD

This offer is not valid on Fridays, Saturdays & Holidays
 361 Old Mammoth Road • Mammoth Lakes
 (760) 934-8587

Please park your vehicle well inside the orange snow stakes.

Light it Up—leave the exterior lighting of your home on at night during winter storms.

TWO ARRESTS IN SEX CRIMES

MLPD sexual assault investigators are continuing investigations into two separate felony cases of adult males allegedly having sex with underage females.

Todd Anthony Talamantes, 21, of Mammoth Lakes was arrested on a charge of statutory rape after a victim came forward with an allegation that Talamantes forced her to have sexual intercourse with him two years ago when he was 19 and she was 13.

Richard Weston "Wes" Enciso, 22, also of Mammoth, was arrested on a charge of statutory rape. It is alleged that Enciso was over 21 and his victim younger than 16 at the time of the crime.

Because of the ages of the victims and the nature of the crimes, MLPD is not releasing additional information at this time.

Chapter 6h: Collateral

Based upon the graphic scheme for CAMP: WINTER as approved by the CAMP Partners, MLTPA designed and produced posters, postcards, business cards, and a flyer advertising the “Four-Season Trails: How Communities Around the World Get It Done” presentation to serve as marketing materials. Collateral materials were distributed to every cooperating business in Mammoth Lakes, especially those with high traffic or an outdoor-recreation focus. Individuals also handed out business cards to the public. Materials were replenished as necessary.

CAMP: WINTER business card, back

Chapter 6i: Editorial, print

CAMP: WINTER received press coverage before, during, and after the event in a variety of local and regional media, created by staff writers and by MLTPA in the form of press releases that were used substantially as part of staff-generated articles. Announcements about the CAMP process also were published.

A letter home from CAMP

By Kim Stravers

MLTPA Communications Manager

For all but about 160 of you, this column might represent our first conversation (albeit a one-sided one) in quite some time. So, much like a well-meaning yet overzealous former classmate approaching you at your 25th reunion—John? John Smith?! Well, I can't believe it! It's me, Jane Doe! Jane...you remember! Fifth-period science? Mrs. Clark? No?—allow me to reintroduce myself:

[Extends hand, big smile.] Hi. I'm Kim Stravers, Communications Manager for the Mammoth Lakes Trails and Public Access Foundation, affectionately known as MLTPA. After many conversations with many of you, about 18 months or so ago, it occurred to us that Mammoth Lakes deserved an update to its trails and public access system—one that would not only improve the condition of our singletrack, fire roads, and open spaces, but that would let us get from here (in town) to there (our beloved Inyo National Forest) safely and easily. Since that time, we've made incredible strides, gathering the local support and political will to make our shared vision a reality.

Today that hope is embodied in CAMP: Concept and Master Planning, a partnered effort between MLTPA (representing you!), the Town of Mammoth Lakes, the United States Forest Service and Mammoth Mountain Ski Area, to enhance our recreation opportunities, improve feet-first mobility and guarantee safe passage between our homes

Putting your marker where your mouth is at the CAMP: SUMMER Trails Network Workshop

60TH Anniversary Specials!

Anniversary Loan

Just in time for the holidays!

Premier Rate, as low as
9.99% * ANNUAL PERCENTAGE RATE

- ◆ Terms up to 60 months
- ◆ Maximum loan amount \$25,000

Term Share Certificate

You can earn 6.00% APY for 60 Days!

6.00% ** ANNUAL PERCENTAGE YIELD

- ◆ 60 day certificate automatically renews to a 12-month Certificate at 4.60% APY - 4.52% rate

5.90% ** DIVIDEND RATE

- ◆ Add-on feature available
- ◆ Minimum deposit \$1,000

Rates effective 11-26-07-12-31-07 close of business. All rates and policies subject to change without notice.
 *SIGNATURE LOAN: Maximum financing may vary and rates are as low as the Premier Rate. Your rate may be higher or lower based on your individual credit profile. Other rates and terms available. All loans are on approved credit.
 **TERM SHARE CERTIFICATE: APY = Annual Percentage Yield. The minimum daily balance to open the account and to earn the disclosed APY is \$1,000. The APY is based on an assumption that dividends will remain in the account until maturity. 60 day Certificate at 5.90% dividend rate will renew automatically to a 12-month Certificate at 4.52% dividend rate. A penalty of up to 90 days interest for withdrawal of funds before full 14-month maturity.

and secret places. To date, our funding partners have committed a total of \$250,000 to this project—a pretty strong show of support, don't you think?

The current state of affairs couldn't have been made clearer than when the lot of you joined us for CAMP: SUMMER, which was held Nov. 1-4, at Canyon Lodge. The consultants the CAMP Partners have engaged to help us bring our ideas to life were on hand all weekend to find out just what this community wants and needs out of a summer-time trail system. They didn't want to take our word for it—they wanted to hear straight from you, and I'd like to commend you for rising to the occasion. You hiked. You biked. You asked questions. You gave answers. You dreamt it up, and you drew it on paper. You talked among yourselves, you got a little verklempt.

It doesn't matter whether you signed up for one session or eight; if you chatted up the CAMP team or stuck a pin in the interactive map. What's so important, and so inspiring, is that, just by showing up, you made a statement about how much this place means to you. Sure, I can talk all day about how important this process is to our community, but without "butts in seats," as they say, it might as well be hot air, and since I haven't heard of any upcoming balloon races, I'd really like to invite you to take the next step in making CAMP a success.

Please join us February 7-12, 2008, in the Mountain Conference Center at Main Lodge for CAMP: WINTER, a snowy (we hope) version of our November event that will focus on how you play outdoors in the winter and how you get around town in the colder months. Through fun and interactive tours, exhibits, presentations and workshops, you'll have the chance to work side by side with the consultant teams from Alta Planning + Design and Trail Solutions to identify what's working within our current system (and what's not) and to describe your vision of outdoor recreation and mobility in Mammoth Lakes. This process is designed to benefit the entire community, and only you can help us put the Mammoth mark on the new plan. If you can't make it for the festivities, please take the online trails surveys at www.mltpa.org or www.visitmammoth.com.

If you're a snowmobiler, Nordic skier, backcountry kicker-builder, or you just like to watch your dog frolic in the fluffy white stuff...well, I hope you get to do some of those things pretty soon here. No matter what, though, make sure to mark your calendars for CAMP: WINTER, so you can help make Mammoth a better place to live and play. Play your part in the vision! Look for updates from yours truly in this here space, and call me at (760) 934-3154 if you'd like to talk trails. See you in February!

Letters

The 5 W's (and One Pesky H) of CAMP: Concept and Master Planning, or How Trails Planning Works for You!

WHO: The Concept and Master Planning trails plan update, or CAMP, is a joint effort between three highly visible parties—the Town of Mammoth Lakes, Mammoth Mountain Ski Area, and the United States Forest Service—and one that's maybe not been so obvious: YOU, the caring and proactive community. You've heard all about the three cooperative configurations of these agencies—how they interact as CAMP's Funding, Jurisdictional, and Planning partners—and maybe you've been thinking that this whole process is just another bureaucratic pile of paperwork, that what goes on up there doesn't have much to do with what you're up to down here. I'm here to say it ain't so, though, pal. The four of us are in this together, and MLTPA is here to help make sure your input gets in the mix in an egalitarian fashion.

WHAT: Good question. I guess we ought to tell you what this job is if we expect you to do it, hey? Okay, then: CAMP is the name of the process that's

going to result in the Town of Mammoth Lakes receiving a professional and forward-thinking update to its Trails Plan, whose current cover, circa 1991, features a woman in legwarmers toolin' around town in tights...on Rollerblades. (Fair enough—the early part of last decade surely suffered its missteps.) I think it's safe to say that we've come quite a way in the last sixteen years; maybe we're still out there doing the same kinds of things—hiking, skiing, crashing our bicycles—but the town certainly looks different. More people around to share our outdoorsy goods with, too. So to make sure that a.) we all can get around this place safely, efficiently, and without sucking Chevron dry, and b.) the places we like to go don't suffer a geographic fate similar to that of the much over-loved teddy bears of our childhood, MLTPA and the above-mentioned partners have hired on a team of trails planning consultants to evaluate our situation and help make it mo' better. (Hello, Alta Planning + Design and Trail Solutions! Whoops—that belongs in "Who," doesn't it?) With your help—ahem, WITH YOUR HELP—this team and these partners will be able to generate a Draft Trails Master Plan that

is unique to our little slice of heaven and addresses the specific challenges of gettin' after it (and gettin' to it) in the Eastern Sierra.

WHEN: We're already hoppin'! Contracts were signed in September 2007, and MLTPA put on CAMP: SUMMER—a free public workshop designed to gather information from the community about summertime recreation and trails in Mammoth—in Canyon Lodge from November 1st through the 4th. But we're not done yet—CAMP: WINTER will be held February 7–12, 2008. This is YOUR CHANCE to tell us what we need to know about wintertime trails and recreation in our town. And if you can't come to any of the (incredibly fun and educational and free) events, we urge you—beg you, even!—to take the Winter and Summer Trail Surveys at **HYPERLINK** “<http://www.mltpa.org>”

They'll be available to you for another three or four months, and they don't take more than a few minutes to complete, so there goes your excuse about not having any time to participate.

WHERE: CAMP: WINTER Base CAMP will be set up in the Mountainside Conference Center at Main Lodge. Take a break from your Most Epic Day Ever, grab some grub at the Broadway Marketplace, then duck around the corner to take a stroll though the Exhibit Hall. We'll have a couple of computer stations set up as well, so you can wiggle your frozen toes while you take the online surveys.

WHY: Because we asked you to! Actually, this whole thing's come together because YOU asked US. Since its foundation in 2006, MLTPA's been working to serve the outdoor recreation needs of our community, as indicated by its members. And CAMP is a direct result of people like you making your voices heard and demanding on-the-ground action. Mammoth Lakes has come to a significant turning point, whereby folks are beginning to see the benefit to putting their heads together rather

than putting on the personal-interest blinders. Quiet recreationalists, unite with your motorized brethren! Young kicker-builders, lend a hand to your fellow snowshoer! We can work it out. Even Paul McCartney says so. And if you don't speak your mind now, well, then you don't get to whine about the plan later.

HOW: Come on down to CAMP: WINTER, for starters. You can get event details, register for all kinds of sessions, sign up for the CAMP newsletter, and take the Winter and Summer Trail Surveys at **HYPERLINK** “<http://www.mltpa.org>” www.mltpa.org, or you can call yours truly at (760) 934-3154 to talk trails planning. We look forward to hearing from you!

CAMP: WINTER registration open

By Kim Stravers, MLTPA
Communications Manager

Online registration for CAMP: WINTER, Feb. 7-12, is open! To make things simpler, I've outlined the week's activities below. In case you're not sure which sessions will be the best use of your time, I've also indicated who we think would benefit most from each activity. If after reading this you've got more questions, feel free (as always) to call MLTPA at (760) 934-3154 or drop us a line at CAMP@mltpa.org.

Thursday, Feb. 7 - Tuesday, Feb. 12 EXHIBIT HALL/BASE CAMP

See Schedule of Events for details

Mountainside Conference Center, Main Lodge

Informational and interactive exhibits will be on display throughout the event, and MLTPA staff will be on hand all week to field questions and receive feedback. Computer stations will be set up so that participants may take the CAMP: SUMMER and CAMP: WINTER trail surveys. Displays will include maps and planning exhibits, photos and instructional materials related to winter trail types, GIS planning data, and winter travel/snow removal. Come to the Registration Desk to enjoy a guided tour of the Exhibit Hall, or pick up a copy of the Self-Guided Tour.

Suggested participants: Open to all

Capacity: No limit

Thursday, Feb. 7

LISTENING SESSION: WINTER RECREATION, MOTORIZED

11 - 11:45 a.m. Suite Z

Planning consultants from the Trail Solutions team will lead an informal focus group comprised of community members who are passionate about motorized winter recreation. The session is designed so that Trail Solutions can better comprehend the specific needs and challenges of this particular group as they relate to multi-use trails, staging areas, and recreation.

Suggested participants: Snowmobilers

Capacity: 16

OPENING RECEPTION

6:30 - 8 p.m.

Exhibit Hall, Mountainside Conference Center, Main Lodge

While enjoying cocoa and cookies, the public will have the opportunity to meet planning consultant team members from Alta Planning + Design and Trail Solutions, MLTPA staff and Board members, and other CAMP Partners. An overview of the week's activities will be provided, as well as introductions to the CAMP Team. Participants also may register for additional sessions, and take the CAMP: WINTER and CAMP: SUMMER trail surveys, at this time.

Suggested participants: Open to all

Capacity: No limit

Friday, Feb. 8

PORTAL TOUR

9 a.m. - noon, Meet at Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a Town Trolley tour through Mammoth Lakes, identifying existing winter public-travel routes—both the Mammoth Lakes Trail System and public-transportation routes—and the recreation access points to which they connect. Also Saturday, Feb. 9.

Suggested participants: Open to all

Capacity: 25

LISTENING SESSION: WINTER RECREATION, NON-MOTORIZED

10:30 - 11:15 a.m., Suite Z

Planning consultants from the Trail Solutions team will lead an informal focus group comprised of community members who are passionate about non-motorized winter recreation. The session is designed so that Trail Solutions can better comprehend the specific needs and challenges of this particular group as they relate to multi-use trails, access points to public lands, and recreation.

Suggested participants: Frontcountry snowshoers and Nordic skiers, ice fishermen, on-lake ice skaters, in-town winter walkers/pet walkers, snowplayers (tubing, sledging, etc.)

Capacity: 16

LISTENING SESSION: WINTER RECREATION, NON-MOTORIZED BACKCOUNTRY

11:30 a.m. - 12:15 p.m., Suite Z

Planning consultants from the Trail Solutions team will lead an informal focus group comprised of community members who are passionate about non-motorized winter recreation in the backcountry. The session is designed so that Trail Solutions can better comprehend the specific needs and challenges of this particular group as they relate to multi-use trails, access points to public lands, and recreation.

Suggested participants: Winter campers, biathletes, dog sledgers, ice climbers, backcountry skiers and snowboarders, backcountry snowshoers and Nordic skiers

Capacity: 16

WALKING TOUR

1 - 3 p.m., Meet at Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a walking tour through Mammoth Lakes, identifying existing winter public-travel routes—on the Mammoth Lakes Trail System and on sidewalks—and providing information about snow removal as it's related to Business Assessment Districts (BADs), Safe Routes to School, and grooming for non-motorized travel. Also Saturday, Feb. 9.

Suggested participants: Open to all

Capacity: No limit

LISTENING SESSION: WINTER MOBILITY

3:30 - 4:15 p.m., Suite Z

Planning consultants from the Trail Solutions and Alta Planning + Design teams will lead an informal focus group comprised of community members who are interested in snow removal and first-time winter mobility in town. The session is designed to collect and distribute, in a moderated environment, information about current grooming and snow maintenance, first-time travel, and wintertime public transit.

Suggested participants: Open to all. In-town Nordic skiers, snowshoers, and walkers/pet walkers, as well as those in neighborhoods that interface with Mammoth Mountain Ski Area, may wish especially to participate.

Capacity: 16

FEATURED PRESENTATION: "FOUR-SEASON TRAILS: HOW COMMUNITIES AROUND THE WORLD GET IT DONE"

Please see "MLTPA" MT page 57

MLTPA *continued from MT 42*

Area, may wish especially to participate.

Capacity: 16

FEATURED PRESENTATION: "FOUR-SEASON TRAILS: HOW COMMUNITIES AROUND THE WORLD GET IT DONE"

Presenter: Joey Klein, Trail Solutions

6:30 - 8 p.m.

Exhibit Hall, Mountainside Conference Center, Main Lodge

This presentation by world-renowned trails designer Joey Klein will take the audience on a tour of five continents, highlighting the history and meaning of why we love trails, how communities deal with their own unique geographies (balancing seasonal and geological challenges), and heroic tales of how citizen groups have come together to make their own dreams a reality—just as Mammoth is doing now.

Suggested participants: Open to all

Capacity: No limit

Saturday, Feb. 9

PORTAL TOUR, 9 a.m. - noon (see Feb. 8); WALKING TOUR 1-3 p.m. (see Feb. 8.)

TRAILS NETWORK WORKSHOP: RECREATION

2 - 5 p.m., Suite Z

Using base maps of existing trails and play areas, participants will work closely with planning consultants from Trail Solutions to evaluate existing wintertime connections to recreation on public lands, discuss potential new links and other improvements to the current system, and brainstorm about trail amenities such as trailheads and signage within the frontcountry area adjacent to the community.

Suggested participants: Participants in all wintertime outdoor recreation activities

Capacity: 16

TRAILS NETWORK WORKSHOP: MOBILITY

2 - 5 p.m., Suite Z

Using base maps of existing trails and routes, participants will work closely with planning consultants from Alta Planning + Design to evaluate existing wintertime feet-first and public transit systems and how they connect to service and neighborhoods, to favorite recreation and leisure areas, and for safe routes to school and work. There will also be discussion of potential new links, enhanced amenities such as signage and wayfinding, bus stops, and other safety enhancements.

Suggested participants: Open to all. In town Nordic skiers, snowshoers, and walkers; pet walkers, as well as those in neighborhood that interface with Mammoth Mountain Ski Area, may wish especially to participate.

Capacity: 16

Sunday, Feb. 10

EXHIBIT HALL OPEN. NO SCHEDULED SESSIONS.

Monday, Feb. 11

NEXT STEPS PRESENTATION

6:30 - 8 p.m.

Exhibit Hall, Mountainside Conference Center, Main Lodge

A presentation and question-and-answer session focused on the lessons and information learned from the week's workshops and listening sessions, and how CAMP: WINTER connects to CAMP: SUMMER and the CAMP process as a whole. Information will be provided concerning how the public can stay informed and involved in the planning process, which planning steps are still to come, when citizens can expect a draft plan, and how to make the plan a reality.

Suggested participants: Open to all

Capacity: No limit

MLTPA update: CAMP: WINTER starts today!

By Kim Stravers

Communications Manager, MLTPA

CAMP: WINTER—the snowy portion of the Concept and Master Planning (CAMP) trails project currently underway—starts tonight, that's Thursday, Feb. 7, at 6:30 p.m. in the Mountainside Conference Center in Main Lodge. Save room after dinner for some fresh-baked cookies and hot cocoa and meet us in the Exhibit Hall, where you can preview our variety of displays, meet the trails planning consultants and CAMP Partners, take the Winter and Summer Trail Surveys at our convenient computer stations, and register for additional sessions happening throughout the week.

To make it easy for you, we've corralled our community's numerous wintertime pursuits into three groups: Recreation, Non-Motorized; Recreation, Non-Motorized Backcountry; and Recreation, Motorized. We're also offering a couple of special Winter Mobility sessions. Find your people below and you'll see which workshops MLTPA recommends you attend. Of course, you can sign up for anything you like, but we thought we'd give you a hand in choosing, based on what might interest you most. All sessions are free and open to the public, and will continue through Feb. 12.

In-depth session descriptions, as well as a complete schedule of events, including specific dates and times, are all available on our Web site, www.mltpa.org. Pre-registration is strongly recommended, though you may sign up on site. Bring a friend and tell a neighbor!

CAMP: WINTER Schedule of Events
Feb 7-12

Register now at www.mltpa.org!

RECREATION, NON-MOTORIZED:

Frontcountry snowshoers and Nordic skiers, ice fishermen, on-lake ice skaters, in-town winter walkers/pet walkers, snowplayers (tubing, sledding, etc.)

- Exhibit Hall/Base Camp
- Opening Reception
- Portal Tour
- Walking Tour
- Listening Session: Winter Recreation, Non-Motorized
- Featured Presentation: "Four-Season Trails: How Communities Around The World Get It Done" (presenter: Joey Klein, Trail Solutions)
- Trails Network Workshop: Recreation

- Next Steps Presentation

RECREATION, NON-MOTORIZED

BACKCOUNTRY: *Winter campers, biathletes, dog sledders, ice climbers, backcountry skiers and snowboarders, backcountry snowshoers and Nordic skiers*

- Exhibit Hall/Base Camp
- Opening Reception
- Portal Tour
- Listening Session: Winter Recreation, Non-Motorized Backcountry
- Featured Presentation: "Four-Season Trails: How Communities Around The World Get It Done" (presenter: Joey Klein, Trail Solutions)

Blazing trails to unite Sierra ski town

Activists seek to ensure easy pedestrian access to the forest around Mammoth.

By DEAN KUIPERS
Times Staff Writer

MAMMOTH LAKES — Like so many conflicts in the American West, this one began when newcomers put up a gate.

It was an artsy barrier, much like the posh developments that began to swell Mammoth Lakes even before Dave McCoy sold the famed Mammoth Mountain ski area in 2005. Owners in the new gated communities said they were only trying to keep cars off Ranch Road, where locals had long parked to ski or snowboard the Sherwins, a series of much-loved powder chutes on the edge of town.

The fight that ensued forced many here to ponder whether the area's public lands were doomed to suffer the fate of some Malibu beaches — public in name, but private in practice.

Ranch Road wasn't the only place changing when the gate went up in 2005. A development boom was on. First came the 230-unit Village at Mammoth condo-retail development, complete with a new gondola, and several accompanying posh residences. There are 12 more large-scale developments in the works and plans to refit the airstrip for commercial flights.

"This got me to thinking," said John Wentworth, a local resident and avid backcountry skier who helped push a referendum that eventually won access around the gate. "How could a community whose entire economy is predicated on recreation find itself in a situation like this?"

In the hurly-burly of the boom, nobody was seeing the big picture quite like Wentworth. A co-producer of director David Lynch's "Mulholland Dr." and "Twin Peaks: Fire Walk with Me," he had bought a house in Mammoth and found it difficult to get around by foot or mountain bike. In big snows, pedestrians must take to the streets as SUVs and buses slide by. How hard could it be to build?

[See Mammoth, Page B7]

Mammoth growing pains

[Mammoth, from Page B1]

d a trail system that really worked? Pretty difficult, it turns out.

Wentworth founded a nonprofit called Mammoth Lakes Trails and Public Access and took on a new persona as city planner, environmentalist and politician. He dived into an exhaustive, originally self-financed effort to master plan the connections between the town and surrounding wild lands, picking up backers and new recruits along the way.

First, the nonprofit was hired by the town to map almost 200 points of recreational access. Then, the group persuaded the Mammoth Mountain Ski Area, the town government, the U.S. Forest Service, several developers and various interest groups, such as Nordic skiers and snowmobilers, to meet and discuss their views. Just getting all those people in a room was a victory to many.

"It's a novel thing for Mammoth to actually plan something!" said Mammoth Mountain Chief Executive Rusty Gregory, an early supporter. He sees protecting trail access as essential to making the place into a world-class resort.

Wentworth has "a very clear idea of how the trails would work, with common signage. He's gotten people enthusiastic about it like no one I've seen here in Mammoth in years," Gregory said.

The Mammoth Lakes Town Council got so excited that it took a 2007 tour of peer resorts, such as Sun Valley, Idaho, and Whistler in British Columbia, which have had trail-management nonprofit groups in place for as long as 20 years.

"We are competing with other destinations that have these very comprehensive systems, and we sometimes lose market share," said Danna Stroud, director of tourism and recreation for the town. "We are in the backyard of Southern California, and there are 15 million to 17 million people down there that could be accessing us instead of going elsewhere."

Wentworth says the competitive edge will come from

Mammoth's unique relationship to federal lands.

The town consists of just 4.5 square miles, about the size of Culver City, squeezed on every side by the Inyo National Forest. Unlike other resort towns, such as Vail, Colo., or Park City, Utah, Mammoth cannot sprawl — not without congressional intervention, anyway.

Many people in Mammoth have seen a film called "Resorting to Madness," which chronicles the congestion in Vail and Park City, and they hope Wentworth's group will help them avoid this fate. Instead, they imagine a small but densely populated resort with easy pedestrian access to the wild.

That will also be a boon to the local environment, said Julie Bear, Mt. Whitney area representative for the Sierra Nevada Conservancy, which gave the trails group a nearly \$121,000 grant. The conservancy believes that Mammoth's plan can be a model for how other rapidly growing Sierra communities can balance recreation and environmental protection.

"We want people to get out of their cars and enjoy the beauty of nature," Bear said. The trails group is "planning for that growth so that they have an accessible community and one [where] the trails are kept out of the most environmentally sensitive areas."

The group has solicited more than \$350,000 for this planning process. It has been so successful, in fact, that its only problem might be in creating unrealistically high expectations. Homeowners, developers, environmentalists and outdoorsmen are lobbying hard for what they want, and not everyone will win.

In a recent fight over a new ski trail to the Village development, for instance, Wentworth was astonished to find homeowners fighting hard to keep the trail out of their backyards. Snowmobilers — who have clashed in the past with Nordic skiers and other non-motorized trail users — want to keep access to 100 miles of trails they built with public grants.

WALLY SKALIJ Los Angeles Times

TRAILBLAZER: Activist John Wentworth formed a nonprofit group that brought together disparate segments of the Mammoth Lakes community to discuss the issue of access from the town to the surrounding wild lands.

"Our conflicts are not typically environmental resource conflicts; they're social conflicts," said Mike Schlafmann, deputy district ranger for the Inyo National Forest, who has been deeply involved in the process. "It's motorized versus non-motorized, or cross-country skiers versus dog walkers and bikers versus runners."

"My hope is that MLTPA will be a clearinghouse for Nordic skiers, mushers, dog walkers, runners, snowmobilers, snowshoers and all the rest, so we have a way to communicate cordially," said Bill Sauser, chairman of the Tourism and Recreation Commission.

He smiled at the word 'cordially,' noting that, as president of the Mammoth Lakes Snowmobile Assn., he has struggled to keep interactions on the trail polite.

"These conflicts are soci-

etal," said Roger Rilling, who has followed the trails process closely. "Just like that Ranch Road thing: The second-home owners are scared, so they lock everything up. Everybody's afraid they'll lose their rights."

And there are always those who don't want change. One longtime resident who asked not to be named said: "I think we should be fighting the development instead. It's like making something easier that shouldn't be happening at all."

Exasperated, Wentworth threw up his hands at this suggestion, saying: "Ain't gonna happen. Developers do what they do. If you don't articulate these issues in their documents, in their processes, then I'm going to lose everything I love about this place."

Happy CAMPers

Trails planners optimistic following second summit.

By Walter Kent

Maybe Mammoth Lakes will be the future preferred vacation spot for NASCAR's Dale Earnhardt Jr.

After all, even race car drivers need to get out of their cars once in awhile.

And as Consultant Jeff Olson of Alta Planning said at the wrap-up session of MLTPA's Winter CAMP on Monday night, "Mammoth could be a place to come take a vacation from the automobile."

If, of course, there are trails and buses to help people get around.

That's where MLTPA (Mammoth Lakes Trails and Public Access), a local non-profit, comes in. MLTPA organized the six-day CAMP (Concept and Master Planning) event. Its goal: to solicit public feedback as to how Mammoth can provide access to public lands during winter months, how trails should be used and maintained, and how to make Mammoth more pedestrian-friendly.

Winter CAMP included public forums and workshops, many of which took place "on the ground" on snow-

mobiles, skis and snowshoes.

This public input will eventually be incorporated into a proposed update to the Town's Master Trails Plan, which was written in 1991.

The Consultants Weigh In

At Monday night's session at MMSA's Mountainside Conference Center, both Jeff Olson and Cimarron Chacon of Trails Solutions outlined some of the broader findings gleaned from the weekend.

Olson, as dressed-down and ruggedly fit as any Mammoth lifer, seemed in awe of the recreational opportunities in Mammoth, the town's setting, and the level of community enthusiasm for increased and better public access.

However, the Saranac Lake, NY resident summed up previous planning efforts by saying that the "built environment doesn't connect to the kind of community you want to be." He highlighted the town transit system as a huge success but emphasized that

"getting to and from bus stops should be made easier."

Other points of emphasis for Olson were storm safety concerns which struck him as "one of the most significant issues the community faces."

To illustrate this point, Olson showed photographic examples of Main Street during a snowstorm with pedestrians struggling to keep their footing and drivers struggling with visibility.

Another safety issue for Olson was the snowplay area on Minaret Rd. adjacent to Sam's Wood Site (What happens if a Flexible Flyer actually takes flight and makes the roadway?). Also mentioned was a need to increase the availability of safe, winter routes for children to walk to school.

Cimarron Chacon of Trail Solutions also looked the part of an Eastern Sierra local. Her enthusiasm for backcountry snow recreation was as apparent as that of any devotee of untracked powder turns. She turned the focus of her comments to the concerns she heard at various listening sessions from members of Mammoth's "strong backcountry culture." Chacon stressed planning to increase snowmobilers' access to fuel and services. Also included in her recommendations were ways to provide connectivity between the extensive groomed trail system north of town accessed from the Shady Rest portal and snowmobile trails elsewhere in Mammoth's vicinity.

Chacon's emphasis on backcoun-

try accessibility did not end with snowmobiling. She recommended increased information and signage regarding Sherwin Ridge access to backcountry skiers and snowboarders and also mentioned "the logical natural portal for a sledding and child snowplay area is at the foot of the Sherwins."

Both Chacon and Olson also mentioned the possibility of a groomed Nordic loop through and around town, free from motorized traffic, and providing access to other small loops branching off the Main Trail.

Winter CAMP signalled the culmination of the research phase of the Master Trails planning effort. However, the public still has the opportunity to comment online by filling out a user survey at www.mltpa.org.

In addition, Mammoth Lakes Town Council will again address the subject of a potential sales tax measure at its regular meeting next Wednesday at 6 p.m. Council is mulling whether to place a measure on the June 3rd ballot which would raise the local sales tax 0.5% to help fund implementation of the updated Trails plan.

For now, however, the consultants will go home and get to work on what they hope will be a safer, more recreation-friendly plan for Mammoth's future. A rough version of the plan may be available as early as next month. A formal version of the plan should be available for adoption by June.

Town news

February 2008

Visit us on the web at: www.ci.mammoth-lakes.ca.us

There is much to celebrate in Mammoth during the month of February. The Chinese New Year, Valentine's Day, President's Day Holiday Weekend, and the fabulous snow conditions are all great reasons to get outside and experience the boundless adventures Mammoth has to offer. For a comprehensive list of "Fab Feb" events and special deals, please log onto www.visitmammoth.com

Ice skating returns to Mammoth at the new Mammoth Ice Rink. The facility is located adjacent to the new library on Meridian Blvd., and opposite the Mammoth High School. The Ice Rink is open to the public 7-days a week (weather permitting) from 11:30 a.m. to 6:00 p.m. Friday night is family night—skate for only \$3/person. Rates for adults per session are \$10.00, and for a child under 15 years is \$8.00 (both include skate rental). Kids under 4 pay only \$2.00 with a paid adult, and MUSD and MCOE students receive admission and skate rental for only \$2.00 with school ID.

For additional information about the Mammoth Ice Rink, please pick-up the 2007/08 Mammoth Ice Rink brochure, visit us online at: www.visitmammoth.com/ICE or call the Ice Rink at (760) 934 2505.

Chapter 6j: Editorial, radio

MLTPA Foundation Communications Director Kim Stravers was interviewed by Dan Erwine of KUNR, the Reno, NV–area National Public Radio (NPR) affiliate station, to discuss MLTPA, CAMP, and the upcoming CAMP: WINTER event, which aired on December 24, 2007, during NPR’s “Morning Edition” time slot. Ms. Stravers and MLTPA Foundation Acting Executive Director/President John Wentworth were invited back to present CAMP as the subject of KUNR’s live-broadcast “High Desert Forum” show, also hosted by Dan Erwine, which aired on February 15, 2008. Please see the CAMP: WINTER RADIO EDITORIAL DVD for further detail.

Chapter 6k: E-mail campaigns

- **CAMP: WINTER E-newsletter**

MLTPA built a dedicated sign-up function to collect names, e-mail addresses, and other optional information from parties interested in receiving CAMP: WINTER information via e-newsletter, which was displayed on each page of www.mltpa.org and on each page of the CAMP: WINTER mini-site. Those registered received regular e-mail communication from MLTPA via the My Emma e-mail service.

- **Update e-mails to event registrants**

MLTPA sent out e-mails to community members who had registered or shown interest in the event to apprise them of updates to the CAMP: WINTER event schedule.

- **E-mail blasts on behalf of MLTPA**

Many community organizations agreed to distribute CAMP: WINTER information to their members via e-mail blasts to internal e-mail lists. MLTPA supplied copy in advance for each e-mail, although a few groups used only select parts of the text in more general e-mails. Participating organizations are listed below.

- Homeowners Associations
- Mammoth Hospital
- Mammoth Lakes Board of Realtors, Inc.
- Mammoth Lakes Chamber of Commerce
- MMSA
 - Pass-holders
 - Employees
 - Mammoth Mountain Hosts
- Mono County
- *Stu's News*
- Town of Mammoth Lakes employees
- User groups/clubs
 - DJ's Snowmobile Adventures
 - Eastern Sierra Avalanche Center
 - Eastern Sierra Nordic Ski Association
 - Fishermen
 - High Sierra Striders
 - High Sierra Triathlon Club
 - Ice skaters
 - Mammoth Lakes 4WD Club
 - Mammoth Lakes Snowmobile Association
 - Mammoth Mountaineering Supply/Alpine Approach
 - Mammoth Nordic
 - Mammoth Snowmobile Adventures
 - McGee Creek Pack Station

- Sierra Club
 - Sierra Engine
 - Sierra Mountain Guides
 - Sierra Rock Climbing School
 - Tamarack XC Ski Center
- **Personal e-mails**

MLTPA staff and Board members reached out to individual representatives of all segments of the community via e-mail, inviting them to attend special sessions such as the Trails Network Workshops, group functions such as the Opening Reception, and private sessions such as the Listening Sessions, as well as requesting that these parties pass CAMP: WINTER information to fellow club members, employees, co-workers, and others as appropriate. Please see the “CAMP: WINTER Communications Overview” for a detailed record of these communications. Bounce-back emails indicating incorrect recipient addresses, as well as e-mail RSVPs, are available upon request.

Greetings & Salutations!

We are bursting with pride to share with you the following fantastic news:

At their December 6th meeting, the Board of the Sierra Nevada Conservancy voted to award the MLTPA Foundation \$120,099 in grant funding, in support of CAMP!

This award, in addition to being the first MLTPA's had the good fortune of receiving, is also one of the first to be awarded in the State of California, as part of the SNC's first round of funding. We'd like to thank our CAMP partners--the Town of Mammoth Lakes, Mammoth Mountain Ski Area, and the United States Forest Service--for their unwavering public support of this partnered effort, and of MLTPA itself. Download the press release [here](#)!

This generous award will help MLTPA to bring to you **CAMP: WINTER, February 7-12, 2008, at the Mountainside Conference Center in Main Lodge**. Once again, the CAMP Partners and consultants eagerly await YOUR opinions on winter recreation, trails, and feet-first mobility in Mammoth. We'll send details shortly; in the meantime, click [here](#) to take the CAMP: SUMMER Trails Survey. **Play your part in the vision!**

We'll bring you more news soon. Get out there and enjoy our long-awaited snowfall!

Kim Stravers
Communications Manager, MLTPA

PO Box 100 PMB #432 | 1934 Meridian Blvd. | Mammoth Lakes, CA 93546
(760) 934-3154 | news@mltpa.org | www.mltpa.org

Greetings and salutations!

Before we lose you all to the annual Holiday Havoc, we'd like to share news of some exciting CAMP: WINTER developments:

- *The Sheet* has honored MLTPA Foundation President and Acting Executive Director John Wentworth as **Man of the Year!** Click [here](#) to download a PDF of the article.
- Communications Manager Kim Stravers has resumed her column in the *Mammoth Times*. Click [here](#) to download a PDF of the latest: "**What Is CAMP, Anyway?**"
- Ms. Stravers also recently had the pleasure of being interviewed by KUNR's Dan Erwine, the station's local host of **NPR's Morning Edition** program. Tune in on **Monday, December 24th at 5:30 a.m. or 7:30 a.m.** to listen in! Set your dial to 97.5 FM in Mammoth Lakes, or, for a live stream on the Internet, go to <http://www.kunr.org/translators/> and click the "Listen Now" icon at the upper left of the screen.
- If you haven't gotten a CAMP: WINTER postcard in your mailbox, you've still probably noticed the posters around town. It's coming up quickly -- **February 7-12, 2008, in the Mountainside Conference Center at Mammoth Mountain's Main Lodge** -- so be sure to visit the [CAMP: WINTER website](#) for details!
- **The CAMP: SUMMER survey is still open**, and the CAMP: WINTER version will be available soon! WE NEED YOUR INPUT! Click [here](#) to participate.

We'll be back in touch after the New Year, but feel free (as always) to contact our staff anytime at CAMP@mltpa.org or by calling (760) 934-3154. Here's to a bountiful 2008!

Best,
Kim Stravers
Communications Manager, MLTPA

PO Box 100 PMB #432 | 1934 Meridian Blvd. | Mammoth Lakes, CA 93546

Dude -- that's, like, next week! [Register now!](#)

Greetings and salutations!

At long last: **CAMP: WINTER starts next week!**

Even better: [Registration is now open!](#)

No matter what you like to do outside in the wintertime -- [ski](#), [shoe](#), [sled](#), or simply [walk to Vons](#) in the crisp, cold air -- there's a reason for you to get involved in CAMP, the Concept and Master Planning process for trails and public access here in Mammoth Lakes. We've got

a slew of "snow sessions" planned for this week-long event, from outdoor tours to special listening sessions, and to make it easy for you to decide which ones to sign up for, we've got a list of suggestions for [every outdoor recreation activity](#) we can think of. If you can't find a spot for us in your schedule, we invite you to visit the Exhibit Hall in the Mountainside Conference Center at Main Lodge -- it'll be open during ski area hours all week -- and to take the [Winter and Summer Trail Surveys](#) online.

Community involvement is key to this process. Don't miss this opportunity to play a role in the trails plan update!

MLTPA's here to answer your questions and help you register, so call on us anytime at (760) 934-3154 or CAMP@mltpa.org.

See you at the **Opening Reception**, Thursday, February 7th, at 6:30 p.m. in the Exhibit Hall!

Kim Stravers
Communications Manager, MLTPA

PO Box 100 PMB #432 | 1934 Meridian Blvd. | Mammoth Lakes, CA 93546
(760) 934-3154 | news@mltpa.org | www.mltpa.org

Click [here](#) to download the full-size version.

Greetings and salutations!

Not that you'd forget...but **CAMP: WINTER** kicks off **tomorrow evening** -- that's **Thursday, February 7th** -- at 6:30 p.m. with an Opening Reception in the Exhibit Hall (Mountainside Conference Center, Main Lodge)! If you have yet to sign up for this visionary week-long event, please visit www.mltpa.org to get involved. [Online registration](#) will close at noon on Thursday, February 7th, but you'll still be able to sign up for activities in person at the Exhibit Hall through Monday, February 11th. Not sure what to register for? Click [here](#) to find a list of sessions recommended just for you!

You won't want to miss our two featured presentations! Joey Klein of Trail Solutions will offer "[Four-Season Trails: How Communities Around the World Get It Done](#)" on Friday, February 8th, and Dr. Emilyn Sheffield will speak on "**The Tourism**

and Recreation Economy" on Saturday, February 9th. Both events will begin at 6:30 p.m. at the Exhibit Hall; click [here](#) for details.

Finally, we're proud to present one more special session: **Mammoth Trails!** If you're a member of a local club dedicated to outdoor recreation in Mammoth, please join us for an evening of discussion about how we can come together as a community to enhance and steward our trails and public access system. No registration required -- just walk right into the Exhibit Hall at 6:30 p.m. on Sunday, February 10th!

We hope you'll take this opportunity to play your part in the trails master-planning process. Tell a friend and bring a neighbor!

Looking forward to a fun and productive week,

Kim Stravers

Communications Manager, MLTPA

Hey there, trail lovers!

Please join us **this evening** from 6:30 p.m. to 8:00 p.m. in the CAMP: WINTER Exhibit Hall (Mountainside Conference Center at Main Lodge) for an introduction to **Mammoth Trails**. A joint effort between MLTPA and the community, Mammoth Trails is set to become a confederation of recreation-based user groups and clubs working together to improve outdoor experiences in Mammoth Lakes.

We'll present the draft charter, share the mission and purpose of Mammoth Trails, outline criteria for participation, and discuss how sharing resources and working collaboratively can help the recreation community at large achieve common goals.

If you're part of an outdoor recreation club or group in Mammoth, **we urge you to participate** in this special event. If you can't attend, **send a representative!**

And if your passion is for an activity that is not currently represented by a club, **come on up anyway!** We'll show you the benefits of organization and share how you can become a part of this landmark effort.

No RSVP is required; see you tonight!

Kim Stravers

Communications Manager, MLTPA

Los Angeles Times

MLTPA and the CAMP effort are gaining regional and statewide recognition! Dean Kuipers of the **Los Angeles Times** penned an article for the Environment section of the Sunday, February 10th, edition: **"Group blazes trails to unity as Mammoth grows"**. Read it [here](#) and share it with a friend!

For all of you who missed MLTPA's first appearance on KUNR in December, be sure to tune in from 4-5 p.m. on Friday, February 15th, to hear President/Acting Executive Director John Wentworth and Communications Manager Kim Stravers on the **"High Desert Forum" with Dan Erwine**. That's **97.5 FM** on your dial; look for the "Listen Now!" icon on [KUNR's Translators](#) page to hear it streaming live on the Internet!

THIS IS A LIVE CALL-IN SHOW! We encourage you to dial in and ask questions about all things MLTPA at (775) 784-1867.

CAMP: WINTER wraps up tonight with the **Next Steps presentation at 6:30 p.m. in the Exhibit Hall** (Mountainside Conference Center, Main Lodge) -- please join us for a look at what's to come! The Exhibit Hall will remain open until 3:30 p.m. on Tuesday, February 12th, so stop by and take the [Winter and Summer Trail Surveys!](#)

Many thanks to everyone who's participated in CAMP: WINTER thus far, and to all who have supported MLTPA along the way. See you tonight!

Hello!

We've added an event! MLTPA is proud to announce the addition of "Tourism and the Recreation Economy," a special presentation scheduled for Saturday night, February 9th, at 6:30 p.m. in the Exhibit Hall. Dr. Emilyn Sheffield is a professor of Parks, Tourism, and Recreation at CSU Chico. She will be discussing the opportunities and challenges of a tourism- and recreation-based economy, as opposed to more traditional models such as manufacturing or public sector.

Please join us for this feature presentation! Visit www.regonline.com/campwinter to access your registration record and add this event to your schedule. We look forward to seeing you there!

Best,

Kim Stravers

could you send this out for us via reg online? maybe we do this tomorrow morning, right before we close reg?

>>

Hello!

We're glad to have your participation in this weekend's CAMP: WINTER Walking Tour! Just a friendly reminder to select appropriate footwear for this tour, as the current pathway and road conditions range from clear to slush to snow to ice. Also, we will have a Town liability form for you to sign when you check in at the Visitors' Center. Thanks!

Best,
Kim Stravers

Hello!

Spots are still open for this weekend's CAMP: WINTER Walking Tours! If you've decided to join us for a stroll about town, please remember to select appropriate footwear for this tour, as the current pathway and road conditions range from clear to slush to snow to ice. Also, we will have a Town liability form for you to sign when you check in at the Visitors' Center.

Online registration is now closed, but you may sign up on site at the Visitors' Center 15 minutes prior to tour departure.

See you there!

hi there!

here are the emails that can go out via you, as they did last time.
please let me know if you need anything else. i will start sending
user group ones, etc., soon.

thanks!

1 Attachment, 50.5 KB

Dear Homeowners Association Board Member:

The Mammoth Lakes Trails and Public Access Foundation (MLTPA) is proud to present CAMP: WINTER, a free, week-long public workshop focused on winter recreation, trails, and mobility in Mammoth Lakes, February 7-12, 2008, at the Mountainside Conference Center in Main Lodge. CAMP stands for Concept and Master Planning—the trails update project currently underway thanks to the partnered efforts of the Town, Mammoth Mountain Ski Area, the United States Forest Service, and MLTPA. The aim is to generate a master plan that will improve Mammoth's trails and public access systems (both paved and natural surfaces) so that our community can enjoy safer, more fun, and more efficient recreation and feet-first mobility opportunities.

One of the goals of this historic effort is to link Mammoth's many districts, giving neighbors a "greener" way to visit each other. And whether you love to take a crisp walk through the neighborhood, visit Shady Rest for some cross-country skiing, or even head out on a backcountry expedition, sharing how you use these amenities is the key to designing a plan that reflects the desires of our unique community. No matter if your members are full-time residents or second homeowners, we all have a passion for Mammoth! To that end, I would like to invite you and yours to attend any and all of our public events over the CAMP: WINTER weekend—it's your golden opportunity to tell the trails consultants and CAMP Partners what we need to know about winter recreation in Mammoth.

A number of public tours, presentations, and workshops will run throughout the event period; for registration information, including a complete schedule and session descriptions, please visit www.mltpa.org or call (760) 934-3154. If you are unable to attend, we encourage you to provide comments via the Winter and Summer Trail Surveys, also available through www.mltpa.org.

MLTPA is eager to get to know your Homeowners Association. Please contact me anytime at kimstravers@mltpa.org or (760) 934-3154 with questions, concerns, or just to say hello. I look forward to seeing you February 7-12!

Warm regards,

Kim Stravers

Subject: CAMP: WINTER messaging for hospital staff

Hi, Lori!

Great talking to you the other day! Please find attached an email we would like for you to forward to Mammoth Hospital employees on MLTPA's behalf. Please let me know if you have questions, or need to make a change.

Thanks so much!

Dear Mammoth Hospital Employees:

As leaders in our healthcare community, you know better than anyone how valuable recreation opportunities are to the health of residents of all ages. And what better way to get people motivated to take a stroll after dinner than to provide for them a trails and public access system that brings them safely and efficiently to the many outdoor recreation amenities we are blessed with in the Eastern Sierra?

The Mammoth Lakes Trails and Public Access Foundation (MLTPA), in partnership with the Town of Mammoth Lakes, Mammoth Mountain Ski Area, and the United States Forest Service, has recently initiated **CAMP, the Concept and Master Planning process for trails and public access**, which seeks to update and improve the recreation and mobility opportunities in Mammoth through informed, cooperative, and timely trails planning -- planning that can help keep our friends and neighbors out of their cars, on their feet, and on their way to lifelong health and wellness.

We'd like to extend to you a special invitation to participate in **CAMP: WINTER**, a free, week-long public event focused on **winter recreation, trails, and mobility** in Mammoth Lakes, **February 7-12, 2008**, at the Mountainside Conference Center in Main Lodge. A variety of tours, workshops, listening sessions, and special presentations will be on offer, and we hope that you, our local caregivers, will take a moment to share your perspective on recreation and feet-first mobility in our town.

Session descriptions, registration info, a complete event schedule, FAQs, and more are available on our website, www.mltpa.org. If you can't make it in person but still want to participate, please take the **Winter and Summer Trail Surveys**, prepared by CAMP consultants, also available on our website. And feel free to share your comments anytime via e-mail (CAMP@mltpa.org) or by calling MLTPA directly at (760) 934-3154.

We're looking forward to your participation in this landmark event -- hope to see you at our Opening Reception, Thursday, February 7th, at 6:30 p.m. in Main Lodge!

Warmly,
Kim Stravers
Communications Manager, MLTPA

Hi Shannon,

You were so kind to help us several months ago - to send an email to your membership on our behalf for our event, CAMP: SUMMER.

We have another MLTPA (Mammoth Lakes Trails & Public Access) event - CAMP WINTER - coming up in a few weeks. Would it be possible to send another email for this event? We could again provide the copy.

You can find event information at http://www.mltpa.org/CAMP_winter/

Thanks in advance for your help! Please let me know if you have any questions or concerns.

Subject: CAMP: WINTER information for MMSA Hosts

Hi there!

Here is some information that you can pass on to the Hosts:

CAMP, which stands for Concept and Master Planning, is the partnered process by which the Town of Mammoth Lakes, Mammoth Mountain Ski Area, the USFS, and the community of Mammoth Lakes are currently working together to update the Town of Mammoth Lakes trails master plan. CAMP: WINTER is the free public event MLTPA has put together to invite the community to provide their input on winter trails, recreation, and mobility in Mammoth-from backcountry skiing to snowmobiling to dog walking, Nordic skiing, and more!

We would like to invite MMSA Employees to tour the Exhibit Hall at their leisure, and especially to take the Winter and Summer Trail Surveys online at one of the three computer stations located outside the EOS room. MLTPA staff is available here through Tuesday, February 12th, to answer any questions they may have. We also invite them to sign up for any of our CAMP: WINTER sessions, where they can speak directly to the trails planning consultants about this process.

Thanks so much!

Stu's News

Week of February 11, 2008

Good afternoon,

This weekend certainly appears to be the highlight of the season. Blue skies, warm temperatures, and over 11 feet to ski and ride on - see you out there!

This Saturday the [Mammoth Ski Museum](#) hosts "Love on the Lifts," and for those still digging out from January's 148" barage, [Valentine's Day](#) is next Thursday...nudge, nudge...

Local celebrities, MLPD Sgt. Paul Dostie and Buster were featured in a recent [NBC Special report](#) on avalanche safety, and a story on the growth of Mammoth appeared in [The Sun](#) on February 3, 2008.

February 14, 2008 is the final day to comment on the [DRAFT Parks and Recreation Master Plan](#). Please take a look and use the included form to comment on the extensive plan.

There is still time to register for some of the activities and lectures for [CAMP: WINTER](#).

Have a great and safe weekend!

Dear Town of Mammoth Lakes Employees:

The Mammoth Lakes Trails and Public Access Foundation (**MLTPA**) would like to extend a special invitation to you to attend **CAMP: WINTER**, a free, week-long public event focused on **winter recreation, trails and mobility** in Mammoth Lakes. **The Town of Mammoth Lakes has committed \$100,000 toward this historic planning process**—a partnered effort between the Town, Mammoth Mountain Ski Area (who has matched the Town's financial commitment), the United States Forest Service, and MLTPA that seeks to improve the recreation and mobility opportunities in our community via a comprehensive, well-designed, and well-connected system of trails and public access. This is your chance, as a resident, a town employee, and a trails user, to speak your mind and make sure that the CAMP consultant teams—Alta Planning + Design (paved trails) and Trail Solutions (natural-surface trails)—hear what they need to know about winter recreation and trails in your town.

The CAMP: WINTER Opening Reception is Thursday, February 7th, at 6:30 p.m. in the Mountainside Conference Center at Main Lodge. A complete event schedule, FAQs, session descriptions, and registration info is available at **www.mltpa.org**, where you also can sign up to receive MLTPA's e-newsletter and take the Winter and Summer Trail Surveys online—a great way to participate even if you can't make it to the mountain.

For details, contact Communications Manager Kim Stravers at (760) 934-3154 or send her an e-mail at CAMP@mltpa.org. **Remember: This is YOUR CHANCE to play your part in the trails master plan update!**

Looking forward to seeing you next week!

Hello, DJ!

Hope you are well! I just wanted to make sure you had all the info you needed for CAMP: WINTER, which starts this Thursday night. I'm hoping you might be interested in sending a CAMP: WINTER e-mail blast to the DJ's Snowmobile Adventures staff on MLTPA's behalf, to help us get the word out and make sure that the motorized recreation community is well represented at these trails-planning sessions. There are a couple of workshops that are moto-specific, identified below, that I think you guys would be particularly interested in -- and for which your community's input is crucial.

Please let me know if you have any questions -- I'm happy to chat! MLTPA email to your staff follows; please let me know also if you can/will send it.

THANKS SO MUCH, and we hope to see you this week!

k.

>>>

Dear DJ's Snowmobile Adventures staff and friends:

As motorized recreation lovers, you know Mammoth's trail system and our surrounding public lands like the back of your hand. After all, snowmobiling and other outdoor activities are the reason why you call this place home! But to keep our amenities accessible and in tip-top shape, we need your help.

The Mammoth Lakes Trails and Public Access Foundation (MLTPA) would like to extend to you a special invitation to participate in CAMP: WINTER, a free, week-long public event focused on winter recreation, trails, and mobility in Mammoth Lakes, February 7-12, 2008, at the Mountainside Conference Center in Main Lodge. A partnered effort between the Town, Mammoth Mountain Ski Area, the United States Forest Service, and MLTPA, the CAMP (Concept and Master Planning) process seeks to update and improve the recreation and mobility opportunities in Mammoth through informed, cooperative, and timely trails planning -- planning that can make your rides safer, more efficient, and more enjoyable!

As affiliates of DJ's Snowmobile Adventures, your input into the future of trails and public access is critical. Please visit www.mltpa.org today to register for one or more of the tours, workshops, listening sessions, and special presentations we've got planned. A few events are especially relevant to you:

*Thursday, February 7, through Tuesday, February 12: EXHIBIT HALL/BASE CAMP

* Thursday, February 7: LISTENING SESSION: WINTER RECREATION, MOTORIZED; OPENING RECEPTION

* Friday, February 8, OR Saturday, February 9: PORTAL TOUR

* Friday, February 8: FEATURED PRESENTATION: "FOUR-SEASON TRAILS: HOW COMMUNITIES AROUND THE WORLD GET IT DONE"

* Saturday, February 10: TRAILS NETWORK WORKSHOP: RECREATION; FEATURED PRESENTATION: "THE TOURISM AND RECREATION ECONOMY"

* Monday, February 11: NEXT STEPS PRESENTATION

Session descriptions, a complete event schedule, FAQs, and more are also available on our website.

If you can't make it in person but still want to participate in this process, please take the Winter and Summer Trail Surveys, prepared by CAMP consultants, at www.mltpa.org/CAMP_winter/CAMP_surveys/. You also can send your comments via e-mail to CAMP@mltpa.org, or call MLTPA directly at (760) 934-3154.

We're looking forward to your participation in this landmark event -- hope to see you at our Opening Reception, Thursday, February 7th, at 6:30 p.m. in Main Lodge!

Best,
Kim Stravers

Kim,

I sent this out to our list serve. I also posted it to the news and info on our website. Hopefully it will help draw greater attendance to the event. I will not be able to make it to any of the workshops myself, so I hope that some people do come to represent the backcountry users among us.

I had to mess with the formatting a little to try and get into html formatting. I couldn't get all the kinks worked out with your signature and phone numbers. The info is all there, just not in as neat of a format as you had put together.

Hey, Kevin!

Hope you are well! I just wanted to make sure you had all the info you needed for CAMP: WINTER, which starts this Thursday night. I'm hoping you might be interested in sending a CAMP: WINTER e-mail blast to your friends and fellow guides on MLTPA's behalf, to help us get the word out and make sure that the ice fishing community is well represented at these trails-planning sessions. (And perhaps you're not into ice fishing, or there aren't too many around who are...but we want to make sure you have a chance to share your input no matter what!) There are a couple of workshops that are backcountry-specific, identified below, that I think you guys would be particularly interested in -- and for which your community's input is crucial.

Please let me know if you have any questions -- happy to answer! MLTPA email to your circle of friends and associates follows; please let me know also if you can/will send it.

THANKS SO MUCH, and we hope to see you this week!

Dear lovers of the rod and reel:

As avid fishermen, you know Mammoth's trail system and our surrounding public lands like the back of your hand. After all, fishing (warm weather and cold!) is the reason why you call this place home! But to keep our amenities accessible and in tip-top shape, we need your help.

The Mammoth Lakes Trails and Public Access Foundation (MLTPA) would like to extend to you a special invitation to participate in CAMP: WINTER, a free, week-long public event focused on winter recreation, trails, and mobility in Mammoth Lakes, February 7-12, 2008, at the Mountainside Conference Center in Main Lodge. A partnered effort between the Town, Mammoth Mountain Ski Area, the United States Forest Service, and MLTPA, the CAMP (Concept and Master Planning) process seeks to update and improve the recreation and mobility opportunities in Mammoth through informed, cooperative, and timely trails planning -- planning that can make your rides and hikes safer, more efficient, and more enjoyable!

As members of the fishing community, your input into the future of trails and public access is critical. Please visit www.mltpa.org today to register for one or more of the tours, workshops, listening sessions, and special presentations we've got planned. A few events are especially relevant to you:

- * Thursday, February 7, through Tuesday, February 12: EXHIBIT HALL/BASE CAMP
- * Thursday, February 7: OPENING RECEPTION
- * Friday, February 8, OR Saturday, February 9: PORTAL TOUR
- * Friday, February 8: LISTENING SESSION: WINTER RECREATION, NON-MOTORIZED BACKCOUNTRY; FEATURED PRESENTATION: "FOUR-SEASON TRAILS: HOW COMMUNITIES AROUND THE WORLD GET IT DONE"
- * Saturday, February 9: TRAILS NETWORK WORKSHOP: RECREATION
- * Monday, February 11: NEXT STEPS PRESENTATION

Session descriptions, a complete event schedule, FAQs, and more are also available on our website.

If you can't make it in person but still want to participate in this process, please take the Winter and Summer Trail Surveys, prepared by CAMP consultants, at www.mltpa.org/CAMP_winter/CAMP_surveys/. You also can send your comments via e-mail to CAMP@mltpa.org, or call MLTPA directly at (760) 934-3154.

CAMP: Winter this week!

Afternoon Nords:

February 6, 2008

This is the time and the place to kick in your two cents worth regarding the winter recreation picture in and around Mammoth for quiet winter sportsters like us!

- If you can't make it in person but still want to participate in this process, please take the [Winter Trail Survey](#), prepared by CAMP consultants, at www.mltpa.org/CAMP_winter/CAMP_surveys/.

Here is the schedule of events, and I **highlighted** two Friday events of particular interest. Hope to see you there!

Brian
brian@mammothnordic.com

Thursday, February 7

LISTENING SESSION: WINTER RECREATION, MOTORIZED

11:00 a.m. to 11:45 a.m.

Suite Z

Planning consultants from the Trail Solutions team will lead an informal focus group comprised of community members who are passionate about motorized winter recreation. The session is designed so that Trail Solutions can better comprehend the specific needs and challenges of this particular group as they relate to multi-use trails, staging areas, and recreation.

Suggested participants: Snowmobilers

Capacity: 16

OPENING RECEPTION

6:30 p.m. to 8:00 p.m.

Exhibit Hall, Mountainside Conference Center, Main Lodge

While enjoying cocoa and cookies, the public will have the opportunity to meet planning consultant team members from Alta Planning + Design and Trail Solutions, MLTPA staff and Board members, and other CAMP Partners. An overview of the week's activities will be provided, as well as introductions to the CAMP Team. Participants also may register for additional sessions, and take the CAMP: WINTER and CAMP: SUMMER trail surveys, at this time.

Suggested participants: Open to all

Capacity: No limit

Friday, February 8

PORTAL TOUR

9:00 a.m. to 12:00 p.m.

Meet at the Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a Town Trolley tour through Mammoth Lakes, identifying existing winter public-travel routes—both the Mammoth Lakes Trail System and public-transportation routes—and the recreation access points to which they connect.

Suggested participants: Open to all

Capacity: 25

LISTENING SESSION: WINTER RECREATION, NON-MOTORIZED

10:30 a.m. to 11:15 a.m.

Suite Z

Planning consultants from the Trail Solutions team will lead an informal focus group comprised of community members who are passionate about non-motorized winter recreation. The session is designed so that Trail Solutions can better comprehend the specific needs and challenges of this particular group as they relate to multi-use trails, access points to public lands, and recreation.

Suggested participants: Frontcountry snowshoers and Nordic skiers, ice fishermen, on-lake ice skaters, in-town winter walkers/pet walkers, snowplayers (tubing, sledding, etc.)

Capacity: 16

LISTENING SESSION: WINTER RECREATION, NON-MOTORIZED BACKCOUNTRY

11:30 a.m. to 12:15 p.m.

Suite Z

Planning consultants from the Trail Solutions team will lead an informal focus group comprised of community members who are passionate about non-motorized winter recreation in the backcountry. The session is designed so that Trail Solutions can better comprehend the specific needs and challenges of this particular group as they relate to multi-use trails, access points to public lands, and recreation.

Suggested participants: Winter campers, biathletes, dog sledders, ice climbers, backcountry skiers and snowboarders, backcountry snowshoers and Nordic skiers

Capacity: 16

WALKING TOUR

1:00 p.m. to 3:00 p.m.

Meet at Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a walking tour through Mammoth Lakes, identifying existing winter public-travel routes—on the Mammoth Lakes Trail System and on sidewalks—and providing information about snow removal as it's related to Business Assessment Districts (BADs), Safe Routes to School, and grooming for non-motorized travel.

Suggested participants: Open to all

Capacity: No limit

LISTENING SESSION: WINTER MOBILITY

3:30 p.m. to 4:15 p.m.

Suite Z

Planning consultants from the Trail Solutions and Alta Planning + Design teams will lead an informal focus group comprised of community members who are interested in snow removal and feet-first winter mobility in town. The session is designed to collect and disburse, in a moderated environment, information about current grooming and snow maintenance, feet-first travel, and wintertime public transit.

Suggested participants: Open to all. In-town Nordic skiers, snowshoers, and walkers/pet walkers, as well as those in neighborhoods that interface with Mammoth Mountain Ski Area, may wish especially to participate.

Capacity: 16

FEATURED PRESENTATION: "FOUR-SEASON TRAILS: HOW COMMUNITIES AROUND THE WORLD GET IT DONE"

Presenter: Joey Klein, Trail Solutions

6:30 p.m. to 8:00 p.m.

Exhibit Hall, Mountainside Conference Center, Main Lodge

This presentation by world-renowned trails designer Joey Klein will take the audience on a tour of five continents, highlighting the history and meaning of why we love trails, how communities deal with their own unique geographies (balancing seasonal and geological challenges), and heroic tales of how citizen groups have come together to make their own dreams a reality—just as Mammoth is doing now.

Suggested participants: Open to all

Capacity: No limit

Saturday, February 9

PORTAL TOUR

9:00 a.m. to 12:00 p.m.

Meet at the Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a Town Trolley tour through Mammoth Lakes, identifying existing winter public-travel routes—both the Mammoth Lakes Trail System and public-transportation routes—and the recreation access points to which they connect.

Suggested participants: Open to all

Capacity: 25

WALKING TOUR

1:00 p.m. to 3:00 p.m.

Meet at Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a walking tour through Mammoth Lakes, identifying existing winter public-travel routes—on the Mammoth Lakes Trail System and on sidewalks—and providing information about snow removal as it's related to Business Assessment Districts (BADs), Safe Routes to School, and grooming for non-motorized travel.

Suggested participants: Open to all

Capacity: No limit

TRAILS NETWORK WORKSHOP: RECREATION

2:00 p.m. to 5:00 p.m.

Suite Z

Using base maps of existing trails and play areas, participants will work closely with planning consultants from Trail Solutions to evaluate existing wintertime connections to recreation on public lands, discuss potential new links and other improvements to the current system, and brainstorm about trail amenities such as trailheads and signage within the frontcountry area adjacent to the community.

Suggested participants: Participants in all wintertime outdoor recreation activities

Capacity: 16

TRAILS NETWORK WORKSHOP: MOBILITY

2:00 p.m. to 5:00 p.m.

Suite Z

Using base maps of existing trails and routes, participants will work closely with planning consultants from Alta Planning + Design to evaluate existing wintertime feet-first and public transit systems and how they connect to services and neighborhoods, to favorite recreation and leisure areas, and for safe routes to school and work. There will also be discussion of potential new links, enhanced amenities such as signage and wayfinding, bus stops, and other safety enhancements.

Suggested participants: Open to all. In-town Nordic skiers, snowshoers, and walkers/pet walkers, as well as those in neighborhoods that interface with Mammoth Mountain Ski Area, may wish especially to participate.

Capacity: 16

FEATURED PRESENTATION: "THE TOURISM AND RECREATION ECONOMY"

Presenter: Emilyn Sheffield

Dr. Emilyn Sheffield is a professor of Parks, Tourism, and Recreation at CSU Chico. She will be discussing the opportunities and challenges of a tourism- and recreation-based economy, as opposed to more traditional models such as manufacturing or public sector.

6:30 p.m. to 8:00 p.m.

Exhibit Hall, Mountainside Conference Center, Main Lodge

Suggested participants: Open to all

Capacity: No limit

Sunday, February 10

EXHIBIT HALL OPEN. NO SCHEDULED SESSIONS.

Monday, February 11

NEXT STEPS PRESENTATION

6:30 p.m. to 8:00 p.m.

Exhibit Hall, Mountainside Conference Center, Main Lodge

A presentation and question-and-answer session focused on the lessons and information learned from the week's workshops and listening sessions, and how CAMP: WINTER connects to CAMP: SUMMER and the CAMP process as a whole. Information will be provided concerning how the public can stay informed and involved in the planning process, which planning steps are still to come, when citizens can expect a draft plan, and how to make that plan a reality.

Suggested participants: Open to all

Capacity: No limit

Hello, Mike!

Hope you are well! I just wanted to make sure you had all the info you needed for CAMP: WINTER, which starts this Thursday night. I'm hoping you might be interested in sending a CAMP: WINTER e-mail blast to the Mammoth Snowmobile Adventures staff on MLTPA's behalf, to help us get the word out and make sure that the motorized recreation community is well represented at these sessions. There are a couple of workshops that are moto-specific, identified below, that I think you guys would be particularly interested in -- and for which your community's input is crucial.

Please let me know if you have any questions -- I'm happy to chat! MLTPA email to your staff follows; please let me know also if you can/will send it.

THANKS SO MUCH, and we hope to see you this week!

Dear Mammoth Snowmobile Adventures staff and friends:

As motorized recreation lovers, you know Mammoth's trail system and our surrounding public lands like the back of your hand. After all, snowmobiling and other outdoor activities are the reason why you call this place home! But to keep our amenities accessible and in tip-top shape, we need your help.

The Mammoth Lakes Trails and Public Access Foundation (MLTPA) would like to extend to you a special invitation to participate in CAMP: WINTER, a free, week-long public event focused on winter recreation, trails, and mobility in Mammoth Lakes, February 7-12, 2008, at the Mountainside Conference Center in Main Lodge. A partnered effort between the Town, Mammoth Mountain Ski Area, the United States Forest Service, and MLTPA, the CAMP (Concept and Master Planning) process seeks to update and improve the recreation and mobility opportunities in Mammoth through informed, cooperative, and timely trails planning -- planning that can make your rides safer, more efficient, and more enjoyable!

As affiliates of Mammoth Snowmobile Adventures, your input into the future of trails and public access is critical. Please visit www.mltpa.org today to register for one or more of the tours, workshops, listening sessions, and special presentations we've got planned. A few events are especially relevant to you:

*Thursday, February 7, through Tuesday, February 12: EXHIBIT HALL/BASE CAMP

* Thursday, February 7: LISTENING SESSION: WINTER RECREATION, MOTORIZED; OPENING RECEPTION

* Friday, February 8, OR Saturday, February 9: PORTAL TOUR

* Friday, February 8: FEATURED PRESENTATION: "FOUR-SEASON TRAILS: HOW COMMUNITIES AROUND THE WORLD GET IT DONE"

* Saturday, February 10: TRAILS NETWORK WORKSHOP: RECREATION; FEATURED PRESENTATION: "THE TOURISM AND RECREATION ECONOMY"

* Monday, February 11: NEXT STEPS PRESENTATION

Session descriptions, a complete event schedule, FAQs, and more are also available on our website.

If you can't make it in person but still want to participate in this process, please take the Winter and Summer Trail Surveys, prepared by CAMP consultants, at www.mltpa.org/CAMP_winter/CAMP_surveys/. You also can send your comments via e-mail to CAMP@mltpa.org, or call MLTPA directly at (760) 934-3154.

We're looking forward to your participation in this landmark event -- hope to see you at our Opening Reception, Thursday, February 7th, at 6:30 p.m. in Main Lodge!

Best,
Kim Stravers

My pleasure, Jennifer! I hope you and your friends in the horse business can still come out to participate this weekend. We've got two tours tomorrow, as well as two workshops -- I'd love to see the equestrian community out in full effect!

Hope all is well...let's keep in touch!

Best,
Kim Stravers

Hi Kim,
Thank you for the update and keeping us in the loop! My apologies for the late reply, I've been out of town.

Yes, Sierra Meadows used to do sleigh rides, but with the new Forest Service development off of Sherwin Creek Rd, that will likely not come back as it blocks off the only feasible route.

None-the-less, I will send out the email to any employees and boarders of Sierra Meadows who would be interested!

Thanks again for the information and for including us in your process,
Jennifer

Hello, Jennifer!

Hope you are well! I just wanted to make sure you had all the info you needed for CAMP: WINTER, which starts this Thursday night. I'm hoping you might be interested in sending a CAMP: WINTER e-mail blast to the staff of Sierra Meadows Ranch on MLTPA's behalf, to help us get the word out and make sure that the equestrian community is well represented at these trails-planning sessions. There are a couple of workshops that are backcountry-specific, identified below, that I think you guys would be particularly interested in -- and for which your community's input is crucial.

As I understand it, SMR used to stage sleigh rides in the wintertime, which is the reason for this e-mail; if that's no longer part of the program, please feel free to disregard this message (though we would love your participation regarding any other wintertime activities you do!)

Please let me know if you have any questions -- happy to answer! MLTPA email to your staff follows; please let me know also if you can/will send it.

THANKS SO MUCH, and we hope to see you this week!

A partnered effort between the Town, Mammoth Mountain Ski Area, the United States Forest Service, and MLTPA, the CAMP (Concept and Master Planning) process seeks to update and improve the recreation and mobility opportunities in Mammoth through informed, cooperative, and timely trails planning -- planning that can make your rides and hikes safer, more efficient, and more enjoyable!

As an affiliate of Sierra Rock Climbing School, your input into the future of trails and public access is critical. Please visit www.mltpa.org today to register for one or more of the tours, workshops, listening sessions, and special presentations we've got planned. A few events are especially relevant to you:

* Thursday, February 7, through Tuesday, February 12: EXHIBIT HALL/BASE CAMP

* Thursday, February 7: OPENING RECEPTION

* Friday, February 8, OR Saturday, February 9: PORTAL TOUR

* Friday, February 8: LISTENING SESSION: WINTER RECREATION, NON-MOTORIZED BACKCOUNTRY; FEATURED PRESENTATION: "FOUR-SEASON TRAILS: HOW COMMUNITIES AROUND THE WORLD GET IT DONE"

* Saturday, February 9: TRAILS NETWORK WORKSHOP: RECREATION

* Monday, February 11: NEXT STEPS PRESENTATION

Session descriptions, a complete event schedule, FAQs, and more are also available on our website.

If you can't make it in person but still want to participate in this process, please take the Winter and Summer Trail Surveys, prepared by CAMP consultants, at www.mltpa.org/CAMP_winter/CAMP_surveys/. You also can send your comments via e-mail to CAMP@mltpa.org, or call MLTPA directly at (760) 934-3154.

We're looking forward to your participation in this landmark event -- hope to see you at our Opening Reception, Thursday, February 7th, at 6:30 p.m. in Main Lodge!

Best,
Kim Stravers

Hello, Roy!

Hope you are well! I just wanted to make sure you had all the info you needed for CAMP: WINTER, which starts this Thursday night. I'm hoping you might be interested in sending a CAMP: WINTER e-mail blast to Tamarack employees on MLTPA's behalf, to help us get the word out and make sure that the Nordic skiing community is well represented at these trails-planning sessions. There are a couple of workshops that I think you guys would be particularly interested in - and for which your community's input is crucial.

Please let me know if you have any questions -- happy to answer! MLTPA email to your staff follows; please let me know also if you can/will send it.

THANKS SO MUCH, and we hope to see you this week!

k.

>>>

Dear Tamarack Cross-Country Ski Center staff:

As Nordic skiers, you know Mammoth's trail system and our surrounding public lands like the back of your hand. After all, skiing is the reason why you call this place home! But to keep our amenities accessible and in tip-top shape, we need your help.

The Mammoth Lakes Trails and Public Access Foundation (MLTPA) would like to extend to you a special invitation to participate in CAMP: WINTER, a free, week-long public event focused on winter recreation, trails, and mobility in Mammoth Lakes, February 7-12, 2008, at the Mountainside Conference Center in Main Lodge. A partnered effort between the Town, Mammoth Mountain Ski Area, the United States Forest Service, and MLTPA, the CAMP (Concept and Master Planning) process seeks to update and improve the recreation and mobility opportunities in Mammoth through informed, cooperative, and timely trails planning -- planning that can make your skiing safer, more efficient, and more enjoyable!

As an affiliate of the Tamarack Cross-Country Ski Center, your input into the future of trails and public access is critical. Please visit www.mltpa.org today to register for one or more of the tours, workshops, listening sessions, and special presentations we've got planned. A few events are especially relevant to you:

* Thursday, February 7, through Tuesday, February 12: EXHIBIT HALL/BASE CAMP

* Thursday, February 7: OPENING RECEPTION

* Friday, February 8, OR Saturday, February 9: PORTAL TOUR; WALKING TOUR

* Friday, February 8: LISTENING SESSION: WINTER RECREATION, NON-MOTORIZED; LISTENING SESSION: WINTER RECREATION, NON-MOTORIZED BACKCOUNTRY; LISTENING SESSION: WINTER MOBILITY; FEATURED PRESENTATION: "FOUR-SEASON TRAILS: HOW COMMUNITIES AROUND THE WORLD GET IT DONE"

* Saturday, February 9: TRAILS NETWORK WORKSHOP: RECREATION; TRAILS NETWORK WORKSHOP: MOBILITY; FEATURED PRESENTATION: "THE TOURISM AND RECREATION ECONOMY"

* Monday, February 11: NEXT STEPS PRESENTATION

Session descriptions, a complete event schedule, FAQs, and more are also available on our website.

If you can't make it in person but still want to participate in this process, please take the Winter and Summer Trail Surveys, prepared by CAMP consultants, at www.mltpa.org/CAMP_winter/CAMP_surveys/. You also can send your comments via e-mail to CAMP@mltpa.org, or call MLTPA directly at (760) 934-3154.

We're looking forward to your participation in this landmark event -- hope to see you at our Opening Reception, Thursday, February 7th, at 6:30 p.m. in Main Lodge!

Best,
Kim Stravers

Mammoth Lakes Trails & Public Access

Chapter 6I: Hard mailings

MLTPA also sent CAMP: WINTER information via U.S. Mail. Information regarding returned or undeliverable mail is available upon request.

- **Postcards**

MLTPA designed, produced, and mailed more than 6,000 postcards advertising CAMP: WINTER, which, in addition to the CAMP: WINTER poster, was the first organized announcement of the event. Postcards were mailed to second homeowners (shipped directly from the print house) and to Mammoth Lakes PO Box-holders (via a non-profit stamp supplied by Gaye Mueller, executive director of the Mono Council for the Arts). The second-homeowner mailing list was obtained from MLTPA, who had acquired it for its own November 2006 Public Meeting.

Chapter 6m: In-person presentations

MLTPA staff members were invited to speak about the CAMP process and the CAMP: WINTER event during meetings of the organizations listed below.

- **Public Commission and Council meetings**
MLTPA staff members attended at least one meeting of each public commission, as well as Town Council, to announce CAMP: WINTER information during the public comment period.
- **Service and other organizations**
 - Chamber of Commerce (speaker: John Wentworth)
 - Rotary Club, Noon (speaker: John Wentworth)
 - Rotary Club, Sunrise (speaker: Kim Stravers)
- **User groups/clubs**
 - High Sierra Striders Board meeting (speaker: Kim Stravers)
 - Mammoth Nordic/Eastern Sierra Nordic Ski Association joint Board meeting (speaker: Kim Stravers)
 - Mammoth Dog Teams staff (speaker: Kim Stravers)
 - Sierra Mountain Guides staff (speaker: Kim Stravers)
 - Village Championships participants (speaker: Kim Stravers)

Chapter 6n: Media alerts

Prior to and during the event, MLTPA invited the local and regional press to attend CAMP: WINTER and encouraged original editorial coverage. An information packet containing a collection of available takeaways was available on-site. A final media alert was distributed the day before the event to help facilitate interviews and to provide critical event information.

MEDIA ALERT

February 7, 2008

Local media invited to attend CAMP: WINTER, February 7–12, 2008; interview opportunities available

Local media is encouraged to register for and attend all open, public events of CAMP: WINTER, presented by the Mammoth Lakes Trails and Public Access Foundation. Additional media opportunities will be available by request.

CAMP: WINTER is a free, multi-day public workshop on winter trails, mobility, and recreation in Mammoth Lakes and is an opportunity for the community to participate in the Concept and Master Planning (CAMP) process via interactive exhibits, tours, workshops, and special presentations.

Upon request, interviews may be scheduled with the following persons. **Please contact Kim Stravers, MLTPA Communications Manager, directly at (949) 632-7882 to set up all interviews:**

MLTPA

Kim Stravers, Communications Manager
John Wentworth, President/Acting Executive Director

Town of Mammoth Lakes

Steve Speidel, Principal Planner
Danna Stroud, Director of Tourism & Recreation

Mammoth Mountain Ski Area

Rebecca Paranick, Government Relations Manager

Alta Planning + Design

Jeff Olson, Principal
Matt Benjamin, Planner

Trail Solutions

Cimarron Chacon, ASLA
Joey Klein, IMBA Trail Specialist

Please note that the Walking Tours and Portal Tours, as well as the Trails Network Workshops, will be the most interactive of our planned activities and may offer some great photo or video opportunities. The Exhibit Hall will be open for viewing beginning at noon on Thursday, February 7th, and closing at 3:30 p.m. on Tuesday, February 12th; please check with MLTPA if you would like to participate in a scheduled Exhibit Hall Tour, or if you would like to request a special session.

DATES: February 7–12, 2008
LOCATION: Mountainside Conference Center, Main Lodge
ON-SITE CONTACT: Kim Stravers, (949) 632-7882
MEDIA KIT: FAQs, Session Descriptions, Event Schedule, Consultant Bios; available at the Registration Table in the Mountain Conference Center on the 3rd Floor of MMSA Main Lodge, or via e-mail by request.

Registration information and further detail is available at www.mltpa.org or by calling (760) 934-3154.

Chapter 6o: Personal phone calls

MLTPA staff and Board members reached out to representatives of all segments of the community via telephone, inviting them to attend special sessions such as the Trails Network Workshops, group functions such as the Opening Reception, and private sessions such as the Listening Sessions, and requesting that these parties pass CAMP: WINTER information to fellow club members, employees, co-workers, and others as appropriate. Please see the “CAMP: WINTER Communications Overview” in the “Outreach” section for a detailed record of these communications.

Chapter 6p: Spanish-Language Outreach

MLTPA made repeated attempts to engage the Hispanic segment of the community. Ads run in the *El Sol* newspaper were translated into Spanish by the *El Sol* staff. Community member Brandon Russell translated both the CAMP FAQs document and the CAMP: WINTER poster into Spanish, which MLTPA duplicated and delivered to local Hispanic-owned and -frequented businesses, as well as to central community locations such as Vons and area Laundromats. The CAMP: WINTER event and the CAMP process were explained to contacts at these establishments when communication in English was possible. Additionally, MLTPA contacted a number of local native Spanish speakers regarding translation accuracy.

Hello, America!

Mammoth Lakes Trail and Public Access is looking for a Spanish native speaker to proofread our CAMP:WINTER event poster, which we've had translated. Stu Brown at the Town mentioned that you would be an excellent resource for this, if you have a spare moment.

I've attached the poster here, as well as the English version from which it was translated; if you are able to help us out, please let me know.

Thanks much!

Hey,
Let me know when and I'll stop by and grab them and find out what's happening. I'm crazy busy now (trying to get back to Mammoth from Reno as 395N is still closed) until Wednesday of next week but I bet I can squeeze it in. Let me know what works for you all.

Hey there!

We have finalized our poster and can have copies ready for you to distribute to Spanish-speaking businesses this weekend. Will you have time? Here's the list of places where the poster, and the Spanish FAQs, should be dropped:

Poster List: Mammoth Area (Spanish language)

- Salsa's
- El Espazio 2
- Supply Uno
- Vons
- All three Laundromats in town
- MMSA Employee area

Let me know when you're available; we can chat on the phone to set you up with the info you need to provide to these nice people. You will be able to pick the posters up at the office on Davison/

Thanks!

Chapter 6q: Web, external

A CAMP: WINTER bug (small clickable image) was developed by MLTPA for use as an advertising tool on websites other than its own. The bug, which linked directly to the CAMP: WINTER mini-site, was distributed to a number of sources with Calendar information, but was not fully implemented. The Town of Mammoth Lakes Tourism & Recreation Department website, www.visitmammoth.com, however, ensured prominent placement of this image on a special MLTPA page they had developed. Additionally, the Town of Mammoth Lakes website, www.ci.mammoth-lakes.ca.us, featured a CAMP: WINTER announcement on its homepage scroll. CAMP: WINTER information also was posted on the esavalanche.org discussion board, inviting ESAC members to the event.

Hey, Stu!

Checked out the MLTPA page on the visitmammoth.com site -- thanks for putting the bugs up there! However, the trail surveys bug is distorted -- looks like your web team tried to make the image taller, but didn't constrain the proportions.

Could they give it another shot with the original file? Thanks!

Here's the code they should use:

Thanks!

Posted: Thu Feb 07, 2008 5:07 pm Post subject: MLTPA CAMP : Winter

Dear Eastern Sierra Avalanche Center members:

As backcountry enthusiasts, you know Mammoth's trail system and our surrounding public lands like the back of your hand. After all, skiing and snowboarding and climbing (and sometimes sledding!) is the reason why you call this place home! But to keep our amenities accessible and in tip-top shape, we need your help.

The Mammoth Lakes Trails and Public Access Foundation (MLTPA) would like to extend to you a special invitation to participate in CAMP: WINTER, a free, week-long public event focused on winter recreation, trails, and mobility in Mammoth Lakes, February 7-12, 2008, at the Mountainside Conference Center in Main Lodge. A partnered effort between the Town, Mammoth Mountain Ski Area, the United States Forest Service, and MLTPA, the CAMP (Concept and Master Planning) process seeks to update and improve the recreation and mobility opportunities in Mammoth through informed, cooperative, and timely trails planning -- planning that can make your rides and hikes safer, more efficient, and more enjoyable!

As a member of ESAC, your input into the future of trails and public access is critical. Please visit www.mltpa.org today to register for one or more of the tours, workshops, listening sessions, and special presentations we've got planned. A few events are especially relevant to you:

* Thursday, February 7, through Tuesday, February 12: EXHIBIT HALL/BASE CAMP

* Thursday, February 7: OPENING RECEPTION

* Friday, February 8, OR Saturday, February 9: PORTAL TOUR

* Friday, February 8: LISTENING SESSION: WINTER RECREATION, NON-MOTORIZED BACKCOUNTRY; FEATURED PRESENTATION: "FOUR-SEASON TRAILS: HOW COMMUNITIES AROUND THE WORLD GET IT DONE"

* Saturday, February 9: TRAILS NETWORK WORKSHOP: RECREATION

*Monday, February 11: NEXT STEPS PRESENTATION

Session descriptions, a complete event schedule, FAQs, and more are also available on our website.

If you can't make it in person but still want to participate in this process, please take the Winter and Summer Trail Surveys, prepared by CAMP consultants, at www.mltpa.org/CAMP_winter/CAMP_surveys/. You also can send your comments via e-mail to CAMP@mltpa.org, or call MLTPA directly at (760) 934-3154.

We're looking forward to your participation in this landmark event -- hope to see you at our Opening Reception, Thursday, February 7th, at 6:30 p.m. in Main Lodge!

Best,
Kim Stravers

Chapter 6r: Web, MLTPA

MLTPA developed a comprehensive mini-site for CAMP: WINTER, which was immediately and clearly accessible from www.mltpa.org as well as by typing the specific URL into a browser address bar. The site featured complete event information, the opportunity to sign up for the CAMP: WINTER E-newsletter, event contact information, access to the CAMP: WINTER Online Trail Survey, and access to the online event registration, maintained by RegOnline.

In an effort to make the registration process easier for participants, MLTPA dedicated a web page to each of four user groups, and suggested specific sessions for each: Winter Recreation, Non-Motorized (frontcountry snowshoers and Nordic skiers, ice fishermen, on-lake ice skaters, in-town winter walkers/pet walkers, snowplayers); Winter Recreation, Motorized (snowmobilers); Winter Recreation, Non-Motorized Backcountry (winter campers, biathletes, dog sledders, ice climbers, backcountry skiers and snowboarders, backcountry snowshoers and Nordic skiers); and Winter Mobility (open to all, though in-town Nordic skiers, snowshoers, and walkers/pet walkers, as well as those in neighborhoods that interface with Mammoth Mountain Ski Area, were invited especially to participate). Visitors could link to these pages by clicking on one of the 15 recreation activities listed on the CAMP: WINTER mini-site homepage.

CAMP: WINTER Event Information

SESSION DESCRIPTIONS

Click [here](#) to register!

Thursday, February 7, through Tuesday, February 12

EXHIBIT HALL/BASE CAMP
See Schedule of Events for details
Mountainside Conference Center, Main Lodge

Informational and interactive exhibits will be on display throughout the event, and MLTPA staff will be on hand all week to field questions and receive feedback. Computer stations will be set up so that participants may take the CAMP: SUMMER and CAMP: WINTER trail surveys. Displays will include maps and planning exhibits, photos, and instructional materials related to winter trail types, GIS planning data, and winter travel/snow removal. Come to the Registration Desk to enjoy a guided tour of the Exhibit Hall, or pick up a copy of the Self-Guided Tour.

Suggested participants: Open to all
Capacity: No limit

Thursday, February 7

LISTENING SESSION: WINTER RECREATION, MOTORIZED
11:00 a.m. to 11:45 a.m.
Suite Z

Planning consultants from the Trail Solutions team will lead an informal focus group comprised of community members who are passionate about motorized winter recreation. The session is designed so that Trail Solutions can better comprehend the specific needs and challenges of this particular group as they relate to multi-use trails, staging areas, and recreation.

Suggested participants: Snowmobilers
Capacity: 16

OPENING RECEPTION
6:30 p.m. to 8:00 p.m.
Exhibit Hall, Mountainside Conference Center, Main Lodge

While enjoying cocoa and cookies, the public will have the opportunity to meet planning consultant team members from Alta Planning + Design and Trail Solutions, MLTPA staff and Board members, and other CAMP Partners. An overview of the week's activities will be provided, as well as introductions to the CAMP Team. Participants also may register for additional sessions, and take the CAMP: WINTER and CAMP: SUMMER trail surveys, at this time.

Suggested participants: Open to all
Capacity: No limit

Friday, February 8

PORTAL TOUR
9:00 a.m. to 12:00 p.m.
Meet at the Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a Town Trolley tour through Mammoth Lakes, identifying existing winter public-travel routes—both the Mammoth Lakes Trail System and public-transportation routes—and the recreation access points to which they connect.

Suggested participants: Open to all
Capacity: 25

LISTENING SESSION: WINTER RECREATION, NON-MOTORIZED
10:30 a.m. to 11:15 a.m.
Suite Z

Planning consultants from the Trail Solutions team will lead an informal focus group comprised of

community members who are passionate about non-motorized winter recreation. The session is designed so that Trail Solutions can better comprehend the specific needs and challenges of this particular group as they relate to multi-use trails, access points to public lands, and recreation.
Suggested participants: Frontcountry snowshoers and Nordic skiers, ice fishermen, on-lake ice skaters, in-town winter walkers/pet walkers, snowplayers (tubing, sledding, etc.)

Capacity: 16

LISTENING SESSION: WINTER RECREATION, NON-MOTORIZED BACKCOUNTRY
11:30 a.m. to 12:15 p.m.

Suite Z

Planning consultants from the Trail Solutions team will lead an informal focus group comprised of community members who are passionate about non-motorized winter recreation in the backcountry. The session is designed so that Trail Solutions can better comprehend the specific needs and challenges of this particular group as they relate to multi-use trails, access points to public lands, and recreation.

Suggested participants: Winter campers, biathletes, dog sledders, ice climbers, backcountry skiers and snowboarders, backcountry snowshoers and Nordic skiers

Capacity: 16

WALKING TOUR

1:00 p.m. to 3:00 p.m.

Meet at Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a walking tour through Mammoth Lakes, identifying existing winter public-travel routes—on the Mammoth Lakes Trail System and on sidewalks—and providing information about snow removal as it's related to Business Assessment Districts (BADs), Safe Routes to School, and grooming for non-motorized travel.

Suggested participants: Open to all

Capacity: No limit

LISTENING SESSION: WINTER MOBILITY

3:30 p.m. to 4:15 p.m.

Suite Z

Planning consultants from the Trail Solutions and Alta Planning + Design teams will lead an informal focus group comprised of community members who are interested in snow removal and feet-first winter mobility in town. The session is designed to collect and disburse, in a moderated environment, information about current grooming and snow maintenance, feet-first travel, and wintertime public transit.

Suggested participants: Open to all. In-town Nordic skiers, snowshoers, and walkers/pet walkers, as well as those in neighborhoods that interface with Mammoth Mountain Ski Area, may wish especially to participate.

Capacity: 16

FEATURED PRESENTATION: "FOUR-SEASON TRAILS: HOW COMMUNITIES AROUND THE WORLD GET IT DONE"

Presenter: Joey Klein, Trail Solutions

6:30 p.m. to 8:00 p.m.

Exhibit Hall, Mountainside Conference Center, Main Lodge

This presentation by world-renowned trails designer Joey Klein will take the audience on a tour of five continents, highlighting the history and meaning of why we love trails, how communities deal with their own unique geographies (balancing seasonal and geological challenges), and heroic tales of how citizen groups have come together to make their own dreams a reality—just as Mammoth is doing now.

Suggested participants: Open to all

Capacity: No limit

Saturday, February 9

PORTAL TOUR

9:00 a.m. to 12:00 p.m.

Meet at the Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a Town Trolley tour through Mammoth Lakes, identifying existing winter public-travel routes—both the Mammoth Lakes Trail System and public-transportation routes—and the recreation access points to which they connect.

Suggested participants: Open to all

Capacity: 25

WALKING TOUR

1:00 p.m. to 3:00 p.m.

Meet at Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a walking tour through Mammoth Lakes, identifying existing winter public-travel routes—on the Mammoth Lakes Trail System and on sidewalks—and providing information about snow removal as it's related to Business Assessment Districts (BADs), Safe Routes to School, and grooming for non-motorized travel.

Suggested participants: Open to all

Capacity: No limit

TRAILS NETWORK WORKSHOP: RECREATION**2:00 p.m. to 5:00 p.m.****Suite Z**

Using base maps of existing trails and play areas, participants will work closely with planning consultants from Trail Solutions to evaluate existing wintertime connections to recreation on public lands, discuss potential new links and other improvements to the current system, and brainstorm about trail amenities such as trailheads and signage within the frontcountry area adjacent to the community.

Suggested participants: Participants in all wintertime outdoor recreation activities

Capacity: 16

TRAILS NETWORK WORKSHOP: MOBILITY**2:00 p.m. to 5:00 p.m.****Suite Z**

Using base maps of existing trails and routes, participants will work closely with planning consultants from Alta Planning + Design to evaluate existing wintertime feet-first and public transit systems and how they connect to services and neighborhoods, to favorite recreation and leisure areas, and for safe routes to school and work. There will also be discussion of potential new links, enhanced amenities such as signage and wayfinding, bus stops, and other safety enhancements.

Suggested participants: Open to all. In-town Nordic skiers, snowshoers, and walkers/pet walkers, as well as those in neighborhoods that interface with Mammoth Mountain Ski Area, may wish especially to participate.

Capacity: 16

FEATURED PRESENTATION: "THE TOURISM AND RECREATION ECONOMY"**Presenter: Emilyn Sheffield**

Dr. Emilyn Sheffield is a professor of Parks, Tourism, and Recreation at CSU Chico. She will be discussing the opportunities and challenges of a tourism- and recreation-based economy, as opposed to more traditional models such as manufacturing or public sector.

6:30 p.m. to 8:00 p.m.**Exhibit Hall, Mountainside Conference Center, Main Lodge**

Suggested participants: Open to all

Capacity: No limit

Sunday, February 10**EXHIBIT HALL OPEN. NO SCHEDULED SESSIONS.****Monday, February 11****NEXT STEPS PRESENTATION****6:30 p.m. to 8:00 p.m.****Exhibit Hall, Mountainside Conference Center, Main Lodge**

A presentation and question-and-answer session focused on the lessons and information learned from the week's workshops and listening sessions, and how CAMP: WINTER connects to CAMP: SUMMER and the CAMP process as a whole. Information will be provided concerning how the public can stay informed and involved in the planning process, which planning steps are still to come, when citizens can expect a draft plan, and how to make that plan a reality.

Suggested participants: Open to all

Capacity: No limit

CAMP FAQs

Click [here](#) to download a PDF of the CAMP FAQs

Para el español, chasque [aquí](#)

What is MLTPA? MLTPA—the Mammoth Lakes Trails and Public Access Foundation—is a 501(c)(3) nonprofit organization that was founded in 2006 to advocate for a comprehensive system of trails and public access in Mammoth Lakes.

What is CAMP? CAMP, which stands for Concept and Master Planning, is the partnered process by which the Town of Mammoth Lakes, Mammoth Mountain Ski Area, the USFS, and the community of Mammoth Lakes work together to plan a comprehensive trails and public access system. There are three types of partners in this effort: Jurisdictional Partners (Town, USFS), Funding Partners (Town, Mammoth Mountain Ski Area, and the Developers' Forum), and Planning Partners (MLTPA, Town, USFS, Mammoth Mountain Ski Area).

Why has MLTPA become involved in Town master planning? The group was formed after a successful campaign during the winter of 2005-2006, led by MLTPA Foundation President/Acting Executive Director John Wentworth, to protect backcountry skier and snowboarder egress from the Sherwins range back to town through Ranch Road. Having brought to light issues of public access and trail connectivity, MLTPA was awarded a contract from the Town of Mammoth Lakes in August 2006 to conduct a thorough inventory of points of public access to trails and outdoor recreation amenities within the Town's Planning Area (about 125 square miles), which now serves as a planning resource for the Town; the completed project was accepted by Town Council at their March 21, 2007, meeting. Today, our staff and seven-member Board of Directors are tasked with several important components of CAMP, including maintaining ongoing data collection coordination services and executing the public outreach. CAMP is the kind of project MLTPA looks forward to initiating and developing as we grow in our role as advocates and stewards for our community and the surrounding public lands.

What are the basic geographic parameters of CAMP? Which areas of Mammoth Lakes does CAMP affect? Land contained within the Town of Mammoth Lakes Urban Growth Boundary (UGB)—basically, where all the concrete is—will get an update to an adopted trails plan from 1991. Land outside the UGB but within the Town Boundary, which is public land owned and managed by the USFS, will be considered conceptually, exploring the opportunities for connectivity between the town and the surrounding public lands. The end result of this will be something like a blueprint that will set the stage for future planning efforts and strategies for implementation.

Is this just for hikers and bikers? Nope! The planning effort is a "big tent" venture that seeks to engage and accommodate the recreation needs of everyone in the community, whether your chosen activity is human-powered or runs on gas. MLTPA has identified more than 40 recreation activities in our area, and the planning process is open to each and every one of them. A key goal of this planning process is to improve the recreation experience for everyone.

Why are there two CAMPS (Summer and Winter)? Because Mammoth changes so significantly between seasons, CAMP: Summer will focus on summer recreation and trails. CAMP: Winter will take place in February 2008 and will address winter recreation and trails.

Why does anything have to be planned at all? If no adopted planning document that addresses multi-jurisdictional trails planning exists, the opportunity to build and experience a comprehensive, fully linked system of trails and public access is not guaranteed. CAMP's goal is to ensure that no matter who owns or manages the lands that make up this community, not only will the public be able to reach public lands from town, but that connections will be efficient, safe, and enjoyable. And it goes without saying that you need a good plan to ensure at least the possibility of good implementation.

Why do we have to do it now? What's the urgency? According to a recent memorandum from Town Manager Robert F. Clark (March 7, 2007), "... the ability to address environmental, economic, and social impacts and obtain a fair share contribution towards community benefits is a one time opportunity. If this opportunity is not attained now, it will be lost forever." The Town of Mammoth Lakes has processed a total of 11 Environmental Impact Reports (EIRs)—a necessary procedure in the process of approving any major development project—in the last 23 years. Today the TOML is potentially tasked with processing that same number of EIRs in the next 12 months. If a planning effort is not in process during this approval period, there is no guarantee that existing points of public access to and from Inyo National Forest through the Urban Growth Boundary will be protected or ensured...meaning that the trail you take to get out there today might be lost to private real estate development tomorrow.

Who's going to do all the work? The CAMP process will function via Jurisdictional, Funding, and

Planning Partnerships between the Town of Mammoth Lakes MLTPA, Mammoth Mountain Ski Area, and the USFS. Consultants have been engaged for trails master planning (Alta Planning + Design and Trail Solutions). Your participation in public meetings and in the entire CAMP process—giving suggestions, ideas, and feedback—is a major component of CAMP and an extremely important part of the project's workflow. At the end of the day, the consultants will provide recommendations in terms of a draft master plan that will need to be adopted by the individual jurisdictions through their own public processes.

What's in it for me? A thorough planning process benefits you by engaging individuals and groups in the development of a trails and public access plan that will update the existing Mammoth Lakes trails plan from 1991. Extensive community outreach will be conducted to ensure that the proposed plans and end products reflect the recreational needs and desires of the community.

Once the planning process is complete, the drafted planning documents have been adopted by relevant jurisdictional agencies, and implementation has begun, you—as a resident, second homeowner, or visitor—will be able to look forward to a well-planned, efficient, well-signed, and fun trails and public access system, no matter what your skill level or activity of choice.

How is this going to benefit the community of Mammoth Lakes? The benefits to the Mammoth Lakes community of a comprehensive system of trails and public access are threefold: recreational, economic, and environmental. A trails system that is efficient, integrative, easy to use and navigate, and, above all, fun, will serve the outdoor recreation needs of both residents and visitors, increasing Mammoth's draw as a year-round destination resort. Increased visitors to the area will not only supplement the bottom line of the town's business sector in the winter and summer, but also will help to fill in the gaps created by the current "shoulder seasons." For year-round residents, access to Inyo National Forest for everything from birding to snowmobiling can be protected and stewarded—encouraging our community to freely experience the abundant beauty and resources of our public lands. Finally, the "feet first" vision that anchors the recently adopted Town of Mammoth Lakes 2007 General Plan will begin to be realized with safe connections that encourage alternative mobility. With a comprehensive system in place, our community literally can be linked, from the South Gateway to MMSA and beyond. It's good for our health—financially, physically, and mentally!

How much is it going to cost? MLTPA estimated an initial cost for just the planning effort at about \$485,000. All the Partners have worked together to refine the scope and needs of the project, and the current estimated cost of the planning effort is about \$350,000. The Funding Partners have \$225,000 committed to the planning process so far.

Who's going to pay for it? Currently, the Town of Mammoth Lakes has committed \$100,000, an amount that Mammoth Mountain Ski Area is matching. An additional \$25,000 has been committed by Cardinal Investments via the Developers' Forum, bringing total committed funds to \$225,000. MLTPA is actively pursuing grants and conducting other fundraising efforts to produce the project balance.

When will we get an actual plan out of this? The Planning Partners have structured the planning effort on a 12-month timeline, though the process may extend beyond this window. Consultants have been engaged and are gathering facts and making observations as you read this.

When will we see these improvements? After the planning process has been completed and the final trails plan for the area has been adopted by the Town and other necessary jurisdictional agencies, the establishment of implementation priorities can begin. It will be up to the Jurisdictional Partners to begin the implementation process based on their priorities and available funding. MLTPA will certainly look to play a helpful role at this stage.

What can I do to get involved? You'll have the chance to provide input as well as feedback on everything from the routes you travel by foot or bike to get to work, to the trailhead from which you stage your backpacking trip into the backcountry. No matter which activities you enjoy on our public lands—walking your dog, ripping around on your motorcycle, or heading out for a backcountry ski tour—your opinions are not only relevant, but critical. To make your voice heard, be on the lookout for announcements of public meetings and other events, and be part of the turnout! CAMP: Summer is set for November 1–4, 2007, at Canyon Lodge. If you'd rather not express your opinion in public, you'll have plenty of opportunities to complete surveys, post messages on our website forums, send MLTPA e-mails, or simply call us on the phone.

If you'd like to pitch in on a volunteer basis, send an e-mail to Communications Manager Kim Stravers at kimstravers@mltpa.org, or talk to her on the phone at (760) 934-3154. She'll add your name to the list and will send you more information about which tasks we currently need a hand with.

How can I get more information? Log on to MLTPA's website, www.mltpa.org, for timely reports on the status and progress of CAMP and to find out when and how you can get involved. Better yet, sign up for our e-newsletter by contacting MLTPA or looking for the orange sign-up box on www.mltpa.org.

Who is the MLTPA contact for CAMP? Kim Stravers is the communications manager of MLTPA and can be reached at (760) 934-3154 or kimstravers@mltpa.org. John Wentworth is the president of the MLTPA Foundation Board of Directors and the acting executive director of MLTPA; he can be reached at (760) 934-3154 or johnwentworth@mltpa.org. We look forward to hearing from you!

Meet the CAMP Consultants!

Click on the links below to download PDFs about our CAMP consultants.

Both Alta Planning + Design and Trail Solutions will be working throughout the entire Concept and Master Planning process, and they'll be back for CAMP: Winter, too! Don't miss your chance to meet the teams at our Opening Reception, Thursday, February 7, 2008, 6:30 to 8:00 p.m. at the Mountainside Conference Center in Main Lodge.

Say hello to Alta Planning + Design.

Here's more about their staff:

Jeff Olson, Principal

Jeff is a registered architect who has been involved in greenways, open space, and alternative transportation projects for more than 20 years. Jeff's work includes the award-winning Grand Canyon Greenway, the 1,000-mile New York State Bicycle Route System, and numerous bicycle, pedestrian, and trail plans that he participated in from positions in both the private and public sectors. His diverse career experience provides him with unique and valued vision and leadership abilities.

Matt Benjamin, Planner

Through his work with the Los Angeles County Bicycle Coalition and the Los Angeles County Metropolitan Transportation Authority, Matt has accrued extensive experience in leading public outreach and planning efforts. Matt specializes in developing strategies to ensure that the needs and desires of both the public and the contracting organization are met.

Say hello to Trail Solutions.

Here's more about their staff:

Cimarron Chacon, ASLA

Cimarron is a renowned trail planner and designer. Prior to her time with Trail Solutions she developed multiple trail systems throughout the West as the Landscape Architect over Trails Policy for the Bureau of Land Management, influencing public policy and design criteria for recreation sites on public lands. She has dealt with design and development on lands in the urban interface of several rapidly growing communities in the West, and her most prized trail system, Utah's Gooseberry Mesa, was recently designated as a National Recreation Trail by the Secretary of the Interior.

Cimarron was a contributing author to IMBA's *Managing Mountain Biking* and other outdoor and professional publications. In addition, she developed and taught courses on trail management and visual resource management for the Bureau of Land Management, United States Forest Service, National Park Service, and Federal Highway Administration.

Joey Klein, IMBA Trail Specialist (CAMP: WINTER)

Joey has been on the trail for IMBA since 1999, traveling the globe to share his knowledge of and passion for multi-use trail systems in 45 states and 13 countries. He has recently returned from working on a project with National Parks Singapore in the design and construction of a mountain bike center on a small island near Malaysia. With a population of four million people, Singapore is linking all of their National Parks with shared-use pathways.

Formerly a ski patroller at Arapahoe Basin in Colorado, Joey built the initial mountain bike trails at neighboring Keystone Resort. He has spent the last five summers at Tamarack Resort in Idaho as the trail designer, working with planners to incorporate a brand-new system for residents and visitors who wish to hike, fish, rock climb, zip line, mountain bike, ski, snowshoe, and snowmobile.

Say hello to Peter Axelson, Founder and Director of Research and Development at Beneficial Designs.

As Founder and Director of Research and Development, Peter leads Beneficial Designs and spends much of his time traveling throughout the world to attend meetings and present the firm's work. After sustaining a spinal cord injury, Peter founded Beneficial Designs in 1981 to manufacture his Arroya Sit-Ski design. Many Beneficial Designs devices, including hand controls for manual transmission vehicles and a piano pedal pusher operated by the abdominal muscles, have been inspired by Peter's desire to reestablish the physical, intellectual, and spiritual balance in his own life.

Peter is an avid monoskier, and his zest for outdoor recreation has led Beneficial Designs to specialize in the development of a variety of adaptive recreation equipment, including monoskis, cross-country snow skis, a wave ski for surf kayaking, and ultra-light-aircraft modifications.

Suite Z

Planning consultants from the Trail Solutions and Alta Planning + Design teams will lead an informal focus group comprised of community members who are interested in snow removal and feet-first winter mobility in town. The session is designed to collect and disburse, in a moderated environment, information about current grooming and snow maintenance, feet-first travel, and wintertime public transit.

Capacity: 16

FEATURED PRESENTATION: "FOUR-SEASON TRAILS: HOW COMMUNITIES AROUND THE WORLD GET IT DONE"

Presenter: Joey Klein, Trail Solutions

6:30 p.m. to 8:00 p.m.

Exhibit Hall, Mountainside Conference Center, Main Lodge

This presentation by world-renowned trails designer Joey Klein will take the audience on a tour of five continents, highlighting the history and meaning of why we love trails, how communities deal with their own unique geographies (balancing seasonal and geological challenges), and heroic tales of how citizen groups have come together to make their own dreams a reality—just as Mammoth is doing now.

Capacity: No limit

Saturday, February 9

TRAILS NETWORK WORKSHOP: RECREATION

2:00 p.m. to 5:00 p.m.

Suite Z

Using base maps of existing trails and play areas, participants will work closely with planning consultants from Trail Solutions to evaluate existing wintertime connections to recreation on public lands, discuss potential new links and other improvements to the current system, and brainstorm about trail amenities such as trailheads and signage within the frontcountry area adjacent to the community.

Capacity: 16

TRAILS NETWORK WORKSHOP: MOBILITY

2:00 p.m. to 5:00 p.m.

Suite Z

Using base maps of existing trails and routes, participants will work closely with planning consultants from Alta Planning + Design to evaluate existing wintertime feet-first and public transit systems and how they connect to services and neighborhoods, to favorite recreation and leisure areas, and for safe routes to school and work. There will also be discussion of potential new links, enhanced amenities such as signage and wayfinding, bus stops, and other safety enhancements.

Capacity: 16

Monday, February 11

NEXT STEPS PRESENTATION

6:30 p.m. to 8:00 p.m.

Exhibit Hall, Mountainside Conference Center, Main Lodge

A presentation and question-and-answer session focused on the lessons and information learned from the week's workshops and listening sessions, and how CAMP: WINTER connects to CAMP: SUMMER and the CAMP process as a whole. Information will be provided concerning how the public can stay informed and involved in the planning process, which planning steps are still to come, when citizens can expect a draft plan, and how to make that plan a reality.

Capacity: No limit

CAMP: WINTER Recreation, Motorized

Snowmobilers, this page is for you! Please see below for a list of which CAMP: WINTER sessions should be of most interest to you.

[CLICK HERE TO REGISTER!](#)

Thursday, February 7, through Tuesday, February 12

EXHIBIT HALL/BASE CAMP

See Schedule of Events for details

Mountainside Conference Center, Main Lodge

Informational and interactive exhibits will be on display throughout the event, and MLTPA staff will be on hand all week to field questions and receive feedback. Computer stations will be set up so that participants may take the CAMP: SUMMER and CAMP: WINTER trail surveys. Displays will include maps and planning exhibits, photos, and instructional materials related to winter trail types, GIS planning data, and winter travel/snow removal. Come to the Registration Desk to enjoy a guided tour of the Exhibit Hall, or pick up a copy of the Self-Guided Tour.

Capacity: No limit

REGISTER NOW!

Thursday, February 7

LISTENING SESSION: WINTER RECREATION, MOTORIZED

11:00 a.m. to 11:45 a.m.

Suite Z

Planning consultants from the Trail Solutions team will lead an informal focus group comprised of community members who are passionate about motorized winter recreation. The session is designed so that Trail Solutions can better comprehend the specific needs and challenges of this particular group as they relate to multi-use trails, staging areas, and recreation.

Capacity: 16

OPENING RECEPTION

6:30 p.m. to 8:00 p.m.

Exhibit Hall, Mountainside Conference Center, Main Lodge

While enjoying cocoa and cookies, the public will have the opportunity to meet planning consultant team

members from Alta Planning + Design and Trail Solutions, MLTPA staff and Board members, and other CAMP Partners. An overview of the week's activities will be provided, as well as introductions to the CAMP Team. Participants also may register for additional sessions, and take the CAMP: WINTER and CAMP: SUMMER trail surveys, at this time.

Capacity: No limit

Friday, February 8, OR Saturday, February 9 (same tours run both days)

PORTAL TOUR

9:00 a.m. to 12:00 p.m.

Meet at the Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a Town Trolley tour through Mammoth Lakes, identifying existing winter public-travel routes—both the Mammoth Lakes Trail System and public-transportation routes—and the recreation access points to which they connect.

Suggested participants: Open to all

Capacity: 25

WALKING TOUR

1:00 p.m. to 3:00 p.m.

Meet at Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a walking tour through Mammoth Lakes, identifying existing winter public-travel routes—on the Mammoth Lakes Trail System and on sidewalks—and providing information about snow removal as it's related to Business Assessment Districts (BADs), Safe Routes to School, and grooming for non-motorized travel.

Suggested participants: Open to all

Capacity: No limit

Friday, February 8

LISTENING SESSION: WINTER MOBILITY

3:30 p.m. to 4:15 p.m.

Suite Z

Planning consultants from the Trail Solutions and Alta Planning + Design teams will lead an informal focus group comprised of community members who are interested in snow removal and feet-first winter mobility in town. The session is designed to collect and disburse, in a moderated environment, information about current grooming and snow maintenance, feet-first travel, and wintertime public transit.

Getting to CAMP: WINTER

DRIVING DIRECTIONS TO MAMMOTH LAKES, CALIFORNIA

- From Los Angeles**

Driving from Southern California will take approximately 6 hours. Take the 405 freeway north to the 5 freeway north to Highway 14 north to Highway 395 north. Exit on Highway 203 to Mammoth Lakes.
- From San Diego/Orange County**

Driving from the San Diego area will take approximately 7.5 hours, and from the Orange County area will take approximately 6 hours. Take the 15 freeway north to Highway 395 north. Exit on Highway 203 to Mammoth Lakes.
- From Reno/Lake Tahoe**

Driving from the Reno/Tahoe area will take approximately 3 hours. Take Highway 395 south. Exit on Highway 203 to Mammoth Lakes.
- From Northern California/Bay Area**

Driving from the San Francisco/Sacramento areas will take approximately 5-7 hours. Depending on the season and road conditions, various routes may be taken. Please consult Caltrans at 800-427-7623, the California Highway Patrol, or your local Triple A (AAA) office for the best route from your area.

PUBLIC TRANSPORTATION

Click map to enlarge, or click [HERE](#) to download a PDF.

- Mountainside Conference Center at Main Lodge**

7:00 a.m. to 5:30 p.m.: The **Red Line** begins at Snowcreek Athletic Club (stop #21) and runs along Old Mammoth Road and Main Street, turning up Minaret Road at The Village and continuing up to Main Lodge (stop #1). It runs every 15 minutes.
- Suite Z**

7:00 a.m. to 5:30 p.m.: The **Red Line** begins at Snowcreek Athletic Club (stop #21) and runs along Old Mammoth Road and Main Street, turning up Minaret Road at The Village and continuing up to Main Lodge (stop #1). It runs every 15 minutes. Get off at the Vons plaza (stop #15) and walk through the parking lot toward Minaret Cinemas. The staircase outside the cinema will take you directly to Suite Z—look for the CAMP: WINTER signs!
- The **Green Line** also is available every 15 minutes between 7:00 a.m. and 5:30 p.m., and runs along Meridian Boulevard from Little Eagle Lodge to Old Mammoth Road. Get off at the intersection of Meridian Boulevard and Old Mammoth Road (stop #31), across from Starbucks, and cross the street to the Vons plaza. Walk through the parking lot toward Minaret Cinemas. The staircase outside the cinema will take you directly to Suite Z—look for the CAMP: WINTER signs!

TOML Visitors Center
7:00 a.m. to 5:30 p.m.: The **Red Line** begins at Snowcreek Athletic Club (stop #21) and runs along Old Mammoth Road and Main Street, turning up Minaret Road at The Village and continuing up to Main Lodge (stop #1). It runs every 15 minutes. Get off at the intersection of Old Mammoth Road and Main Street (stop #11) and walk one block east on Main Street. Turn left to head north on Sawmill Cutoff Road to where the road intersects with the Main Path. Head east on the trail and it will take you directly to the Visitors Center.

Volunteer for CAMP: WINTER

In November 2007, a number of generous individuals donated their time to MLTPA and the CAMP: SUMMER event by volunteering on site. We're looking for a few committed folks to offer the same sort of help for CAMP: WINTER, February 7-12, 2008, at the Mountainside Conference Center in Main Lodge. Here's a sample of what you may be called on to do:

- Greet and check in guests at the registration table

- Lead guests on a tour of the Exhibit Hall

- Take photos of the event

- Help coordinate tour groups

- Assist with venue setup and breakdown

Please e-mail us at volunteer@mltpa.org or call (760) 934-3154 to toss your hat in the ring. Thanks!

Take the CAMP Trail Surveys Here!

The CAMP Trail Surveys are your chance to send feedback on our trails and public access system straight to the trails planning consultants. They're anonymous and only take a few minutes to complete, so please share your local knowledge! CAMP: SUMMER info is still being collected and considered, so we encourage you to take both surveys.

(Oh, and when you're done, forward this page to a friend!)

Click [here](#) to take the **CAMP: SUMMER** Trail Survey.

And then

Click [here](#) to take the **CAMP: WINTER** Trail Survey.

Chapter 7: Registration

MLTPA was responsible for developing and tracking registration for all CAMP: WINTER sessions, both before and during the event. MLTPA staff, Board members, and volunteers also were responsible for checking guests in for each session and providing them with nametags. Walk-ups were admitted to all public events with no capacity limit by having them sign in and fill out a registration form on-site. Guests also were asked to sign waivers when necessary.

- **Online registration summary**

MLTPA engaged the services of RegOnline to maintain online registration for the event. Participants accessed the special CAMP: WINTER section of the RegOnline site by clicking through the Registration page on the CAMP: WINTER mini-site. Once their information was submitted, participants received a confirmation e-mail thanking them for their registration, and the registration information was immediately forwarded to MLTPA staff to be recorded in the “CAMP: WINTER Master Registration List.” Additionally, this service enabled users to change those events for which they’d registered, cancel registration completely, be put on a wait list for events that were at capacity, and receive auto-generated e-mails from MLTPA regarding proper attire, session openings, last-minute session cancellations, and other information. Online registration closed at noon on February 7, 2008.

- **On-site registration summary**

Once online registration had closed, guests were able to sign up for events on site at the Registration Table via an analog registration form developed by MLTPA. Registration was recorded in the “CAMP: WINTER Master Registration List” in real time by MLTPA staff.

Chapter 8: Schedule of Events

MLTPA worked with the consultants and the Town of Mammoth Lakes to organize a variety of different sessions, both public and private, during which the consultants would have the opportunity to collect information from the community as well as from local agencies. The public schedule—available on the CAMP: WINTER mini-site (a featured component of the MLTPA website) as well as in takeaway form at the Exhibit Hall/Base CAMP—was designed to achieve optimal participation from the community, considering the typical work hours of a mountain resort town. Private sessions were noted on a separate grid shared only with CAMP Partners, and invitees were notified only of the date, time, and location of the session(s) to which they were invited. Please see Chapter 9, “Session Information,” for details on participation, structure, results, and other information.

CAMP: WINTER SCHEDULE OF EVENTS

Chapter 9: Session Information

The consultants developed each session's goal and structure, with MLTPA and the Town of Mammoth Lakes providing local knowledge, facility information, and descriptions of potential participants.

CAMP: WINTER Event Information

Thursday, February 7, through Tuesday, February 12

EXHIBIT HALL/BASE CAMP

See Schedule of Events for details

Mountainside Conference Center, Main Lodge

Informational and interactive exhibits will be on display throughout the event, and MLTPA staff will be on hand all week to field questions and receive feedback.

Computer stations will be set up so that participants may take the CAMP: SUMMER and CAMP: WINTER trail surveys. Displays will include maps and planning exhibits, photos, and instructional materials related to winter trail types, GIS planning data, and winter travel/snow removal. Come to the Registration Desk to enjoy a guided tour of the Exhibit Hall, or pick up a copy of the Self-Guided Tour.

Suggested participants: Open to all

Capacity: No limit

Thursday, February 7

LISTENING SESSION: WINTER RECREATION, MOTORIZED

11:00 a.m. to 11:45 a.m.

Suite Z

Planning consultants from the Trail Solutions team will lead an informal focus group comprised of community members who are passionate about motorized winter recreation. The session is designed so that Trail Solutions can better comprehend the specific needs and challenges of this particular group as they relate to multi-use trails, staging areas, and recreation.

Suggested participants: Snowmobilers

Capacity: 16

OPENING RECEPTION

6:30 p.m. to 8:00 p.m.

Exhibit Hall, Mountainside Conference Center, Main Lodge

While enjoying cocoa and cookies, the public will have the opportunity to meet planning consultant team members from Alta Planning + Design and Trail Solutions, MLTPA staff and Board members, and other CAMP Partners. An overview of the week's activities will be provided, as well as introductions to the CAMP Team. Participants also may register for additional sessions, and take the CAMP: WINTER and CAMP: SUMMER trail surveys, at this time.

Suggested participants: Open to all

Capacity: No limit

Friday, February 8

PORTAL TOUR

9:00 a.m. to 12:00 p.m.

Meet at the Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a Town Trolley tour through Mammoth Lakes, identifying existing winter public-travel routes—both the Mammoth Lakes Trail System and public-transportation routes—and the recreation access points to which they connect.

Suggested participants: Open to all

Capacity: 25

LISTENING SESSION: WINTER RECREATION, NON-MOTORIZED

10:30 a.m. to 11:15 a.m.

Suite Z

Planning consultants from the Trail Solutions team will lead an informal focus group comprised of community members who are passionate about non-motorized winter recreation. The session is designed so that Trail Solutions can better comprehend the specific needs and challenges of this particular group as they relate to multi-use trails, access points to public lands, and recreation.

Suggested participants: Front-country snowshoers and Nordic skiers, ice fishermen, on-lake ice skaters, in-town winter walkers/pet walkers, snowplayers (tubing, sledding, etc.)

Capacity: 16

LISTENING SESSION: WINTER RECREATION, NON-MOTORIZED BACKCOUNTRY

11:30 a.m. to 12:15 p.m.

Suite Z

Planning consultants from the Trail Solutions team will lead an informal focus group comprised of community members who are passionate about non-motorized winter recreation in the backcountry. The session is designed so that Trail Solutions can better comprehend the specific needs and challenges of this particular group as they relate to multi-use trails, access points to public lands, and recreation.

Suggested participants: Winter campers, biathletes, dog sledders, ice climbers, backcountry skiers and snowboarders, backcountry snowshoers and Nordic skiers

Capacity: 16

WALKING TOUR

1:00 p.m. to 3:00 p.m.

Meet at Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a walking tour through Mammoth Lakes, identifying existing winter public-travel routes—on the Mammoth Lakes Trail System and on sidewalks—and providing information

about snow removal as it's related to Business Assessment Districts (BADs), Safe Routes to School, and grooming for non-motorized travel.

Suggested participants: Open to all

Capacity: No limit

LISTENING SESSION: WINTER MOBILITY

3:30 p.m. to 4:15 p.m.

Suite Z

Planning consultants from the Trail Solutions and Alta Planning + Design teams will lead an informal focus group comprised of community members who are interested in snow removal and feet-first winter mobility in town. The session is designed to collect and disburse, in a moderated environment, information about current grooming and snow maintenance, feet-first travel, and wintertime public transit.

Suggested participants: Open to all. In-town Nordic skiers, snowshoers, and walkers/pet walkers, as well as those in neighborhoods that interface with Mammoth Mountain Ski Area, may wish especially to participate.

Capacity: 16

FEATURED PRESENTATION: "FOUR-SEASON TRAILS: HOW COMMUNITIES AROUND THE WORLD GET IT DONE"

Presenter: Joey Klein, Trail Solutions

6:30 p.m. to 8:00 p.m.

Exhibit Hall, Mountainside Conference Center, Main Lodge

This presentation by world-renowned trails designer Joey Klein will take the audience on a tour of five continents, highlighting the history and meaning of why we love trails, how communities deal with their own unique geographies (balancing seasonal and geological challenges), and heroic tales of how citizen groups have come together to make their own dreams a reality—just as Mammoth is doing now.

Suggested participants: Open to all

Capacity: No limit

Saturday, February 9

PORTAL TOUR

9:00 a.m. to 12:00 p.m.

Meet at the Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a Town Trolley tour through Mammoth Lakes, identifying existing winter public-travel routes—both the Mammoth Lakes Trail System and public-transportation routes—and the recreation access points to which they connect.

Suggested participants: Open to all

Capacity: 25

WALKING TOUR

1:00 p.m. to 3:00 p.m.

Meet at Visitors' Center

Consultants from Trail Solutions and Alta Planning + Design will host a walking tour through Mammoth Lakes, identifying existing winter public-travel routes—on the Mammoth Lakes Trail System and on sidewalks—and providing information about snow removal as it's related to Business Assessment Districts (BADs), Safe Routes to School, and grooming for non-motorized travel.

Suggested participants: Open to all

Capacity: No limit

TRAILS NETWORK WORKSHOP: RECREATION

2:00 p.m. to 5:00 p.m.

Suite Z

Using base maps of existing trails and play areas, participants will work closely with planning consultants from Trail Solutions to evaluate existing wintertime connections to recreation on public lands, discuss potential new links and other improvements to the current system, and brainstorm about trail amenities such as trailheads and signage within the frontcountry area adjacent to the community.

Suggested participants: Participants in all wintertime outdoor recreation activities

Capacity: 16

TRAILS NETWORK WORKSHOP: MOBILITY

2:00 p.m. to 5:00 p.m.

Suite Z

Using base maps of existing trails and routes, participants will work closely with planning consultants from Alta Planning + Design to evaluate existing wintertime feet-first and public transit systems and how they connect to services and neighborhoods, to favorite recreation and leisure areas, and for safe routes to school and work. There will also be discussion of potential new links, enhanced amenities such as signage and wayfinding, bus stops, and other safety enhancements.

Suggested participants: Open to all. In-town Nordic skiers, snowshoers, and walkers/pet walkers, as well as those in neighborhoods that interface with Mammoth Mountain Ski Area, may wish especially to participate.

Capacity: 16

FEATURED PRESENTATION: "THE TOURISM AND RECREATION ECONOMY"

Presenter: Emilyn Sheffield

6:30 p.m. to 8:00 p.m.

Exhibit Hall, Mountainside Conference Center, Main Lodge

Dr. Emilyn Sheffield is a professor of Parks, Tourism, and Recreation at CSU Chico. She will be discussing the opportunities and challenges of a tourism- and recreation-based economy, as opposed to more traditional models such as manufacturing or public sector.

Suggested participants: Open to all

Capacity: No limit

Sunday, February 10

EXHIBIT HALL OPEN. NO SCHEDULED SESSIONS.

Monday, February 11

NEXT STEPS PRESENTATION

6:30 p.m. to 8:00 p.m.

Exhibit Hall, Mountainside Conference Center, Main Lodge

A presentation and question-and-answer session focused on the lessons and information learned from the week's workshops and listening sessions, and how CAMP: WINTER connects to CAMP: SUMMER and the CAMP process as a whole. Information will be provided concerning how the public can stay informed and involved in the planning process, which planning steps are still to come, when citizens can expect a draft plan, and how to make that plan a reality.

Suggested participants: Open to all

Capacity: No limit

General thoughts/feedback on tour:

Please comment on how tour was run, what could have been better, best parts, worst parts, overheard comments from (or conversations with) attendees, etc.

need snow poles on main path by VC
snowmobile in wrong area

tunnel - no resources to clear - CalTrans

Sierraville Cutoff - end of plowing & "lake"

Nardon - private donations funding for equip
envir friendly ^{same eq} at Spooner in NV soon - not a snowcat
need 1 "brand" for trails, jurisdictional issues
pilot program with thermoplastic? or "speed bump"

SierraPk bike lane, not contin. sidewalk

Tavern Rd - parking backs into road

Please remember to take photos as well! If you don't have a digital camera, please let MLTPA know immediately. You can download your photos at the Registration Table or e-mail them to johnwentworth@mltpa.org.

xwalk lights not working
bus stop OMR - not have map, say free
by Hosp - Peter in street - too much slush
shady side of Tavera - too much ice
bus stops in cave; had to tow Peter up Taver
Main & OMR - no priority down to Sawmill Cutoff
main path & S.C. competing plows

FRIDAY FEB. 8TH AND SATURDAY FEB 9TH, 1 p.m. to 3 p.m.

WALKING TOUR - *Group meets at TOML Visitors' Center and walks the following route:*

- 1. Start at Visitors' Center. Walk west on Main Path.**
 - *Observe Main Path treatment.*
- 2. Stop at MLTS tunnel connecting pathway underneath Hwy. 203.**
 - *Observe condition of north end of tunnel; observe available path system.*
- 3. Continue west on Main Path to Sawmill Cutoff Road.**
- 4. Head north on Sawmill Cutoff Road. Turn west, then south, into USFS property. Stop at USFS Garage.**
 - *View grooming equipment used by Mammoth Nordic and ~~USFS.~~*
- 5. Go back to Sawmill Cutoff Road and head south to Hwy. 203. Cross Hwy. 203 to Sierra Park Road.**
- 6. Continue south along the west side of Sierra Park Road.**
 - *Observe bike lane as pedestrian walkway.*
- 7. Turn west on Tavern Road.**
 - *Observe that there is no walkway, and also note the back-out parking onto the right of way.*
- 8. At Sierra Manor Road (mid-block), cross over to the sidewalks adjacent to the Park-n-Ride (south side of Sierra Manor Road).**
 - *Observe the Park-n-Ride.*
- 9. Continue west on Tavern Road. Turn south on Old Mammoth Road.**
 - *Observe the cleared and plumbed-for-future-heating sidewalks.*
- 10. At Meridian Boulevard, stop and look west (no need to cross street).**
 - *Observe sidewalks and transition to no sidewalks (cleared bike lane).*
- 11. Head east on Meridian Boulevard to Sierra Park Road.**
 - *Observe sidewalk conditions to high school and cleared Main Path.*
 - *Address Safe Routes to Schools.*
- 12. Turn north on Sierra Park Road to Tavern Road.**
- 13. Turn west on Tavern Road. Continue on bike lane to Old Mammoth Road.**
- 14. Turn north on Old Mammoth Road. Stop at intersection of Hwy. 203 and Old Mammoth Road.**
 - *Observe access to north-side and south-side sidewalks.*
- 15. Cross Hwy. 203 at Old Mammoth Road. Head east along Hwy. 203 to Sawmill Cutoff Road.**
- 16. Turn north on Sawmill Cutoff Road. Turn east on Main Path and follow back to Visitors' Center.**

CAMP: WINTER

Thank you for helping with the CAMP: WINTER tours! At the end of your tour, please return this form to the Registration Table.

Name: KIM STRAVER

Tour Name: WALKING TOUR → FRIDAY, FEB. 8

Number of people who participated in tour: ~~5~~ ~~4~~ + STEVE SPEIDEL CIMARRON C.
JO BACON JEFF OLSON
KIM STRAVER PETER AXELSON

General thoughts/feedback on tour:

Please comment on how tour was run, what could have been better, best parts, worst parts, overheard comments from (or conversations with) attendees, etc.

- Sawmill cutoff rd was a lake
- snowmobile tracks over snow through tunnel; "need better signage"
- excellent work by Brian Knox → started machines → "Sounds like a sewing machine!"
- Peter Axelsson commented that in Nevada, they have just been given the green light to purchase the same machinery
- lots of discussion about the large number of partners needed to make Mammoth Nordic's growing happen
- "I'll be damned - even locals are clearing something!"
- geothermal sidewalk
- no signs tell you transportation is free

Please remember to take photos as well! If you don't have a digital camera, please let MLTPA know immediately. You can download your photos at the Registration Table or e-mail them to johnwentworth@mltpa.org.

"If we could invest in sidewalks what we spend on snow removal..."

- NEED TO MAKE SURE BRIAN KEEPS IT SHORT & SWEET.
- Matt makes a good point: "Part of the purpose of this plan is to set priorities."

Thank you for helping with the CAMP: WINTER tours! At the end of your tour, please return this form to the Registration Table.

Name: Jo Bacon

Tour Name: Winter Mobility Listening - 2/8 332415

Number of people who participated in tour: 12

staff Jo Cimarron, Jeff, Steve Spade

General thoughts/feedback on tour:

Please comment on how tour was run, what could have been better, best parts, worst parts, overheard comments from (or conversations with) attendees, etc.

intro comments: don't feel safe walking in winter; get around better; like snowmobiling & dog walking;

Jeff - success in intro to buses in winter (from cars) - feels like "can't get snow out of the way fast enough"

issues: want to hear As, etc. in town

① driving up Meridian w/peds in street, slippery ice would walk/snowshoe down Meridian if possible needs to be useful trail in winter in new re-design; not so Calif car-based mentality; access to condos icy, not aesthetic, no buffer

② walking tour - not fun sidewalks, not wide enough, McPark not plowed for winter access - disconnected

③ steep hills - Davison is "toboggan hill", no transit there

④ priority - plow sidewalks/bike lanes first in Denmark also Park City; need transits in short loops, wide sidewalks

Please remember to take photos as well! If you don't have a digital camera, please let MLTPA know immediately. You can download your photos at the Registration Table or e-mail them to johnwentworth@mltpa.org.

- ⑤ Crossing streets & traffic speed - reduce to 20 or 15 mph; park outside of town
- ⑥ not easy to retrofit town - Lake Placid street used differently snow/non snow
straight meanders w/ sidewalk cafes
- ⑦ left turns:
parking on Meridian near chair 15 / Eagle Lodge during ski times; also Main St rush hour is lunch; snow removal on Main a problem; berms of snow limit visibility;
- ⑧ neighborhoods - ghetto foot traffic, cars cutting through, no room for sidewalks; s/b lower speed limit;
- ⑨ walking up/down stairs & ramp on Main St & frontage - not usable in winter; otherwise have to go uphill on frontage (narrow, icy) no maintenance of it?
- ⑩ what we do differently if took over 703? use this list to negotiate w/ Caltrans; truck snow? not have berms hiding businesses; blown right into trucks when cleared; figure out what could NOT be plowed; buses from airport rather than rental cars; have parking areas ^{covered!} next to transit; charge to drive in town, like London; takes culture shift for those arriving w/ booze, equip, luggage in "own" car; more covered bus stops

Thank you for helping with the CAMP: WINTER tours! At the end of your tour, please return this form to the Registration Table.

Name:

Tour Name:

Number of people who participated in tour:

General thoughts/feedback on tour:

Please comment on how tour was run, what could have been better, best parts, worst parts, overheard comments from (or conversations with) attendees, etc.

- ⑪ increase use of buses by increasing frequency over bus shelters; attractive shelters as part of signage theme in Zion;
- ⑫ out at Snowcreek 5 but not close enough to transit - if had it, would use it; could change if convenient;
- ⑬ idea of skiing lane on Meridian (Jeff thru this out) w/bus or chair lift up/ski down? build separations out of snow
- ⑭ get snow easements e.g. Golf Courses (Cimarron) do we have open areas to do it? Maintenance as snow softens is a problem

Please remember to take photos as well! If you don't have a digital camera, please let MLTPA know immediately. You can download your photos at the Registration Table or e-mail them to johnwentworth@mltpa.org.

Thank you for helping with the CAMP: WINTER tours! At the end of your tour, please return this form to the Registration Table.

Name: KIM STRAVERG

Tour Name: PORTAL TOUR, SATURDAY, FEB 9th

Number of people who participated in tour: 3 ⊕ JO BACON
JOEY KLEIN
KIM STRAVERG

General thoughts/feedback on tour:

Please comment on how tour was run, what could have been better, best parts, worst parts, overheard comments from (or conversations with) attendees, etc.

- * discussion about how to improve visitors' center as a portal
- * discussion about bell-shaped parcel as potential snowplay area or, as John Walter suggested, a groomed loop around the perimeter
- * no dog park/loop; who replaces baggies or dispenser?
- * 2- snowmobile staging area: legal? neighborhood access point
 - community center as connector trail corridor or portal
- * ski back trail → no parking
- * uptown/downtown → dumps into the road
- * winter steps
- * spring gate closure → tamarack
- * "ambulance staging area" = snowplay @ muralist
- * detoured into Arvo Cose to see potential staging area for XC ski staging area (per Evan Russell)

Please remember to take photos as well! If you don't have a digital camera, please let MLTPA know immediately. You can download your photos at the Registration Table or e-mail them to johnwentworth@mltpa.org.

CAMP: WINTER

Thank you for helping with the CAMP: WINTER tours! At the end of your tour, please return this form to the Registration Table.

Name: Jo Bacon

Tour Name: Portal Bus Ride Sat AM

Number of people who participated in tour: 3; 3 staff

General thoughts/feedback on tour:

Please comment on how tour was run, what could have been better, best parts, worst parts, overheard comments from (or conversations with) attendees, etc.

numbers do
not match
itinerary

- ① VC parking lot as portal - non-motorized & snowplay - already have parking, restrooms, wel.ctr.
- ② Sawmill Cutoff - doggie dispenser empty
Saw dogs, snowmobiles, need dog trail as well as park
need oversize veh/trailer parking
- ③ talk to John Dittli before deciding on tunnel,
Brian Knox, too; try
- ④ Sierra Blvd / Forest Trail - could connect to
existing trails; some flatish land for parking,
neighborhood access pt. dogs, snowmobiles, hiking, XC
saw XC tracks

Please remember to take photos as well! If you don't have a digital camera, please let MLTPA know immediately. You can download your photos at the Registration Table or e-mail them to johnwentworth@mltpa.org.

- ⑤ possible from scenic loop over knolls @ slight descent, to Shady Rest
- ⑥ Comm Ctr - could be staging area IF have trail corridor on east side - only cross McKnolls Rd, then could loop around knolls - wouldn't have to be skating quality groomed
- ⑦ Near 203 & scenic ^{loop} Rd (so side) informal snowplay could be portal?
- ⑧ sledz - has potential, need to know status of lease "sled in, sled out", has tow
- ⑨ power plant - corridor there, but s'bilers go everywhere - no info, orange trail but no containment - not use as a big portal
- ⑩ along 203 @ parking stop D is access point
 (winter camping (Boy Scouts))
- ⑪ access up edge of run up to Minaret Vista
- ⑫ Minaret & Main - ambulance staging area ORA illegal snowplay area - unsafe
- ⑬ Eagle appeared busier than Main Lodge

Jo Bacon

Thank you for helping with the CAMP: WINTER tours! At the end of your tour, please return this form to the Registration Table.

Name:

Tour Name:

Number of people who participated in tour:

General thoughts/feedback on tour:

Please comment on how tour was run, what could have been better, best parts, worst parts, overheard comments from (or conversations with) attendees, etc.

- ⑭ Mill St - access area (maybe 5 cars?) not a portal - secondary access to Sherwins
- ⑮ Sherwin Creek Rd - sidecountry access to Bordini Point to board & ski in addition to XC & snowmobiling staging; has potential beyond that based on Snowcreek VIII?
- ⑯ MCF staging for area dog walkers, XC, snowshoers, possible snowplay
- ⑰ College - potential staging - students here year round

Please remember to take photos as well! If you don't have a digital camera, please let MLTPA know immediately. You can download your photos at the Registration Table or e-mail them to johnwentworth@mltpa.org.

(14) Trails - bike trail - cleared in winter

(13) Trails End - has potential for XC & snowshoe,
Conflicts w/ NOT plowing to discourage use &
skate park in winter

Thank you for helping with the CAMP: WINTER tours! At the end of your tour, please return this form to the Registration Table.

Tour Name: Saturday - Walking Tour

Number of people who participated in tour: 7

General thoughts/feedback on tour:

Please comment on how tour was run, what could have been better, best parts, worst parts, overheard comments from (or conversations with) attendees, etc.

Good tour - nice variety of good walking features & bad walking features. Wish we could get more people to show - only real member of the public attending was Ruth Harrell. Seemed to provide a lot of good info. for the 3 Corbin employees attending. Steve Speidel did an excellent job as the tour leader

Please remember to take photos as well! If you don't have a digital camera, please let MLTPA know immediately. You can download your photos at the Registration Table or e-mail them to johnwentworth@mltpa.org.

Tour Name: Saturday - Mobility Workshop

Number of people who participated in tour: 16

General thoughts/feedback on tour:

Please comment on how tour was run, what could have been better, best parts, worst parts, overheard comments from (or conversations with) attendees, etc.

Missed the 1st part since it started before we finished the walking tour. Good cross section of the public in attendance - with a variety of viewpoints represented - old time Mammoth resident (rugged individualist w/ his big 4x4), environmental extremist (no cars allowed in Mammoth), etc. Mark Wardlaw talks, and sounds good, but nothing of substance comes out!

Please remember to take photos as well! If you don't have a digital camera, please let MLTPA know immediately. You can download your photos at the Registration Table or e-mail them to johnwentworth@mltpa.org.

Fascinating! Group was broken into 3 sub-groups: motorized recreation, nordic recreation, skiing/backcountry recreation. Each group asked to identify "dream scenario" for their recreation group. Shady Rest & Sherwin meadows biggest areas of contention, but all groups wanted to see a Snow Play Area developed-maybe out by Sherwin Ranch for sledding, nordic, dog-walking, snowmobile riding & access to Sherwins. All groups agreed that access/mobility around town an issue: suggest a groomed trail all around town, some areas accessible to all, others non-motorized around neighborhoods. Lake Mary/Lakes Basin spring access also a point for all groups because the road is closed in April, but not opened & they all like it opened for access to the crest & areas.

Please remember to take photos as well! If you don't have a digital camera, please let MLTPA know immediately. You can download your photos at the Registration Table or e-mail them to johnwentworth@mltpa.org.

Jan. 29, 2008

Hello Team

Please look over the below suggested Trolley Route for CAMP: Winter. The areas of concern or noted.

The Trolley Tour:

Note that this is a Winter Road Closures and Recreation Portals Tour.

- Start at Visitors' Center
- R on 203
- R onto Sawmill Cutoff Rd to view OSV staging area
- R back on to 203
- R on Minaret
- Earthquake Fault on R (conceptually a stop, pulling off may be difficult, a "Slow Down" may be all we can manage)
- R into Power Plant --> Back onto Minaret
- R into Sledz parking lot (depending how crowded it is, but there is a Red Line stop on the road, perhaps we can stop for a few minutes)
- Main Lodge --> Turn around
- R on Forest Trail before Village
- First L (Hillside)
 - First L (Canyon)
 - R at bus stop to view back side of the Village, under gondola
 - R on Lake Mary Rd
 - Turn around within Tamarack*
 - Pull up to Lake Mary Rd Closure* (*maybe look at the closure first, because turning R from Tamarack up towards the Lake Mary Rd gate is pretty tight.)
 - Back down Lake Mary Rd.
 - R on Minaret
 - R on Meridian
 - Stop at Little Eagle, turn around
 - R on Minaret
 - R on Old Mammoth, all the way up to Mill City (Old Mammoth Road before Mill City only has one lane plowed and has a "no buses" sign. It's a little bit of a trek for folks to get all the way up there, but probably worth it)
 - Back down Old Mammoth
 - R on Tamarack St (The turnarounds within "Tamarack "are tight)
 - R back onto Old Mammoth Road
 - R onto Sherwin Creek Rd, turn around in parking lot
 - R back onto Old Mammoth
 - L into Mammoth Creek Park, See park, walk thru tunnel or across the street to see Mammoth Creek Rd
 - L back onto Old Mammoth

- R on Meridian
- L into Skate Park parking lot
- L back onto Meridian to 203
- L on 203
- Head back into Visitors' Center

We really need to do a dry run in a car or the Trolley, see what they're comfortable doing -

Chapter 10: Takeaways

MLTPA, with participation by the consultants, created and assembled a number of documents intended as takeaway information for CAMP: WINTER guests and the general public. Each piece, excluding “CAMP: Terms and Definitions,” was available on the CAMP: WINTER mini-site and at the Registration Table. A copy of each document follows.

- CAMP FAQs (MLTPA)
- CAMP: WINTER Event Information (MLTPA) (See Chapter 9, “Session Information.”)
- CAMP: WINTER Schedule of Events (MLTPA) (See Chapter 8, “Schedule of Events.”)
- “CAMP: Terms and Definitions” (Trail Solutions and MLTPA)
- Consultant bios, grouped by firm (Alta Planning + Design, Trail Solutions)
- Firm bio, Alta Planning + Design
- Firm bio, Trail Solutions
- Flyer, “Four-Season Trails: How Communities Around the World Get It Done”
- Public transportation map and written directions
- Self-Guided Exhibit Hall Tour narrative (See Chapter 5, “Exhibit Hall.”)
- Town of Mammoth Lakes Snow Removal package

MLTPA CAMP: Concept and Master Planning FAQs

What is MLTPA? MLTPA—the Mammoth Lakes Trails and Public Access Foundation—is a 501(c)(3) nonprofit organization that was founded in 2006 to advocate for a comprehensive system of trails and public access in Mammoth Lakes.

What is CAMP? CAMP, which stands for Concept and Master Planning, is the partnered process by which the Town of Mammoth Lakes, Mammoth Mountain Ski Area, the USFS, and the community of Mammoth Lakes work together to plan a comprehensive trails and public access system. There are three types of partners in this effort: Jurisdictional Partners (Town, USFS), Funding Partners (Town, Mammoth Mountain Ski Area, and the Developers' Forum), and Planning Partners (MLTPA, Town, USFS, Mammoth Mountain Ski Area).

Why has MLTPA become involved in Town master planning? The group was formed after a successful campaign during the winter of 2005-2006, led by MLTPA Foundation President/Acting Executive Director John Wentworth, to protect backcountry skier and snowboarder egress from the Sherwins range back to town through Ranch Road. Having brought to light issues of public access and trail connectivity, MLTPA was awarded a contract from the Town of Mammoth Lakes in August 2006 to conduct a thorough inventory of points of public access to trails and outdoor recreation amenities within the Town's Planning Area (about 125 square miles), which now serves as a planning resource for the Town; the completed project was accepted by Town Council at their March 21, 2007, meeting. Today, our staff and seven-member Board of Directors are tasked with several important components of CAMP, including maintaining ongoing data collection coordination services and executing the public outreach. CAMP is the kind of project MLTPA looks forward to initiating and developing as we grow in our role as advocates and stewards for our community and the surrounding public lands.

What are the basic geographic parameters of CAMP? Which areas of Mammoth Lakes does CAMP affect? Land contained within the Town of Mammoth Lakes Urban Growth Boundary (UGB)—basically, where all the concrete is—will get an update to an adopted trails plan from 1991. Land outside the UGB but within the Town Boundary, which is public land owned and managed by the USFS, will be considered conceptually, exploring the opportunities for connectivity between the town and the surrounding public lands. The end result of this will be something like a blueprint that will set the stage for future planning efforts and strategies for implementation.

Is this just for hikers and bikers? Nope! The planning effort is a “big tent” venture that seeks to engage and accommodate the recreation needs of everyone in the community, whether your chosen activity is human-powered or runs on gas. MLTPA has identified more than 40 recreation activities in our area, and the planning process is open to each and every one of them. A key goal of this planning process is to improve the recreation experience for everyone.

Why are there two CAMPS (Summer and Winter)? Because Mammoth changes so significantly between seasons, CAMP: Summer will focus on summer recreation and trails. CAMP: Winter will take place in February 2008 and will address winter recreation and trails.

Why does anything have to be planned at all? If no adopted planning document that addresses multi-jurisdictional trails planning exists, the opportunity to build and experience a comprehensive, fully linked system of trails and public access is not guaranteed. CAMP’s goal is to ensure that no matter who owns or manages the lands that make up this community, not only will the public be able to reach public lands from town, but that connections will be efficient, safe, and enjoyable. And it goes without saying that you need a good plan to ensure at least the possibility of good implementation.

Why do we have to do it now? What’s the urgency? According to a recent memorandum from Town Manager Robert F. Clark (March 7, 2007), “... the ability to address environmental, economic, and social impacts and obtain a fair share contribution towards community benefits is a one time opportunity. If this opportunity is not attained now, it will be lost forever. “ The Town of Mammoth

Lakes has processed a total of 11 Environmental Impact Reports (EIRs)—a necessary procedure in the process of approving any major development project—in the last 23 years. Today the TOML is potentially tasked with processing that same number of EIRs in the next 12 months. If a planning effort is not in process during this approval period, there is no guarantee that existing points of public access to and from Inyo National Forest through the Urban Growth Boundary will be protected or ensured...meaning that the trail you take to get out there today might be lost to private real estate development tomorrow.

Who's going to do all the work? The CAMP process will function via Jurisdictional, Funding, and Planning Partnerships between the Town of Mammoth Lakes MLTPA, Mammoth Mountain Ski Area, and the USFS. Consultants have been engaged for trails master planning (Alta Planning + Design and Trail Solutions). Your participation in public meetings and in the entire CAMP process—giving suggestions, ideas, and feedback—is a major component of CAMP and an extremely important part of the project's workflow. At the end of the day, the consultants will provide recommendations in terms of a draft master plan that will need to be adopted by the individual jurisdictions through their own public processes.

What's in it for me? A thorough planning process benefits you by engaging individuals and groups in the development of a trails and public access plan that will update the existing Mammoth Lakes trails plan from 1991. Extensive community outreach will be conducted to ensure that the proposed plans and end products reflect the recreational needs and desires of the community.

Once the planning process is complete, the drafted planning documents have been adopted by relevant jurisdictional agencies, and implementation has begun, you—as a resident, second homeowner, or visitor—will be able to look forward to a well-planned, efficient, well-signed, and fun trails and public access system, no matter what your skill level or activity of choice.

How is this going to benefit the community of Mammoth Lakes? The benefits to the Mammoth Lakes community of a comprehensive system of trails and public access are threefold: recreational, economic, and environmental. A trails system that is efficient, integrative, easy to use and navigate, and, above all, fun, will serve the outdoor recreation needs of both residents and visitors,

increasing Mammoth's draw as a year-round destination resort. Increased visitors to the area will not only supplement the bottom line of the town's business sector in the winter and summer, but also will help to fill in the gaps created by the current "shoulder seasons." For year-round residents, access to Inyo National Forest for everything from birding to snowmobiling can be protected and stewarded—encouraging our community to freely experience the abundant beauty and resources of our public lands. Finally, the "feet first" vision that anchors the recently adopted Town of Mammoth Lakes 2007 General Plan will begin to be realized with safe connections that encourage alternative mobility. With a comprehensive system in place, our community literally can be linked, from the South Gateway to MMSA and beyond. It's good for our health—financially, physically, and mentally!

How much is it going to cost? MLTPA estimated an initial cost for just the planning effort at about \$485,000. All the Partners have worked together to refine the scope and needs of the project, and the current estimated cost of the planning effort is about \$350,000. The Funding Partners have \$225,000 committed to the planning process so far.

Who's going to pay for it? Currently, the Town of Mammoth Lakes has committed \$100,000, an amount that Mammoth Mountain Ski Area is matching. An additional \$25,000 has been committed by Cardinal Investments via the Developers' Forum, bringing total committed funds to \$225,000. MLTPA is actively pursuing grants and conducting other fundraising efforts to produce the project balance.

When will we get an actual plan out of this? The Planning Partners have structured the planning effort on a 12-month timeline, though the process may extend beyond this window. Consultants have been engaged and are gathering facts and making observations as you read this.

When will we see these improvements? After the planning process has been completed and the final trails plan for the area has been adopted by the Town and other necessary jurisdictional agencies, the establishment of implementation priorities can begin. It will be up to the Jurisdictional Partners to begin the implementation process based on their priorities and available funding. MLTPA

will certainly look to play a helpful role at this stage.

What can I do to get involved? You'll have the chance to provide input as well as feedback on everything from the routes you travel by foot or bike to get to work, to the trailhead from which you stage your backpacking trip into the backcountry. No matter which activities you enjoy on our public lands—walking your dog, ripping around on your motorcycle, or heading out for a backcountry ski tour—your opinions are not only relevant, but *critical*. To make your voice heard, be on the lookout for announcements of public meetings and other events, and be part of the turnout! CAMP: Summer is set for November 1–4, 2007, at Canyon Lodge. If you'd rather not express your opinion in public, you'll have plenty of opportunities to complete surveys, post messages on our website forums, send MLTPA e-mails, or simply call us on the phone.

If you'd like to pitch in on a volunteer basis, send an e-mail to Communications Manager Kim Stravers at kimstravers@mltpa.org, or talk to her on the phone at (760) 934-3154. She'll add your name to the list and will send you more information about which tasks we currently need a hand with.

How can I get more information? Log on to MLTPA's website, www.mltpa.org, for timely reports on the status and progress of CAMP and to find out when and how you can get involved. Better yet, sign up for our e-newsletter by contacting MLTPA or looking for the orange sign-up box on www.mltpa.org.

Who is the MLTPA contact for CAMP? Kim Stravers is the communications manager of MLTPA and can be reached at (760) 934-3154 or kimstravers@mltpa.org. John Wentworth is the president of the MLTPA Foundation Board of Directors and the acting executive director of MLTPA; he can be reached at (760) 934-3154 or johnwentworth@mltpa.org. We look forward to hearing from you!

CAMP

Concept and Master Planning

TERMS AND DEFINITIONS

THE TOWN OF MAMMOTH LAKES

Takeaways

PLANNING TERMS

Trails Planning

Trails planning is a comprehensive decision-making process that analyzes user characteristics and landscape characteristics using an existing framework of constraints to meet the expectations of a variety of users through a system of trails that link activity to place.

--Cimarron Chacon

User Characteristics

Those characteristics that help us understand who the users are and what experiences and benefits they will derive from a trail system.

Landscape Characteristics

Those characteristics that shape the landscape and affect experience. They include land form, unique features, environmental factors, development patterns, and resource characteristics.

Existing Framework

The laws, plans, guidance, standards, and other conditions that are in place prior to the commencement of the planning process.

Node

An area of convergence or special interest such as a landmark, business district, special place, or major intersection.

Edge

A clearly defined break between regions or areas of a larger planning area. Edges can be natural or manmade; examples include ridgelines, waterways, canyons, and major roadways.

Region

A large area defined by natural characteristics such as geology, soils, vegetation, and access.

SOFT-SURFACE TRAIL TERMS

Sustainable Trails

A sustainable trail balances many elements. It has very little impact on the environment, resists erosion through proper design, construction, and maintenance, and blends with the surrounding area. A sustainable trail also appeals to and serves a variety of users, adding an important element of recreation to the community. It is designed to provide enjoyable and challenging experiences for visitors by managing their expectations and their use effectively.

Natural-Surface Trail

A tread made by clearing, grading, and compacting the native soil with no outside foreign material imported for stabilization.

Tread

The actual surface portion of a trail upon which users travel.

SOFT-SURFACE TRAIL TERMS -- CONT.

Trail Corridor

The area that is maintained clear of obstacles and debris to allow users to travel freely. Dimensions vary based on the anticipated user. The width includes the tread, the out-slope, the back-slope, and any additional clearance requirements. The height dimension is measured from the ground surface from the edges of the clearance width to create the full corridor.

Grade

The steepness of a trail, measured by rise-over-run.

Contour Trail

A trail constructed such that it follows a contour, with its elevation remaining constant.

Fall-Line Trail

A trail that is constructed perpendicular to the contours of a slope so that water travels the length of the trail instead of over the tread. Fall-line trails accelerate erosion.

Technical Trail Feature (TTF)

An obstacle placed on the trail specifically to enhance technical challenge. The feature can be either built or natural, such as an elevated bridge or a rock face.

Erosion Control

Water Bar: A structure built to divert water from a trail, constructed from logs or stone.

These are most often used to prevent erosion on a fall-line trail. They are often hazardous to bikers and horses and require replacement every few years.

Rolling Grade Dip: The preferred method to shed water from a trail. This is an undulation in the tread that traps water and diverts it off the trail. These require little maintenance once installed.

Elevation Gain Techniques

Switchback: A grade reversal technique for moving a trail up steep side-slopes. The transition is made by way of a flat landing or pad. A correct switchback will shed water off the back of the landing, and there is an immediate separation of trail segments.

Climbing Turn: A turn used to change direction that does not have a constructed platform or landing. The upper and lower legs of a climbing turn are joined by a short section of trail (the apex) that lies in the fall line. Water is shed to the inside of the trail turn. Climbing turns may be used where side slopes are moderate and foot traffic will be minimal.

Stairs: Stairs built out of rock or wood are used to gain elevation quickly or where a contour trail is not possible because of environmental constraints. Stairs should be used only when all users are expected to travel by foot.

PATHWAY AND BIKE FACILITY TERMS

Bicycle Facilities

A general term for improvements and provisions made by public agencies to accommodate or encourage bicycling, including bike racks and lockers, bikeways, and showers at employment destinations.

Bike Lane

A striped lane for one-way bike travel on a street or highway.

Bike Path

A right-of-way for bicycle travel, separate from a street or highway, typically along rail, water, or utility corridors.

Bike Route

A travelway for bicycles through a community, providing a superior route based on traffic volumes and speeds, street width, directness, and/or cross-street priority, denoted by signs only.

Bikeway

A generic term for any road, street, path, or way that in some manner is specifically designed for bicycle travel, regardless of whether such facilities are designated for the exclusive use of bicycles or are to be shared with other transportation modes. (MUTCD 2000, part 9)

Multi-Use Trail or Shared-Use Path

A bikeway physically separated from motorized vehicular traffic by an open space or barrier and either within the highway right-of-way or within an independent alignment. Shared-use paths might also be used by pedestrians, skaters, wheelchair users, joggers, and other non-motorized users. (MUTCD 2000, part 9)

Grade Separation

Vertical isolation of travelways through use of a bridge or tunnel so that traffic conflicts are minimized.

Paved Shoulder

The outer edge of the roadway beyond the outer stripe edge that provides a good place for cyclists when it is wide enough (4 to 5 feet), free of debris, and does not contain rumble strips or other obstructions.

Traffic Calming

Changes in street alignment, installation of barriers, and other physical measures to reduce traffic speeds and/or cut-through volumes in the interest of street safety, livability, and other public purposes.

Traffic Control Devices

Signs, signals, or other fixtures, whether permanent or temporary, placed on or adjacent to a travelway by authority of a public body having jurisdiction to regulate, warn, or guide traffic.

SIGNAGE TERMS

Assurance Markers

Assurance markers assure users they are going in the right direction. They should be used in conjunction with directional signs and place markers to assure a person reaches his or her desired destination or achieves a desired experience. These markers should also be distinct enough to distinguish them from other markers of similar purpose.

Directional Signs

Directional signs indicate the direction of travel toward a destination or experience. They should be placed at road and trail junctions. These signs often double as information signs by indicating when route conditions are changing.

Regulatory Signs

Regulatory signs provide for public safety or inform the public of key rules. Signs that provide for public safety should be brightly colored. The greatest amount of "sign pollution" comes from regulatory signs, so whenever possible, consolidate rules and regulations into one sign or integrate with an information sign.

Information Signs

Information signs provide information about the distance, conditions, and experiences of a place or trail. These signs may be a small post or a large, integrated kiosk.

Information signs often include a map or other reference key. When using a map it is important to identify where the viewer is in relation to the other information.

Interpretive Signs

Interpretation is an educational activity that aims to reveal meanings and relationships by the use of original objects, by firsthand experiences, and by illustrative media, rather than simply to communicate factual information. Interpretive signs seek to assist the visitor in developing a keener awareness, appreciation, and understanding of an area, to accomplish management goals, and to promote public understanding of an agency's goals and objectives.

Place Markers

Place markers tell a person that he or she has arrived at his or her destination. In addition, the sign itself should reflect the personality of the destination, management agency, or community it represents. These signs should be large and visible. Smaller versions of place markers are often used on directional and assurance signs for consistency.

WINTER TRAIL TYPE DEFINITIONS

Ungroomed/Unmarked Trails

Users: Backcountry skiers, backcountry snowboarders, cross-country skiers, snowshoers, sledgers, hikers, snowmobilers

Terrain: Varied

Evidence of management: Minor

-Portal signs, place markers

Management risk and liability: Low

Infrastructure: Minimal

-Portal access

Maintenance: None

Hiking/Snowshoe Trails

Users: Hikers, ice climbers, snowshoers

Terrain: Sloping to steep, rocky, or icy

Evidence of management: Moderate

-Place markers, directional signs, assurance signs

Management risk and liability: Low

Infrastructure: Minimal

-Portal access, existing summer trails

Maintenance: None

Nordic/Skate Ski Trails

Users: Traditional cross-country skiers and skate skiers

Terrain: Gentle and rolling

Evidence of management: Moderate to heavy

-Portal signs, place markers, assurance signs, directional signs, regulatory signs, fees and passes

Management risk and liability: Moderate

Infrastructure: Moderate

-Trailhead parking, existing roads and trails

Maintenance: Grooming, track setting, signage

Alpine Trails

Users: Downhill skiers, snowboarders

Terrain: Sloping to steep

Evidence of management: Heavy

-Portal signs, place markers, assurance signs, directional signs, regulatory signs, fees and passes, patrols, enforcement

Management risk and liability: High

Infrastructure: Major

-Parking lots, lifts, lodges, medical facilities

Maintenance: Grooming, signage, snowmaking, lifts, facilities

WINTER TRAIL TYPE DEFINITIONS -- CONT.

Over-Snow Vehicle (OSV) Trails**Users:** Snowmobilers**Terrain:** Gentle and rolling**Evidence of management:** Moderate to heavy

- Portal signs, assurance signs, directional signs, regulatory signs, fees and passes

Management risk and liability: Moderate**Infrastructure:** Moderate

- Trailhead parking, existing roads open to motorized travel

Maintenance: Grooming, signage**Shared Trails****Users:** Walkers, dog walkers, Nordic skiers, snowmobilers, snowshoers**Terrain:** Flat to rolling**Evidence of management:** Minor to moderate

- Portal signs, assurance signs, directional signs, regulatory signs

Management risk and liability: Low**Infrastructure:** Minimal

- Trailhead parking, existing roads

Maintenance: Plowing, signage

WINTER RECREATION TERMS

Skijoring

Skijor (ski-jur) is a Norwegian word that means "ski-driving". It is a fast-growing winter sport that involves cross-country skiing while in tow with a dog leading the path. It is enjoyed on many levels, from jaunts with the family dog, to noncompetitive fun runs, to all-out racing. All that is needed is a good, strong dog and a pair of cross-country skis. The skier is tethered to the dog and must work in cooperation to keep a steady pace with the animal.

Skate Skiing

Originated by ancient Scandinavian hunters, this speedy Nordic technique for the athletically inclined uses diagonal skating strides. The skier steps out of the ski track with his or her dominant leg and ski, kicking diagonally for propulsion. The other ski is simply used to glide on. Skate skis are shorter, narrower, and do not have a scaled finish on the base for traction like classic "no-wax" skis. In skating, the inside edge of the ski is used for traction while pushing off. Also, the poles are way longer than any other type of ski pole, in some cases as long as the ski. Skate skiing requires a wide, groomed surface to do it efficiently.

Telemark Skiing

Telemark skiing, also called free-heel skiing, is a ski technique focused around the telemark turn. Telemark skiing is often incorporated into cross-country skiing, because the telemark turn allows skiers greater control over their movements. The telemark turn is a skiing technique for making smooth, fast, stable turns on a variety of surfaces.

Summer Recreation Trails

Winter Recreation Trails

Meet the representatives from Alta Planning + Design!

Jeff Olson, Principal

Jeff is a registered architect who has been involved in greenways, open space, and alternative transportation projects for more than 20 years. Jeff's work includes the award-winning Grand Canyon Greenway, the 1,000-mile New York State Bicycle Route System, and numerous bicycle, pedestrian, and trail plans that he participated in from positions in both the private and public sectors. His diverse career experience provides him with unique and valued vision and leadership abilities.

Matt Benjamin, Planner

Through his work with the Los Angeles County Bicycle Coalition and the Los Angeles County Metropolitan Transportation Authority, Matt has accrued extensive experience in leading public outreach and planning efforts. Matt specializes in developing strategies to ensure that the needs and desires of both the public and the contracting organization are met.

CAMP: WINTER

Meet the representatives from Trail Solutions!

Cimarron Chacon, ASLA

Cimarron is a renowned trail planner and designer. Prior to her time with Trail Solutions she developed multiple trail systems throughout the West as the Landscape Architect Over Trails Policy for the Bureau of Land Management, influencing public policy and design criteria for recreation sites on public lands. She has dealt with design and development on lands in the urban interface of several rapidly growing communities in the West, and her most prized trail system, Utah's Gooseberry Mesa, was recently designated as a National Recreation Trail by the Secretary of the Interior.

Cimarron was a contributing author to IMBA's *Managing Mountain Biking* and other outdoor and professional publications. In addition, she developed and taught courses on trail management and visual resource management for the Bureau of Land Management, United States Forest Service, National Park Service, and Federal Highway Administration.

Joey Klein, Trail Specialist

Joey has been on the trail for IMBA since 1999, traveling the globe to share his knowledge of and passion for multi-use trail systems in 45 states and 13 countries. He has recently returned from working on a project with National Parks Singapore in the design and construction of a mountain bike center on a small island near Malaysia. With a population of four million people, Singapore is linking all of their National Parks with shared-use pathways.

Formerly a ski patroller at Arapahoe Basin in Colorado, Joey built the initial mountain bike trails at neighboring Keystone Resort. He has spent the last five summers at Tamarack Resort in Idaho as the trail designer, working with planners to incorporate a brand-new system for residents and visitors who wish to hike, fish, rock climb, zip line, mountain bike, ski, snowshoe, and snowmobile.

Alta Planning + Design, Inc.

Alta Planning + Design is one of North America's leading firms specializing in progressive transportation planning, design, and implementation. We focus on multi-modal solutions, particularly bicycle, pedestrian, and trail corridors and systems.

Alta provides a full range of services including:

- master plans
- project design
- sign plans
- public involvement
- environmental review and documentation
- bicycle/pedestrian integration with transit
- corridor plans
- bicycle parking design
- plan updates
- school safety studies
- technical assistance and trainings
- construction documents and observation

We are at the forefront of the progressive transportation movement. Alta staff is active in the Association of Pedestrian and Bicycle Professionals, Institute of Transportation Engineers, Transportation Research Board, Women in Transportation Seminar, and is conducting national studies for the U.S. Department of Transportation. We conduct pedestrian and bicycle trainings nationwide, and have been involved in award-winning plans and projects.

Alta Planning + Design offers a full range of design services, from site analysis and design to bid documents and contract administration. As alternative transportation specialists, we are able to meet the technical requirements of projects while simultaneously providing a high level of design creativity. We excel in identifying design solutions presented by the unique challenges found on trail, bikeway, and pedestrian projects. Our experience ranges from urban redevelopment projects, streetscapes, and multi-use paved trails to hiking and seasonal-use trails in environmentally sensitive areas. We strive to enrich the trail user experience through a design identity that responds to the particular needs and opportunities of the project environment.

We have experience working in all size communities, from a few hundred to millions, from towns to cities to counties, regions, and states, from rural to mountain to desert to suburban and urbanized areas. We strive to tailor each project to the community's unique setting, history, and culture through an active public participation process. Alta staff are proud to have designed and implemented over 3,500 miles of bikeways, walkways, and trails.

Trail Solutions is North America's premier natural-surface trail consulting program offering flexible, fee-based trail services that range from trail planning, design, and construction to environmental services and dispute resolution. Our mission mirrors that of our parent organization, the International Mountain Bicycling Association (IMBA) - to create and enhance trail opportunities and access around the world.

Staff

Trail Solutions has over 10 project staff available with skills including landscape architecture, trail design, and environmental evaluations. Trail Solutions professionals have worked in all 50 states, 10 provinces, and a dozen other countries including Scotland, Italy, Israel, Mexico, Singapore, New Zealand, Tasmania, Wales, Australia, Greece, Costa Rica, and Thailand.

Services

Trail Planning

Using community-based planning techniques Trail Solutions provides a vision for the public and land management agencies to get started with their own world-class system. The process begins and ends with the users, the unique terrain and characteristics of the landscape, and the desired outcome of the system. Through the planning process Trail Solutions can provide guidance on system management, development standards, project costs, and signage and branding.

Trail Assessment

Most trails and trail systems have developed socially. Beyond getting from here to there, little thought was given to the potential long-term effects of the chosen route or the experience provided along the way. Trail Solutions provides guidance on retrofitting haphazardly developed trail systems into networks that efficiently disperse trail users, provide the experience they are seeking, and do so with minimal long-term environmental impact.

Boulder, Colorado – Hood River, Oregon – Harrisonburg, Virginia – Collingwood, Ontario

www.imba.com 720/308-2777

Trail Design

Trail Solutions believes that the success of a trail is highly dependent on both the environmental and social sustainability of the trail. A well-designed trail should cause minimal damage to the surrounding landscape and require minimal maintenance over time. That same trail should also provide the trail user with the experience they are seeking. Melding these design parameters is a great challenge. Whether the challenge means designing a shared-use trail that minimizes potential user conflicts or a low impact downhill mountain biking trail, Trail Solutions is up to the task.

Trail Construction

With over 100 miles constructed in the past five years, Trail Solutions takes great pride in staying on the cutting edge of innovative trail construction techniques. Providing turn-key construction with a mechanized crew, tackling a hybrid contracting project with local volunteers, or working cooperatively with other professional trailbuilders - Trail Solutions is flexible and seeks to put the best trail product on the ground.

Trail Education

The foundation of a successful trail system is a high level of knowledge regarding sustainable trail design, construction, and maintenance. Trail Solutions provides custom-designed trail training seminars covering topics ranging from economic/social development through trails, design and construction of advanced-level mountain biking trails, trail system design, volunteer management, crew leader training, and mechanized trailbuilding.

CAMP:
WINTER Featured Presentation

FOUR-SEASON TRAILS:

How Communities Around The World Get It Done

Exhibit Hall, Mountainside Conference Center, Main Lodge
Friday, February 8th at 6:30 p.m.

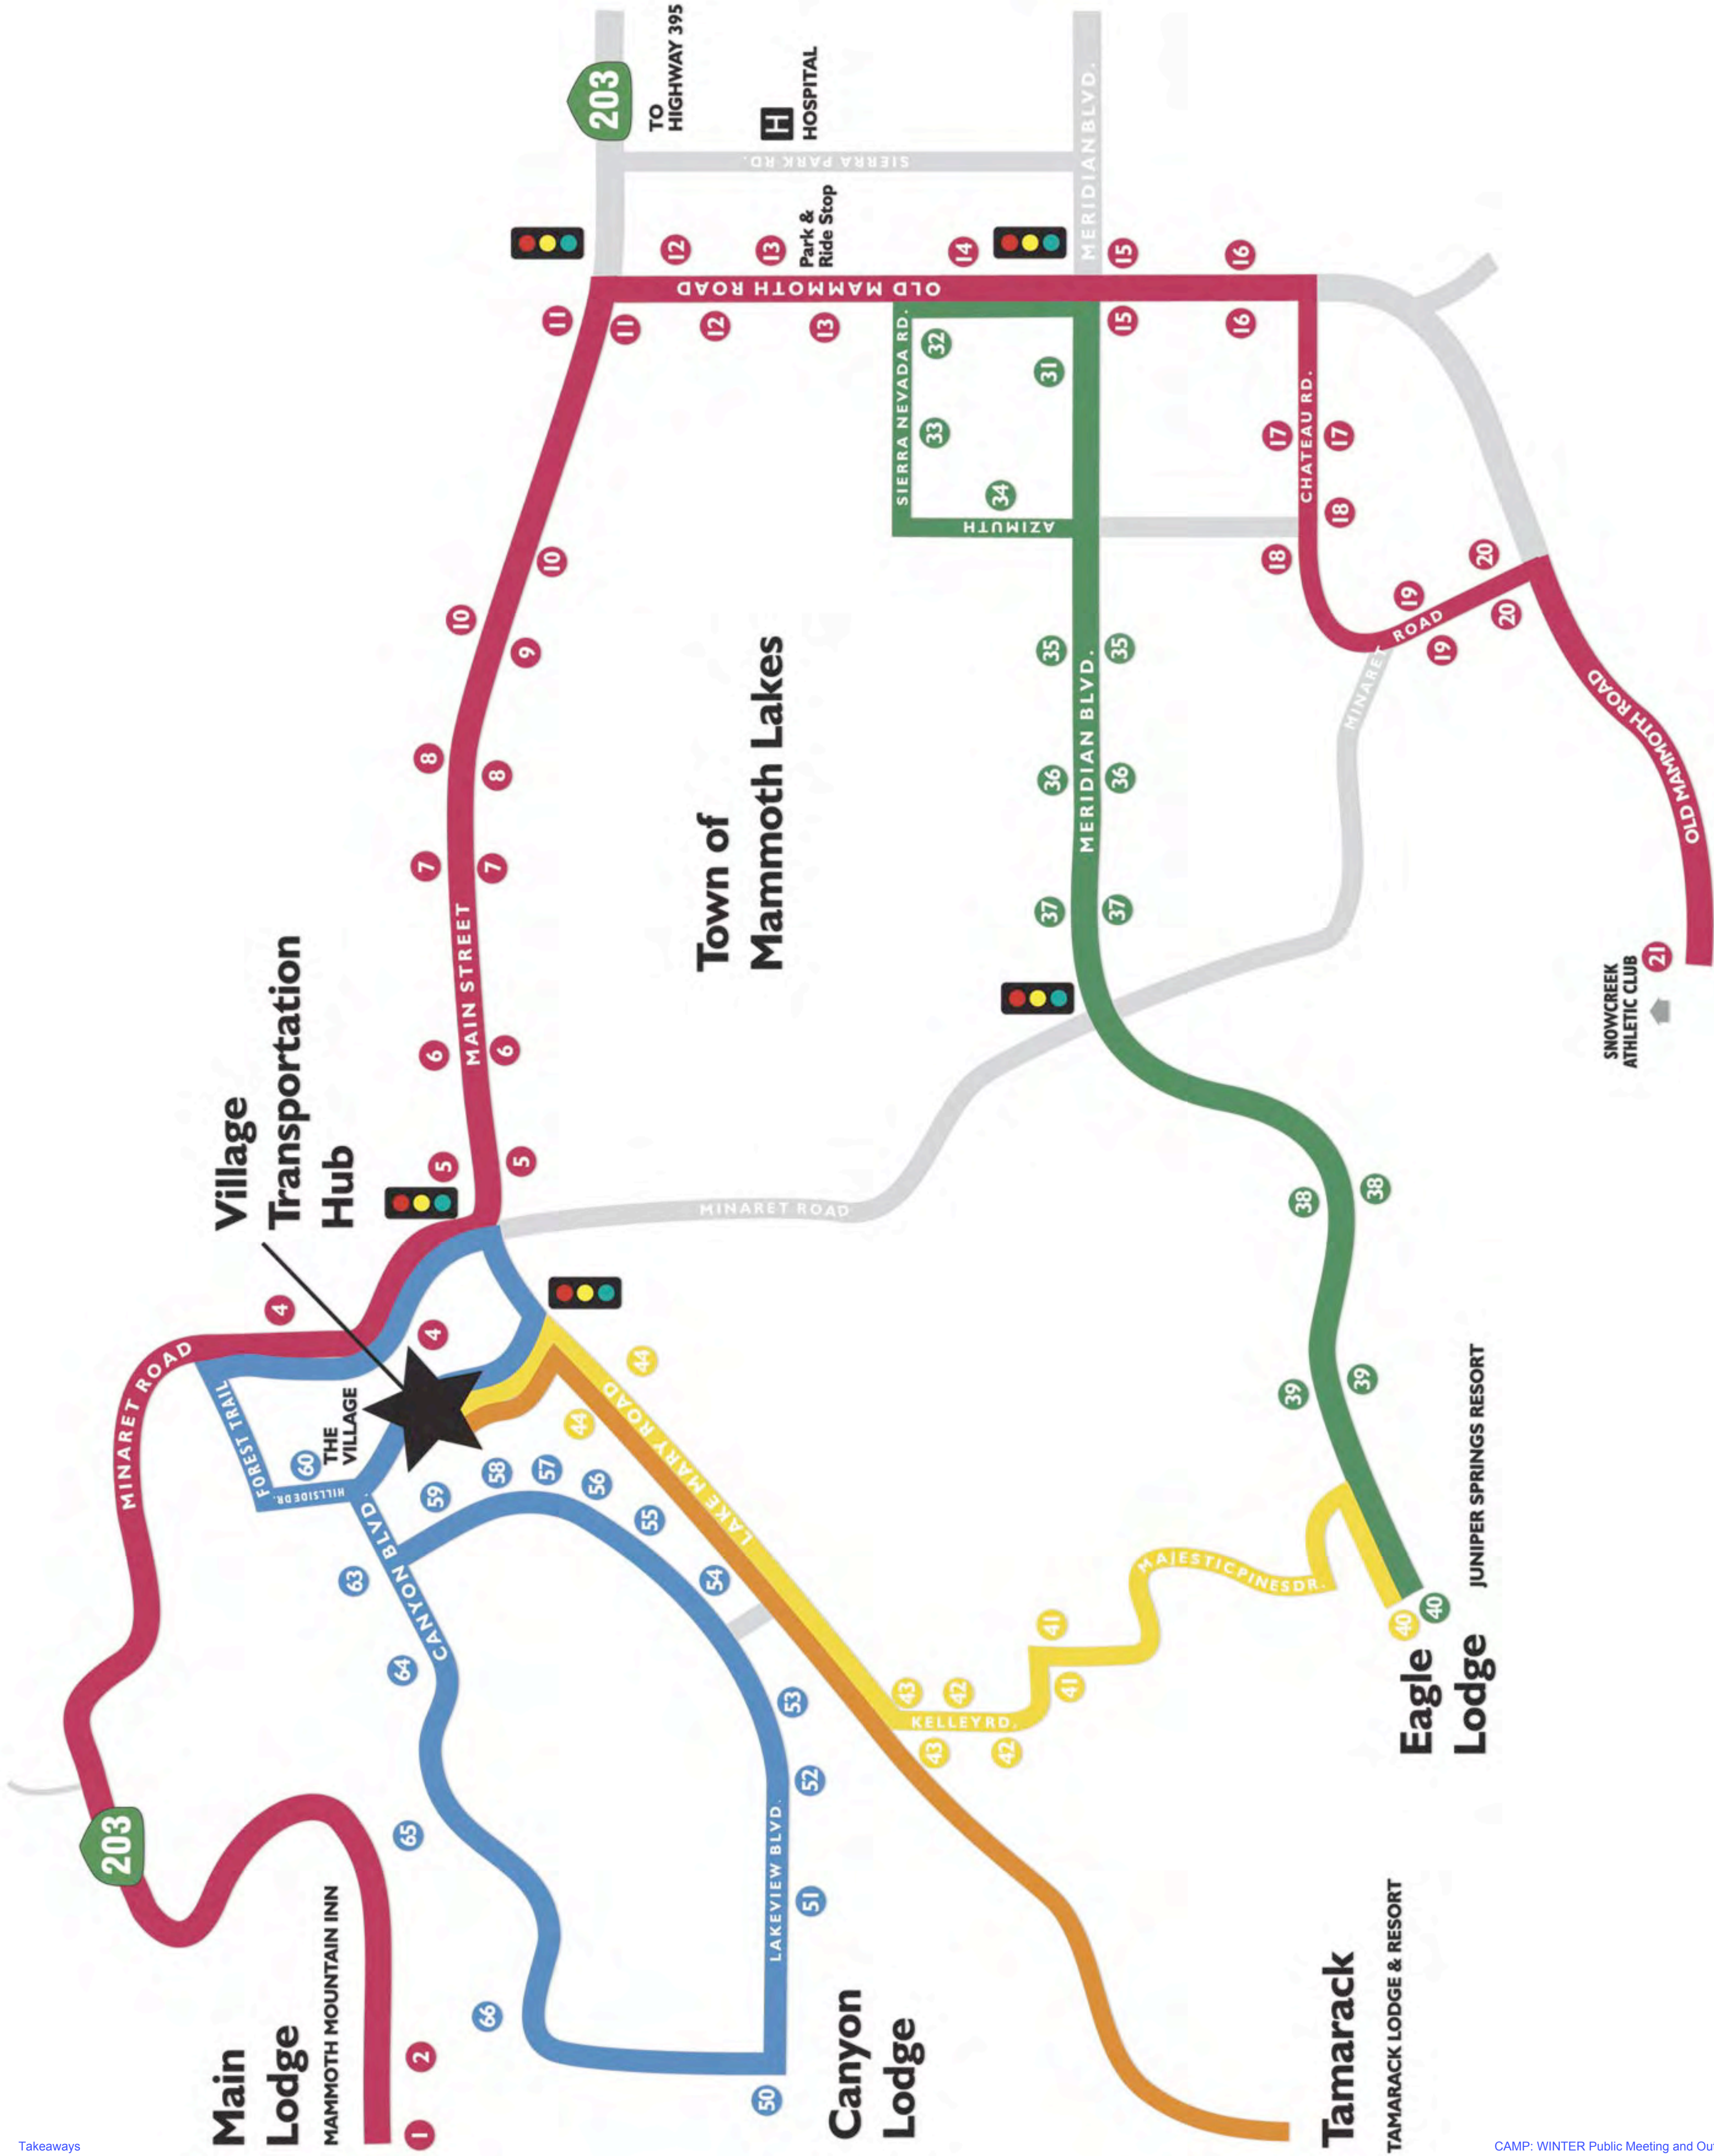

This presentation...

...by world-renowned trail designer Joey Klein, will take the audience on a tour around four continents, highlighting the history and meaning of why we love trails, how communities deal with their own unique geographies - balancing seasonal and geological challenges, and heroic tails of how citizen groups have come together to make their own dreams a reality, just as Mammoth is doing now.

www.mltpa.org

GETTING TO CAMP: WINTER BY PUBLIC TRANSPORTATION

Mountainside Conference Center at Main Lodge

7:00 a.m. to 5:30 p.m.: The **Red Line** begins at Snowcreek Athletic Club (stop #21) and runs along Old Mammoth Road and Main Street, turning up Minaret Road at The Village and continuing up to Main Lodge (stop #1). It runs every 15 minutes.

Suite Z

7:00 a.m. to 5:30 p.m.: The **Red Line** begins at Snowcreek Athletic Club (stop #21) and runs along Old Mammoth Road and Main Street, turning up Minaret Road at The Village and continuing up to Main Lodge (stop #1). It runs every 15 minutes. Get off at the Vons plaza (stop #15) and walk through the parking lot toward Minaret Cinemas. The staircase outside the cinema will take you directly to Suite Z—look for the CAMP: WINTER signs!

The **Green Line** also is available every 15 minutes between 7:00 a.m. and 5:30 p.m., and runs along Meridian Boulevard from Little Eagle Lodge to Old Mammoth Road. Get off at the intersection of Meridian Boulevard and Old Mammoth Road (stop #31), across from Starbucks, and cross the street to the Vons plaza. Walk through the parking lot toward Minaret Cinemas. The staircase outside the cinema will take you directly to Suite Z—look for the CAMP: WINTER signs!

TOML Visitors Center

7:00 a.m. to 5:30 p.m.: The **Red Line** begins at Snowcreek Athletic Club (stop #21) and runs along Old Mammoth Road and Main Street, turning up Minaret Road at The Village and continuing up to Main Lodge (stop #1). It runs every 15 minutes. Get off at the intersection of Old Mammoth Road and Main Street (stop #11) and walk east along Main Path, on the north side of Main Street. The trail will take you directly to the Visitors Center.

TOWN OF MAMMOTH LAKES
PUBLIC WORKS DEPARTMENT

SNOW MANAGEMENT POLICY

Goal

The goal of the Town of Mammoth Lakes snow management effort is to provide for the safest possible movement of traffic throughout the community during winter months and particularly during storm periods.

The Snow Management Policy is intended to provide Town staff with guidance and to insure that:

- Public safety is always the primary concern;
- All areas are treated equitably;
- Priorities are understood by all; and,
- Proper responsibility and authority is established.

There are approximately 104 lane miles of roads which receive snow removal. During normal storms [up to one(1) foot six (6) inches of snow fall] it takes Town crews approximately 12 hours to plow every street in Town and approximately 20 hours to blow every street. After storms, clean-up is necessary which takes between 12 and 24 hours to accomplish.

Snow management in the Town of Mammoth Lakes is a function of manpower and equipment. We have Ten (10) full time operators and four (4) temporary operators during the winter. We also have five (5) full-time mechanics that are used as snow removal operators during storm periods. The snow removal equipment includes five (5) loaders with blades, two (2) trucks with plows and cinder spreaders, one (1) grader and three (3) snowblowers. The manpower and equipment are divided into two 12-hour shifts during storm periods. The night shift starts at midnight and goes continuously until noon. The day shift begins at noon and continues until midnight.

The Town currently contracts out snow removal for all assessment and benefit assessment districts, including the Bluffs and Juniper Ridge. For the Bluffs and Juniper Ridge, snow removal consists of plowing and blowing streets. For North Village and Old Mammoth Road, snow removal consists of plowing streets, blowing streets and sidewalks and hauling snow with trucks. Sidewalks shall be blown once per day or when the snow accumulates in excess of 6 inches or more either at the conclusion of or during a storm event. Sidewalk ice conditions shall either be removed by chipping or by other means appropriate to the Division Maintenance Manager, including ice melt and/or cinders. This includes Town sidewalks and trails that are currently being cleared and those sidewalks to be cleared in the future. Snow berms on Old Mammoth Road and in North Village shall be removed within four (4) days following the conclusion of a storm event, then removal of the berm shall occur more frequently as time permits during the storm cycle.

Priorities

In an effort to achieve the Town's goal of safe snow removal operations, priorities are set, as conditions change, to establish an efficient and safe order of snow management.

Priority Order:

1. Support for emergency agency responses.
2. Main arterials and bus routes.
3. Secondary residential streets.
4. Cul-de-sacs.

5. Scenic loop.
6. Park and ride lot.
7. Sidewalks and trails.
8. Bus shelters.
9. Traffic signals and pedestrian beacons.

Level 1 Operations:

During normal, manageable storms, all roads are considered top priority with preference given to main arterials and bus routes. When a crew goes into an area, all streets will be plowed before leaving that area. Bus routes will be plowed prior to 7:00 a.m. and maintained in a safe condition during the day. Blowers are generally 2-1/2 to 3 hours behind plows and will blow all streets to the snow stake line before leaving an area. The Public Works Maintenance Manager may close roads and determine detours whenever it is deemed necessary for public safety.

Level II Operations:

When snowfall exceeds the ability of Town crews to successfully perform normal operations throughout the Town, the Public Works Maintenance Manager may, with the concurrence of the Public Works Director and Town Manager, implement Level II operations.

During Level II Operations, the 4th through 9th level priorities may be suspended until such time as normal operations are again possible. Personnel from other Town departments may be assigned to storm related duties. The Public Works Maintenance Manager may close roads and determine detours whenever it is deemed necessary for public safety. Additionally, the standards for the 3rd priority, secondary residential streets, may be lowered to allow for one lane of traffic only, with turnouts for passing about every 100 yards. This reduction in standards may also apply during normal operations when there is inadequate snow storage area within the Town rights-of-way to blow snow without the possibility of damaging private property.

Level III Operations:

When snowfall exceeds the ability of Town crews to successfully perform Level II operations throughout the Town, the Public Works Maintenance Manager, with the concurrence of the Public Works Director and Town Manager, may implement Level III, or emergency operations. During Level III operations, priority levels 3 through 9 are suspended. Emergency snow removal contracts may be implemented. The Town Manager, if a state of emergency is declared, may conscript whatever manpower and/or equipment needed for the purpose of providing adequate public safety. This can include use of all contracted private operators removing snow in the assessment district areas.

Whenever it is deemed necessary for public safety, The Public Works Maintenance Manager may close roads and determine detours.

Specific Procedures

- A. Lake Mary Road, from the Juniper Ridge development to Twin Lakes Bridge, is under USFS jurisdiction and snow removal operations will be guided in compliance with the agreement between the Town and the USFS. It is our intent to keep the roadway open whenever it can be safely achieved.
- B. The Mammoth Scenic Loop Road will be included in snow removal operations during daylight hours only. As conditions on Town roads deteriorate, Town representatives will determine when the Scenic Loop Road is to be removed from snow removal operations and closed until such time as all other Town roads have been cleared.

- C. Roads in the Sierra Valley Sites will be included in normal plowing operations. However, due to heavy residential congestion blowing operations will take place during daylight hours only. Due to this restriction, this area shall receive first priority when daylight is sufficient for operations under Level I and II Operations.
- D. Snow management on the State Route 203 frontage roads will be performed between the hours of 2:00 a.m. and 6:00 a.m. due to parking regulations.
- E. Cinders shall be used on Town roads to assist in traction of vehicles, especially following snow removal as needed.
- F. All contractors employed by the Town to remove snow for assessment districts shall comply with the goals and objectives contained in this policy.

Municipal Code Sections:

- A. Section 10.12.100 establishes parking regulations during winter months. Parking control will be handled by the MLPD.
- B. Section 12.04.080 governs snow Management on Town rights-of-way.
- C. Sections 12.16.040 through 12.16.080 regulate private snow removal operations.

Miscellaneous

- A. The Public Works Maintenance Division has established snow management guidelines for all Town operators. If necessary, the Public Works Maintenance Manager is authorized to amend the guidelines to implement this policy and shall inform the Public Works Director, when convenient, but no later than 12 hours following the decision to implement this policy. Nothing in this policy is intended to interfere with the Manager's duty to make decisions necessary to implement the goals and objectives of the Town of Mammoth Lakes.
- B. The Town operates a snow storage pit under private contract. The Pit is located on the north side of State Route 203 between Meridian Blvd and the USFS Welcome Center. The Pit is open from 2:00 a.m. to 12:00 p.m. seven days a week. The Town has identified several other sites for use when conditions and circumstances warrant. Please contact the Public Works Maintenance Manager for other site locations.

TOWN OF MAMMOTH LAKES
PUBLIC WORKS MAINTENANCE DIVISION

SNOW REMOVAL GUIDELINES

During the winter months, the Public Works Maintenance Division is responsible for the snow removal in Mammoth Lakes. There are many different ways to remove snow as well as many different types of snow removal equipment.

The ultimate goal of the Public Works Maintenance Division is to have dry, black pavement on every publicly maintained road in Town. In order to reach this goal, all operators will use the following techniques.

Town equipment will not be taken onto private property at any time. Any Town employee removing snow or doing any work with Town equipment off Town rights-of-way will be subject to disciplinary action.

DURING STORMS

During storms every effort should be made to keep our roads passable. Snow will be plowed to within 4' to 6' from the snow stake line. The blowers will then remove the berms to the stake line. This will keep snow berms in driveways to a minimum. All intersections will be cleaned completely and the snow carried down and away from the corners. Snow will not be "stacked" at any intersection. When plowing or blowing any area, all roads will be done before leaving the area, unless you are instructed to do otherwise.

When using a "plow truck," speed must be kept within legal and safe limits. "Plow trucks" are effective in new snow; however, they are not effective when the snow has been packed by traffic. When plowing with a loader or grader, every effort will be made to get down to the pavement surface. This may seem to be a waste of time when snow is still falling, but every bit of snow that is removed this way is snow that will not form a "cap." At no time will a loader or grader be used in the "float" position. Care must be taken when plowing to leave signs and snowstakes unharmed, especially when blowing.

AFTER STORMS

After storms there is usually a large amount of "cap" on Town roads. The sooner we can "cut cap" the easier our work will be. Fresh "cap" can be removed fairly easily with the loaders and graders. Some "cap" can turn into "Sierra Concrete" and this is very difficult to remove. To effectively remove "Sierra Concrete" with a loader takes time and patience. "Square" balding is most effective, however, it makes quite a mess. When possible, we will use plow trucks for clean-up and moving berms out of the way. The more you roll the blade forward the better it cuts "cap." Care must be taken to keep speed down for control and safety. Graders are most effective on long straight roads.

When everyone gives snow removal their best effort, we can accomplish our ultimate goal of dry, black pavement on every public road in Town. If just one operator "slacks off," this means somebody else has to put forth more effort and time than necessary. When this happens our ultimate goal is not reached and can result in complaints from the citizens and visitors of Mammoth Lakes.

Attached are some operator responsibility guidelines. These were developed so that each piece of snow removal equipment is ready to go out at a moment's notice and operate at full capacity. These guidelines will be adhered to.

Time cards will be filled out daily, recording which piece(s) of equipment were used in Town that day. This report will also include the times work began and ended in each area.

If at any time you are involved in an accident of any kind, your immediate supervisor, the Risk Manager or the police must be notified. These accidents include vehicles, private property, manholes, etc. Do not make any prejudicial statements that may construe fault at the scene of any personal injury or liability accident. If you are unable to reach a supervisor or the police, make sure you document the incident recording the date, time, type of accident, vehicles, property, or persons involved and any other information you are able to gather at the scene. If, after gathering all information, you are still unable to reach someone, use your best judgment in deciding how to handle the situation or whether to leave the scene.

An accident report must be completed for each incident before you go off duty.

GRADERS

- A. Pre-Operation - All fluid levels will be checked and filled to proper levels. All lights must be in working order. A visual walk-around inspection must be made, to include chain condition and cutting edge condition. Any necessary repairs will be made and reported to your immediate supervisor before leaving the yard.
- B. Operation - During operation, the operator is responsible for monitoring all gauges and warning lights on the machine. The operator will monitor the chain condition and cutting edge condition. Cutting edges will be replaced when there is $\frac{1}{2}$ " minimum between it and the moldboard. Cutting edge and chain repairs will be done immediately to avoid costly and time consuming repairs later. Care should be taken to maintain even and straight cutting edges
- C. Post Operation - Before parking any grader, all fluid levels will be checked and filled. Cutting edges and chain condition will be checked. Any rutting edge or chain repairs will be done. All lighting and minor repairs will be done by the operator. Hardfacing of chains will be done at the earliest convenience during breaks in the storms. Any repairs the operator cannot perform will be written up on the proper forms and turned in to the mechanics. The mechanics will determine importance and repair according to their schedule. Hour meter will be checked and, if service is due, mechanics must be notified. All vehicles used during the shift will be greased and fueled at the end of the shift.

LOADERS

- A. Pre-Operation – All fluid levels will be checked and filled to proper levels. All lights must be in working order. A visual walk-around inspection of the loader must be made, including chain and blade condition. Any repairs must be made and reported to your immediate supervisor before leaving the yard.
- B. Operation - During operation, the operator is responsible for watching all gauges on the machine, the chain condition, and cutting edge condition. The cutting edge will be replaced when there is a $\frac{1}{2}$ " minimum between it and the moldboard. All bolts must be in place and kept tight at all times. If the cutting edge needs repair or replacements or the chains need attention, it will be done immediately to avoid costly and time consuming repairs later. Care should be taken to maintain even and straight cutting edges.
- C. Post-Operation – Before parking any loader, all fluid levels will be checked and filled. Blades that need replacing or bolts will be taken care of. Chains that need repairs will be repaired. Hardfacing of chains will be done at the earliest convenience, during breaks in storms. All lighting and minor repairs will be done by the operator. Any repairs that operators cannot perform will be written up on the proper forms and turned into the mechanics. The mechanics will determine importance and repair according to their schedule. Hour meter will be checked and, if service is due, mechanics must be notified. All vehicles used during the shift will be greased and fueled at the end of the shift.

BLOWERS

- A. Pre-Operation - All fluid levels will be checked and filled to proper levels. All lights must be in working order. A visual walk-around inspection must be made, to include chain condition, flight condition, blower head and cutting edge condition. Any necessary repairs must be made and reported to your immediate supervisor before leaving the yard.
- B. Operation - During operation, the operator is responsible for watching all gauges on the machine, the chain condition, blower head condition, also rear engine and hydrostatic performance. The cutting edge will be replaced when there is a ½" minimum between it and the mold board. All bolts must be in place and tight at all times. If cutting edge or chains need repair, they will be done immediately to avoid costly and time consuming repairs later. Visibility is bad in blowers and extra care must be taken, especially when backing up. When roading a blower, speed must be kept down.
- C. Post-Operation - Before parking any blower, all fluid levels will be checked and filled. Cutting edges and flights will be checked and all bolts will be replaced or tightened. Chains that need repairs will be repaired. Hardfacing of chains will be done at the earliest convenience, during breaks in storms. All grease fittings on the blower head will be greased. All lighting and minor repairs will be done by the operator. Any repairs that the operator cannot perform will be written up on the proper forms and turned in to the mechanics. The mechanics will determine importance and repair according to their schedule. Hour meter will be checked and, if service is due, mechanics must be notified. All vehicles used during the shift will be greased and fueled at the end of the shift.

PLOW TRUCKS

- A. Pre-Operation - All fluid levels will be checked and filled to proper levels. All lights must be in working order. A visual walk-around inspection of the truck must be made, including chain and blade condition. Any repairs must be made and reported to your immediate supervisor before leaving the yard
- B. Operation - During operation the operator is responsible for watching all gauges on the truck, the chain condition and cutting edge condition. The cutting edge will be replaced when there is a ½" minimum between it and the moldboard. All bolts must be in place and kept tight at all times. If the cutting edge needs repair or replacement, or the chains need attention, it will be done immediately to avoid costly and time consuming repairs later. Care should be taken to maintain even and straight cutting edges.

Post Operation - Before parking any truck, all fluid levels will be checked and filled. Blades, which need replacing or bolts will be taken care of. Chains that need repairs will be repaired. All lighting and minor repairs will be done by the operator. Any repairs the operators cannot perform will be written up on the proper forms and turned in to the mechanics. The mechanics will determine importance and repair according to their schedule. Hour meter will be checked and, if service is due, mechanics must be notified. All vehicles used during the shift will be fueled at the end of the shift

Chapter 11: Volunteers

MLTPA recruited volunteers to assist paid staff in running the CAMP: WINTER event. Volunteers were not compensated in any way for their efforts.

- **MLTPA Board volunteer hours**

MLTPA Board members attended public and private functions. When required, they took digital photographs and recorded notes for particular sessions. Board members also assisted at the Registration Table, with taking guests through the Exhibit Hall, and with directing people to the proper locations for walking and trolley tours. Hours volunteered by member are listed below.

- **John Wentworth, President:** 50 hours
- **Jay Deinken, Vice President:** 14.5 hours
- **Jo Bacon, Treasurer:** 22 hours
- **Will Aldrich:** 14 hours
- **Brooke Pace:** 6 hours
- **Rebecca Paranick:** 4 hours

- **Public volunteer hours**

MLTPA recruited community members Sharon and Malcolm Clark to volunteer at CAMP: WINTER, who mainly assisted with duties at the Registration Table.
